

RECENT ADVANCES IN OUR UNDERSTANDING AND MANAGEMENT OF ADHD

Presenter: Russell A. Barkley, Ph.D.

**Friday, October 20, 2017 ♦ 5:00 p.m. – 8:00 p.m.
Fort Lauderdale, Florida**

ADHD is one of the most common childhood behavioral disorders, affecting up to eight percent of the school-age population and accounting for the largest proportion of children referred to mental health programs in this country. Clinicians are becoming increasingly aware that ADHD in childhood does not disappear over development and that many individuals with the disorder in childhood will continue to manifest the disorder into adulthood. The disorder will persist into adolescence in up to 80 percent or more of the cases diagnosed in childhood, and up to 65 percent of these cases followed into young adulthood. ADHD is also among the most impairing disorders being routinely treated in child and adult outpatient mental health centers, adversely affecting nearly every major domain of life activities studied to date. It is therefore imperative that mental health, medical, and educational professionals have as much up-to-date knowledge of this persistent childhood disorder and its treatment as possible.

This presentation will provide current information on three major advances in understanding the nature of ADHD and its management. First, it will review Dr. Barkley's current theory of ADHD as a disorder of executive functioning and self-regulation as well as its implications for managing the disorder. Second, it will discuss the adult outcomes of children with ADHD and the impairments identified in the numerous major life activities studied to date. And third, this presentation will briefly review the most effective evidence-based treatments for ADHD in children and adults as well as new and promising experimental treatments for the disorder.

ABOUT THE PRESENTER

Russell A. Barkley, Ph.D. is a clinical professor of psychiatry at the Virginia Treatment Center for Children and Virginia Commonwealth University Medical Center, Richmond, VA. He is a Diplomate (board certified) in three specialties, Clinical Psychology (ABPP), Clinical Child and Adolescent Psychology, and Clinical Neuropsychology (ABCN, ABPP). Dr. Barkley is a clinical scientist, educator, and practitioner who has published 23 books, rating scales, and clinical manuals numbering 41 editions. He has also published more than 270 scientific articles and book chapters related to the nature, assessment, and treatment of ADHD and related disorders. He is the founder and Editor of the bimonthly clinical newsletter, *The ADHD Report*, now in its 25th year of publication. Dr. Barkley has presented more than 800 invited addresses internationally and appeared on nationally televised programs such as *60 Minutes*, *the Today Show*, *Good Morning America*, *CBS Sunday Morning*, *CNN*, and many other programs on behalf of those with ADHD. He has received awards from the American Psychological Association, American Academy of Pediatrics, American Board of Professional Psychology, Association for the Advancement of Applied and Preventive Psychology, American Professional Society for ADHD and Related Disorders, New England Educational Institute, the Wisconsin Psychological Association, and Children and Adults with ADHD (CHADD) for his career accomplishments, contributions to research in ADHD, to clinical practice, and for the dissemination of science. His websites are www.russellbarkley.org and ADHDLectures.com .

PROGRAM OBJECTIVES

Participants will be able to:

- Explain Barkley's theory of ADHD as a disorder of executive functioning and self-regulation
- Describe the implications of this theory for management of ADHD and its executive function deficits.
- Discuss the various adult major life activities found to be impaired in longitudinal studies of children diagnosed with ADHD followed into adulthood
- List the implications of these findings for life course management of the disorder
- Compare the major evidence-based treatments for ADHD, and newly emerging and promising experimental therapies for ADHD.

PROGRAM AGENDA

- 4:30 p.m. – 5:00 p.m. Registration
- 5:00 p.m. – 6:00 p.m. ADHD as a disorder of executive functioning - Implications for management
- 6:00 p.m. – 7:00 p.m. Adult outcomes of children with ADHD - Impairments and management
- 7:00 p.m. – 8:00 p.m. Advances in treatments for ADHD
- 8:00 p.m. – 9:30 p.m. Reception

PROGRAM LOCATION

Nova Southeastern University
Rose & Alfred Miniaci Performing Arts Center
3100 Ray Ferrero Jr. Blvd.
Ft. Lauderdale, FL 33314
