# Nova Southeastern University

---

Nova Southeastern University is a not-for-profit, fully accredited, coeducational University classified by Carnegie as both a “high research” and “community engaged” University. It was founded in 1964 as Nova University. NSU’s main campus is located on the 314-acre main campus in Ft. Lauderdale-Davie. It has a presence throughout Florida, the U.S. and in nine countries. Its 18 Colleges of study offer undergraduate, graduate, and professional programs in the fields of medicine, psychology, pharmacy, arts and sciences, dental medicine, education, law, optometry, computer and information sciences, humanities and social sciences, human services and justice, nursing, business, and oceanography. It also has programs offered for children and families through the Mailman Segal College for Human Development and the University School. NSU also brings cultural enrichment to the community through the Museum of Art, the Miniaci Performing Arts College, public access to the Alvin Sherman Library, Research and Information Technology College, and programs in the performing and visual arts.

From the beginning, the University has distinguished itself by its innovative outlook, its unique programs that provide both traditional and nontraditional choices in educational programs, and its research in many fields aimed at solving problems of immediate concern to the community. The University’s Colleges and programs share a common mission to educate students for leadership roles in a variety of professions. Through the Nova Southeastern University plan, students master competencies at each academic level, develop a sense of professional ethics and responsibility, and learn to appreciate the role of the professional as a key individual in society.

NSU stresses the critical relationship between theory and practice; it reinforces and tests the classroom experience through applied research and community service as integral parts of academic experience. Consistent with its mission, the University extends its resources to provide educational opportunities to working professionals nationwide, with faculty teaching on the main campus, online, at regional campuses throughout Florida and Puerto Rico, and across the country. NSU also delivers programs through a variety of educational technologies, including telecommunications. Nova Southeastern University is committed to the idea that education should not be time-bound or place-bound. Through its educational offerings, research projects, and programs of public service, the University encourages the free exchange of ideas and the search for knowledge that is the cornerstone of the academic tradition.

Nova Southeastern University programs are approved for educational benefits by the Bureau of State Approval for Veterans Training, Florida Department of Veterans Affairs. The University is authorized under federal law to enroll nonimmigrant alien students.

Nova Southeastern University’s general policies on student relations are on file in the Office of the University Registrar.

## **NSU Mission Statement**

The mission of Nova Southeastern University, a private, not-for-profit institution, is to offer a diverse array of innovative academic programs that complement on-campus educational opportunities and resources with accessible, distance-learning programs to foster academic excellence, intellectual inquiry, leadership, research, and commitment to community through engagement of students and faculty members in a dynamic, lifelong learning environment.

## **NSU Vision 2020 Statement:**

By 2020, through excellence and innovations in teaching, research, service, and learning, Nova Southeastern University will be recognized by accrediting agencies, the academic community, and the general public as a premier, private, not-for-profit University of quality and distinction that engages all students and produces alumni who serve with integrity in their lives, fields of study, and resulting careers.

## **NSU Core Values:**

Academic Excellence  
Student Centered  
Integrity  
Innovation  
Opportunity  
Scholarship/Research  
Diversity  
Community

*The Mission Statement, Vision 2020 Statement, and Core Values were adopted by the NSU Board of Trustees on March 28, 2011.*

## **Notices of Accreditation Membership and Nondiscrimination**

Nova Southeastern University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (1866 Southern Lane, Decatur, Georgia 30033-4097; Telephone number 404-679-4501) to award bachelor's, master's, educational specialist, and doctoral degrees. The University is chartered by the State of Florida.

The College of Psychology Doctor of Philosophy (Ph.D.) program in clinical psychology is accredited by the Commission on Accreditation of the American Psychological Association. The College of Psychology Doctor of Psychology (Psy.D.) program in clinical psychology is accredited by the Commission on Accreditation of the American Psychological Association. The College of Psychology has two APA accredited pre-doctoral internship program, the South Florida Consortium Internship Program and the Psychology Services Center Internship Program.

*Questions related to the programs' accredited status should be directed to the Commission on Accreditation:*

*Office of Program Consultation and Accreditation  
American Psychological Association  
750 1<sup>st</sup> Street, NE, Washington, D.C., 20002-4242  
Phone: 202-336-5979/E-mail: [apaaccred@apa.org](mailto:apaaccred@apa.org)  
Web: [www.apa.org/ed/accreditation](http://www.apa.org/ed/accreditation)*

The specialist and doctoral programs in school psychology and the master's degree program in school counseling, offered through the College of Psychology, are approved by the Florida Department of Education. In addition, the specialist program in school psychology holds the designation of National Recognition (approval) by the National Association of School Psychologists (NASP).

The College of Psychology offers two programs, (1) the M.S. in School Counseling and (2) the Psy.S. in School Psychology, for practitioners in P-12 schools that were reviewed by the National Council for Accreditation of Teacher Education (NCATE). Nova Southeastern University is accredited by NCATE. NCATE accreditation is awarded to the university through the Fischler School of Education as follows: The Fischler School of Education at Nova Southeastern University is accredited by the National Council for Accreditation of Teacher Education (NCATE) ([www.ncate.org](http://www.ncate.org)). This accreditation covers initial teacher preparation programs and advanced educator preparation programs at all university locations and online. However, the accreditation does not include individual education courses that the institution offers to P-12 educators for professional development, relicensure, or other purposes.

Nova Southeastern University's College of Psychology offers continuing education workshops to psychologists, clinical social workers, mental health counselors, marriage and family therapists, and school psychologists. These courses, which are presented by leading mental health professionals, contribute to the lifelong learning of our students and faculty as well as the professionals in our community.

- **Psychologists**

Nova Southeastern University's College of Psychology is approved by the American Psychological Association to sponsor continuing education for psychologists. Nova Southeastern University's College of Psychology maintains responsibility for this program and its content.

- **Clinical social workers, mental health counselors, and marriage and family therapists**

Nova Southeastern University's College of Psychology is approved to offer continuing education by the State of Florida Board of Clinical Social Work, Marriage and Family Therapy, and Mental Health Counseling. Provider # BAP 330 – exp. 03/31/2017

- **School psychologists**

Nova Southeastern University's College of Psychology is approved to offer continuing education by the State of Florida Board of Medical Therapies/Psychology, Office of School Psychology. Provider # SCE 11 – exp.11/30/2017.

Nova Southeastern University's College of Psychology is approved by the National Association of School Psychologists to provide continuing education for school psychologists. Nova Southeastern University maintains responsibility for the program. Provider number 1024.

Nova Southeastern University's College of Psychology has been approved by NBCC as an Approved Continuing Education Provider, ACEP No.4548. Programs that do not qualify for NBCC credit are clearly identified. Nova Southeastern University's College of Psychology is solely responsible for all aspects of the programs.

Nova Southeastern University admits students of any race, color, sex, age, nondisqualifying disability, religion or creed, sexual orientation, or national or ethnic origin to all the rights, privileges, programs, and activities generally accorded or made available to students at the school,

and does not discriminate in administration of its educational policies, admissions policies, scholarship and loan programs, and athletic and other school-administered programs.

Nova Southeastern University reserves the right to amend, modify, add to, or delete its rules, policies, and procedures without notice, affecting its institutional relationship with students as deemed necessary by the administration. Any such amendment, modification, addition, or deletion shall not be considered a violation of the relationship between the University and the student. Such right includes modification to academic requirements, curriculum, tuition, and/or fees when in the judgment of the administration such changes are required in the exercise of its educational responsibility.

## President's Message

---

Welcome to Nova Southeastern University!

NSU's main campus is located in Greater Fort Lauderdale with locations around Florida, the Bahamas and Puerto Rico. We are at the heart of the region's academic and research hub, and just minutes from some of the world's best beaches. With more than 26,000 students and 152,000 alumni around the world, you will find Shark Friends in every corner of the country – and beyond. Nova Southeastern University is the largest independent, not-for-profit university in the Southeast, and the seventh largest in the United States. As president of NSU, I invite you to become an ambassador of this extraordinary educational institution that is in its fourth decade of existence.

NSU's undergraduate programs are diverse and all serve as a conduit into more than 100 graduate and professional programs. NSU boasts a strong health professions division and our dual-admit program for undergraduate students is great for those with who wish to pre-apply to our nationally ranked graduate and professional programs. Our business school is the largest in Florida and caters to future business leaders and entrepreneurs who seek a personalized real-world education. Alumni from our school of education are teachers and administrators across the county, including more than 300 sitting superintendents and 38 college presidents hold our Ed.D. degree. NSU's programs in psychology, conflict resolution and family therapy are nationally renowned. So, whether you are preparing to study law, computer sciences or marine biology – NSU is the best choice to pursue higher education.

We are proud to be classified as one of only 37 universities, out of more than 4,000, that have the dual designation of both “high research” and “community engaged.” This did not happen by accident. Our faculty and student researchers are changing the world in areas such as coral reef preservation, cancer drug therapies, autism, neuro-immune medicine, and many others. And our students, faculty and staff give back to the community each year through approximately 2,000 different community events. NSU is committed to providing the highest quality faculty in small classroom environments where interaction is a key ingredient in the learning process.

I invite you to take a few minutes and look around our website and discover NSU. Get to know our faculty, our students and programs – I am sure you will like what you see. Our virtual campus map will give you building-by-building access to our classrooms, athletics facilities, student union, and libraries. And, if you are in town, please stop by to say hello and join us for a tour of our beautiful 300-acre campus.

Sincerely,

A handwritten signature in blue ink that reads "George Hanbury". The signature is written in a cursive style and is set against a light blue rectangular background.

George L. Hanbury II, Ph.D.  
President and CEO  
Nova Southeastern University

## Dean's Message

---

I am pleased to extend you a warm welcome to Nova Southeastern University and the College of Psychology. We hope to guide you through a rich and transformative journey where you will grow personally, academically and socially on the road to becoming major contributors to our society. Our aim is to guide you in your development of skills needed to impact the quality of life of individuals, families, institutions, and communities.

Our College offers bachelor's degree programs in psychology and behavioral neuroscience, as well as graduate programs in clinical and school psychology, counseling, experimental psychology, forensic psychology, and general psychology, along with other specialized training experiences. Our outstanding faculty guide students, not only in discovering and appreciating the factual content of their respective fields of study, but also in developing the critical and creative thinking skills essential to producers or consumers of science and the investigative skills of aspiring professionals, researchers, and clinicians.

The scope of psychology, counseling, neuroscience and related fields is expansive, as our disciplines describe and explain the effects of psychological processes from the level of individual brain cells to the scale of complex social interactions. The areas of expertise our faculty collectively possess are similarly diverse. Regardless of the specific field or subfield of study, however, our students benefit from the greater involvement that small classes provide and from the related opportunities for research collaborations and for experiential placements in community settings.

While the lasting memories of one's years at a university surely include many events beyond the confines of the classroom, one's day-to-day enjoyment while enrolled as a university student depends largely on his or her chosen field of study and engagement with its particular subject matter. The College of Psychology is proud to house engaging undergraduate majors, an array of highly regarded graduate programs and related training opportunities and a clinic that serves our community. We hope that these opportunities at our university will figure positively in the memories our students of their university experience.

Conducting basic and applied research and providing quality assessment and treatment of psychological problems is one of the greatest challenges facing modern society. The College seeks to address these challenges by providing a broad range of training, by conducting research that addresses society's pressing problems, and by offering services to the community through its clinics.

On behalf of the faculty and staff of the College of Psychology, I am pleased to welcome you to Nova Southeastern University. It is my sincere belief and hope that you will find your time here richly rewarding, both during your enrollment with us and, retrospectively, as alumni entering the workforce or continuing to pursue your educational goals.

Karen S. Grosby, Ed. D.  
Dean, College of Psychology

# INTRODUCTION TO THE COLLEGE OF PSYCHOLOGY

The College of Psychology welcomes you to graduate study at Nova Southeastern University. The College of Psychology, first organized in 1967 as the Behavioral Sciences College, is concerned with integrative graduate training, research, and service in psychology and counseling. Because of the competitive nature of the application process for the doctor of philosophy (Ph.D.) clinical program, your admission signifies that you have distinguished yourself by your academic and professional achievements.

The College has many resources available to you during your training years. In addition to the faculty and your fellow graduate students, you will have access to libraries, computer labs, schools, hospitals, clinics, and professional organizations. It is important that you remember, however, that the successful completion of your graduate training rests with you more than anyone else.

This *Policies & Procedures Handbook* was designed to familiarize you with the specific policies and procedures governing the Ph.D. clinical psychology program. Knowledge of the contents of this handbook and of the *College of Psychology Catalog*, available at <http://psychology.nova.edu/>, is essential to ensure the smooth functioning of your graduate training. You are urged to read this handbook at the start of your program and to make frequent reference to it. **Ignorance of policies and procedures in this handbook is not an acceptable defense for failing to abide by them.** The graduate programs continue to evolve, and periodically there may be changes in curriculum, research, practicums, or other requirements. Because these changes occur to improve the training of mental health professionals, changes will become part of the requirements for graduation for all students at the discretion of the Dean, regardless of the student's status in the program.

## Reservation of Power

Nova Southeastern University reserves the right to amend, modify, add to, or delete its rules, policies and procedures without notice, affecting its institutional relationship with students as deemed necessary by the administration. Any such amendment, modification, addition or deletion shall not be considered a violation of the relationship between the University and the student. Such right includes the modification to academic requirements, curriculum, tuition, and/or fees when in the judgment of the administration such changes are required in the exercise of its educational responsibility.

## College Philosophy

The College of Psychology is committed to providing the highest quality educational experience to current and future psychologists and counseling professionals. It provides quality education and training in psychology, school psychology, mental health counseling, school counseling, and clinical psychopharmacology. It encourages the advancement of knowledge through research. Finally, it provides high-level psychological services to a variety of individuals with varying needs.

The College further provides for a variety of professional needs simultaneously. There is a strong commitment to the advancement of psychological knowledge. Faculty members are active in their research pursuits. The clinical Ph.D. program provides training for doctoral candidates pursuing careers as applied researchers. Equally strong is the commitment to provide training for the practitioner-oriented psychologist. The Psy.D. program in clinical psychology provides quality training for doctoral candidates committed to the practice of psychology. The doctoral (Psy.D.) program in school psychology builds upon the College's specialist program (Psy.S.) in school psychology, which is approved by the Florida Department of Education, the National Association of School Psychologists (NASP), and accredited by the National Council for Accreditation of Teacher Education (NCATE). Both school psychology programs provide training for students intending to practice school psychology in a variety of school and school-related settings. The master's programs in mental health counseling and school counseling provide quality training for individuals engaging in service delivery (under supervision) within agencies and schools. The College also provides educational experiences for the professional community through the Continuing Education Program Series.

The College believes in the principle that each individual best serves both the profession of psychology and society as a whole through education if training encourages critical thinking, creative analysis, and an openness to new ideas and opinions. A wide range of points of view within psychology is represented as it relates to the breadth of societal needs.

### **Tobacco-Free Policy**

Smoking and tobacco use are prohibited in all Nova Southeastern University facilities and on all University property and other properties owned or leased by the University with no exception. For a complete description of NSU's tobacco-free policy refer to <http://www.nova.edu/tobacco-free/policy.html>.

## **ACADEMIC CALENDAR**

Please refer to the individual program section in this policy and procedure handbook for specific calendar dates. The academic calendar can also be found on the college's website [psychology.nova.edu](http://psychology.nova.edu) for the most updated information.

## **ACADEMIC PROGRAMS**

### **Master of Science Counseling Programs**

The Master's degree programs in counseling are designed to serve the training needs of practitioners who seek advanced training. Counselors work in diverse settings and their duties can vary greatly. Depending on their specialty, which is determined by the setting in which they work and the population they serve, counselors scope of practice may include work with children, adolescents, adults, or families that have multiple issues, such as mental health disorders and addiction, disability and employment needs, school problems or career counseling needs, and trauma. The counseling program is offered in a variety of formats to accommodate the working professional.

The master's degree in **Mental Health Counseling** (60 credit hours) provides education and training for those who will seek employment in such diverse settings as social agencies, mental health clinics, hospitals, personnel offices, and schools. This program is offered either on campus in a semester format or at one of the NSU Student Education Colleges in a weekend format. Currently, there are field-based programs offered in Florida at Jacksonville, Miami, Orlando, Palm Beach, and Tampa.

The master's degree in **Counseling** (60 credit for the MHC concentration, 42 (BCaBA) or 48 (BCBA) for the ABA concentrations; 48 credit hours for the Substance Abuse Counseling concentration; or 60 credit hours for the Substance Abuse Counseling and Education concentration) offers individuals the opportunity to earn a counseling degree fully online. The Counseling program will develop the skills and leadership abilities of counselors who have a desire to provide, create and maintain high quality service delivery. Many graduates go on to seek licensure in Florida as mental health counselors.

The master's degree in **School Counseling** (48 credit hours) provides training to individuals seeking positions as professional school counselors in Pre-K to 12 grade school systems. The program is offered on the main campus and in Jacksonville, Miami, Orlando, Palm Beach, Tampa, in a weekend format.

### **Other Master of Science Programs**

The master's degree in **Forensic Psychology** is a 36 credit online program that will present information at the intersection of legal issues and psychology. Students will be prepared to understand what forensic psychologists do, as well as to apply this training in a variety of professional contexts. This degree program will provide students with the professional training necessary to function at an optimal level in a variety of forensic settings where psychology is used, including court cases, law enforcement, criminal justice, national security offices, prisons, social services agencies, child welfare agencies, and treatment facilities.

The master's degree in **General Psychology** is a 30-credit online program that will prepare students to develop foundational knowledge in psychological theory and research. Local, national, and international students may select this M.S. degree as an opportunity to obtain prerequisite courses to meet eligibility requirements for application to other psychology programs, including advanced doctoral studies. Through its specialty tracks, the program will also allow a variety of professionals within the fields of education, human services, counseling, and allied health to access coursework both as degree-seeking and non-degree seeking students in order to advance their psychological knowledge and use of psychological applications in their respective fields. In addition to the direct benefit of obtaining foundational knowledge in psychology, the curriculum is designed to facilitate the development of basic interpersonal skills, cultural sensitivity, and additional knowledge and skills that enhance the preparation of students for professional work in increasingly diverse social agencies, school and community settings, in business and industry environments, and in hospitals.

### **Other Collaborations**

The College supports collaborative training and research with other schools and colleges and institutes.

The master's degree in Human Services is a multidisciplinary program offered through the College of Arts, Humanities, and Social Science. The Psychosocial Foundations in Child Advocacy track is offered with College of Psychology.

The master's degree in Criminal Justice is an interdisciplinary program offered through the College of Arts, Humanities, and Social Science. The program is designed to provide students with a solid background in the theoretical, historical, public policy, behavioral, and political perspectives related to criminal justice; a foundation in evaluation methods of criminal justice programming and an in-depth knowledge of the legal issues that govern criminal justice activities, including fundamental principles and concepts of criminal and civil law, rules of law and evidence, and state and constitutional laws and their development. The program trains those interested in law enforcement and the justice system. The Behavioral Science Track is offered through the College of Psychology.

### **School Psychology Programs**

The **Specialist Program** (Psy.S.) in School Psychology was developed in response to the national and state shortage of school psychologists and the increased public attention being paid to the important role that psychologists play in the schools. The curriculum was designed following consultation with district departments of psychological services across the state, the Florida Department of Education (DOE), the Florida Association of School Psychologists (FASP), the National Association of School Psychologists (NASP), the American Psychological Association (APA), and the National Council for Accreditation of Teacher Education (NCATE).

The **Doctoral Program** (Psy.D.) in school psychology builds upon the College's specialist program in school psychology and is approved by the Florida Department of Education (DOE) and designed to meet the national standards for training as defined by the National Association of School Psychologist (NASP) Standards for Graduate Preparation in School Psychology. The doctoral curriculum meets the Florida state licensure requirements as both a school psychologist and a psychologist under Chapter 490, *Florida Statutes*. Moreover, accreditation will be sought through the American Psychological Association (APA) after there are students at each level of matriculation including internship.

### **Clinical Psychology Doctoral Programs**

By offering both the Doctor of Psychology (Psy.D.) and the Doctor of Philosophy (Ph.D.) degrees, the College of Psychology demonstrates its commitment to train psychologists both as researchers and as practitioners. The Psy.D. program is based on a model of the practitioner informed by science and the Ph.D.

program is based on a model of the scientist-practitioner. Each program has a structured curriculum that develops the knowledge and skills of the doctoral student relevant to the program's model. Both require clinical training that includes clinical practicums, the Clinical Competency Exam, and a 2,000-hour predoctoral internship at an approved site where the student has applied and been accepted.

In addition to the general training provided in the doctoral programs, students may elect to complete a concentration in Clinical Forensic Psychology, Clinical Health Psychology, Clinical Neuropsychology, Psychodynamic Psychology, or Psychology of Long Term Mental Illness. Concentrations consist of a set of courses (taken as electives), research, and a clinical practicum in the specialty area. There are limited slots in each concentration, and acceptance is typically during the first year.

In addition to the concentrations, students develop their individual interests through elective course offerings. The elective courses provide the opportunity for additional learning in a variety of areas such as family therapy, child-clinical psychology, cross-cultural counseling, family violence, the applied analysis of behavior, etc. The electives provide flexibility for the students to establish specialized interests.

The College of Psychology seeks to develop strong mentoring relationships between faculty members and students. These relationships provide individualized supervision and tutoring in scientific thinking, research, ethical decision making, and professional practice.

### **Doctor of Philosophy (Ph.D.) Program**

The **Ph.D. program in clinical psychology** adheres firmly to the principle that psychology is an empirically based discipline. The clinical psychology program will contribute most to the society that supports it if the education provides for the acquisition of the roles of the scientist and the practitioner. The focus of this program is on the empirical analysis of current topics and problems in clinical psychology. The development of sophistication in applied clinical research is emphasized. It is believed that only through the investigation of the psychological problems confronting contemporary society can solutions be found. Thus, much of the research conducted within the program involves the development and rigorous investigation of innovative assessment and intervention for clinical problems, rather than merely the analysis and evaluation of existing procedures.

The program curriculum is anchored in the cumulative body of psychological knowledge and provides a firm basis in statistics, research design, and experimental research methodology. Through a sequence of formal clinical courses, and through increasingly responsible exposure to clinical populations in supervised practicums, the program develops the knowledge and skill required for the student to assume the role of a research-oriented clinical psychologist.

Graduates of this program are providing psychological services in a number of settings. Some have chosen academic settings, while others have chosen medical schools. Still others have become agency administrators. The majority of the graduates, however, have opted to work in service settings that allow them to use their clinical training and their training in program and outcome evaluations.

### **Doctor of Psychology (Psy.D.) Program**

The training model of the **Psy.D. program in clinical psychology** is practitioner informed by science that conceptualizes clinical psychology as a scientific discipline rooted in empirical investigation. Program goals are to train future psychologists to understand the core science areas of the profession, understand foundations of the practice of clinical psychology, employ skills in empirically based assessment and intervention, evaluate the efficacy of such services, and maintain current knowledge and skills for effective professional practice.

The program offers academic, practicum, internship, and research experience directly relevant to the practitioner, while retaining the important scientific base upon which professional competence and knowledge rest. Students are prepared to be lifelong consumers of research.

Clinical skills are molded by a sequence of courses in assessment and intervention, both in theory and

practice. These courses are supplemented by a variety of practicum experiences, which include intensive supervision. The Psy.D. curriculum expertly trains students to perform as clinicians, public and private practitioners, supervisors, mental health consultants, instructors of clinical psychology, administrators of human service programs, and members of research teams. The degree of expertise in these various specialties, of course, is contingent upon the individual's educational concentrations, training exposures, and career aspirations.

### **Concentrations/Tracks**

Although the College's Ph.D. doctoral program is committed to the general training of clinical psychologists, we also give students the option of beginning to specialize. Concentrations and tracks have been developed in recognized areas of psychology. Each concentration accepts a limited number of students at admission or during the first or second year of study and therefore a student is not guaranteed a slot in a particular concentration. Students are permitted to participate in one concentration only. Each concentration consists of a set of electives, a practicum in an approved clinical program related to the concentration, and research activities with faculty in the concentration.

Concentrations include: Clinical Forensic Psychology, Clinical Health Psychology, Clinical Neuropsychology, Psychodynamic Psychology, and the Psychology of Long-Term Mental Illness. The Child, Adolescent & Family Psychology track requires students to participate in pre-practicum research, and clinical practica with core faculty. Students will complete 18 hours of specified coursework. The Multicultural/Diversity track requires students to participate in pre-practicum research, research, and clinical practica with core faculty. Students will complete 12 hours of specified coursework. The Trauma track requires students to participate in trauma research and clinical practica with core faculty. Students complete 12 hours of specified coursework.

### **Joint Doctoral/MBA**

This program was established in response to the interest of clinical psychologists to be trained in the practice of business. Current College of Psychology doctoral students interested in admittance to the M.B.A. program should contact the College's Director of Academic Affairs. The student will fulfill the typical clinical psychology admissions process by completing the application packet obtainable at the College of Psychology and indicate, at that time, that they intend to be admitted to the joint psychology and M.B.A. program. Typically students will begin M.B.A. classes during the 3<sup>rd</sup> year of their psychology studies if they are in good standing and will pay the respective current tuition rates for both the clinical psychology program and the M.B.A. Program.

### **Licensure**

Licensure for programs offered at the College of Psychology are regulated at the state level and as such may vary from state to state. Individual eligibility should be verified periodically through careful review of state licensure regulations, which are subject to change. Degree conferral from an APA-accredited program does not ensure automatic acceptance of program curricula by a given state for the purpose of licensure. Individual eligibility should be verified through careful review of the state licensure regulations for the state in which you plan to reside to determine its specific requirements.

## **TRAINING PROGRAMS**

### **Institute of Trauma and Victimization**

The Institute of Trauma and Victimization (ITV) was founded to create a focus of interest in the area of trauma and victimization and to form a network for collaboration between students and colleagues from both within and outside of the College. The mission of the institute is to stimulate research and sponsor training and service delivery in the field of trauma and victimization to develop and evaluate innovative interventions for those exposed to trauma, and to establish links with relevant groups, organizations and colleagues in the local, national, and international community, and involving students in existing College of Psychology trauma-related programs that share a three-fold mission:

1. Provision of specialized psychological services to a particular population of clients exposed to trauma;
2. Doctoral level clinical training in the provision of psychological services to the population of traumatized clientele;
3. Execution of an ongoing program of research on that population of traumatized clientele.

### **Southeast Institute for Cross-Cultural Counseling**

The Southeast Institute for Cross-Cultural Counseling is committed to enhancing the cause of multiculturalism at the College of Psychology. It strives to promote a welcoming climate for ethnic minority students and for those mainstream students who are particularly interested in pursuing cross-cultural studies. Nontraditional methodologies in counseling and assessment specifically targeted for minority groups are introduced. Courses and in-service colloquia in the area of multiculturalism and cross-cultural counseling and psychotherapy are provided. The institute seeks to promote multicultural and international research. In addition, students are encouraged to initiate projects and Dissertations that validate existing and newly constructed assessment methods with diverse populations.

### **Psychology Services Center Internship Program**

Nova Southeastern University's Psychology Services Center Internship Program is accredited by the American Psychological Association. Each year interns are selected from a nationwide pool of applicants to participate in supervised clinical experiences, training meetings, seminars, and research.

### **Consortium Internship Program**

The College of Psychology sponsors the Consortium Internship Program. Accredited by the American Psychological Association (APA), the consortium provides services to a vast array of clinically diverse populations within local community settings.

### **Continuing Education Program Series**

The College of Psychology offers the professional community a series of continuing education programs each year, featuring nationally renowned presenters. Constantly seeking the expert knowledge of the College's faculty and other leading professionals within the field, these courses offer the latest information in psychology and mental health in both a practical lecture and hands-on format. Workshops are specifically designed to meet the needs of postgraduate professionals in the field.

Nova Southeastern University's College of Psychology is approved by the American Psychological Association to sponsor continuing education for psychologists. Nova Southeastern University's College of Psychology maintains responsibility for this program and its content. Nova Southeastern University's College of Psychology is approved to offer continuing education by the State of Florida Board of Clinical Social Work, Marriage and Family Therapy, and Mental Health Counseling. Provider # BAP 330 – exp. 03/31/2015. Nova Southeastern University's College of Psychology is approved to offer continuing education by the State of Florida Board of Medical Therapies/Psychology, Office of School Psychology. Provider # SCE 11 – exp. 11/30/2015. Nova Southeastern University's College of Psychology is approved to by the National Association of School Psychologists to provide continuing education for school psychologists. Nova Southeastern University maintains responsibility for the program. Provider # 1024. Nova Southeastern University's College of Psychology is an NBCC-Approved

Continuing Education Provider (ACEP™) and may offer NBCC-approved clock hours for events that meet NBCC requirements. The ACEP solely is responsible for all aspects of the program. Provider #4548, exp. 04/30/2015.

## RESEARCH

In addition to training individuals to provide care and treatment for those with psychological problems, the College is equally committed to encouraging sophisticated applied research. The College is distinguished by its special commitment to clinical research geared toward understanding and resolving problems confronting modern society. In addition to ongoing faculty research, every doctoral student engages in research activities, thereby multiplying the efforts and expertise required to understand the complexities of psychological disorders. Areas of research in which the College is currently engaged include:

Alcohol and substance abuse	Forensic psychology
Anxiety disorders	Gender issues
Assessment of minority students	Geriatric mental health
Attention deficit and anxiety disorder	Health psychology
Behavioral assessment and treatment	Long-term mental illness
Child-clinical psychology	Marital and family systems
Clinical biofeedback	Mood disorders
Community mental health	Multicultural assessment and intervention
Dissociation	Neuropsychology
Family violence	Pediatric psychology
Physical abuse	Sexual abuse
Posttraumatic stress disorder	Sexual addiction
Psychoanalytic therapy	Sleep disorders
Psychodiagnostic assessment	Social-clinical psychology
School phobia	Stress disorders

### Computer/Statistical Lab

Research in the College is supported by extensive computer facilities, including mainframe, workstation, and microcomputer environments. Methodological, statistical, and computer consultation is available to faculty members and students engaged in research or related course work.

### Protection of Human Subjects

The College adheres to published professional and governmental guidelines and regulations for protecting human subjects in research. **Any research that involves human subjects conducted by NSU faculty members, staff members, or students, whether funded or unfunded, must be submitted to the College's representative for decision about possible Institutional Review Board (IRB) review. All faculty members, staff members and students involved in research studies must complete an on-line course with regard to the protection of human subjects (CITI course).** To obtain more information visit the NSU IRB website at [www.nova.edu/irb/manual/](http://www.nova.edu/irb/manual/) All IRB policies and procedures can be accessed at the IRB website: <http://www.nova.edu/irb/manual/policies.html>

## CLINICAL SERVICES

The Psychology Services Center provides services to all residents of the tri-county area, including children, adolescents, adults, and elderly clients, regardless of race, color, sex, age, nondisqualifying disability, religion or creed, sexual orientation, or national or ethnic origin.

The Psychology Services Center's clinical staff consists of professionals in psychology, mental health counseling, and social work. More than 100 College of Psychology masters, specialist, and doctoral students receive practicum training within the Psychology Services Center. Services offered by the Psychology Services Center include the following:

- Assistance with smoking, gambling and over-eating issues
- Behavioral modification
- Biofeedback
- Counseling for older adults
- Family and multifamily therapy
- Information and referral
- Multilingual services (when available)
- Neuropsychological assessment and evaluation
- Pain management
- Psychodynamic psychotherapy
- Psychoeducational evaluations for gifted and school related issues
- Psychological testing
- Stress management
- Testing and treatment for ADHD
- Treatment for adolescent drug abuse and prevention
- Treatment for adults with issues resulting from traumatic experiences
- Treatment for children and adolescents experiencing behavioral and emotional issues
- Treatment for children and adolescents who have experienced a trauma
- Treatment for depression, anxiety and emotional disturbances
- Treatment for eating disorders and body imaging issues
- Treatment for serious emotional disturbance
- Treatment for victims, perpetrators or children affected by domestic violence
- Challenging Behaviors

**Adult Services Program.** Adult Services Program treatment providers are committed to working with individuals motivated to improve their level of functioning and mental health well-being. Services available include individual and group psychotherapy as well as psychological assessments as it relates to treatment recommendations. A comprehensive biopsychosocial diagnostic and treatment approach is used to help adults 18 and older with a wide variety of psychological problems/difficulties including

- depression
- severe and persistent mental illness
- social skills problems
- stress
- other mental health issues

**Child, Adolescent, and Family Services Program.** Child, Adolescent, and Family Services Program treatment providers are committed to working together with children, adolescents, and their families toward the goal of improving their quality of life. Services include individual, group, play therapy, and psychological assessment, as well as parenting skills training. A comprehensive diagnostic and treatment approach is used to assist families with children ages 4 through 17 with varying emotional, cognitive, and/or behavioral difficulties such as

- attentional deficit/hyperactivity disorder
- school and behavioral problems
- childhood bedwetting and incontinence

- other mental health issues facing children and adolescents

## **Specialty Clinical Training Programs**

**Adolescent Drug Abuse Prevention and Treatment Program.** This program provides comprehensive assessment and treatment to adolescents who have been arrested for minor offenses, have substance abuse problems, or are at risk for developing such problems. Services include individual, group, and family therapy. Treatment components include social skills training, parent-child relationship enhancement, anger management, communication skills training, and behavioral contracting.

**ADHD Assessment Consultation & Treatment Program.** This program serves children and adolescents and their families that demonstrate behavioral problems consistent with a diagnosis of ADHD. Empirically supported assessment and treatment is emphasized.

**Anxiety Treatment Center.** This program specializes in the treatment of anxiety and obsessive-compulsive disorders. The mission of the clinic is to provide state-of-the-art treatments with proven efficacy based on cutting-edge research. Domains of treatment include phobias, generalized anxiety, social anxiety, and panic disorders. In addition, a specialized track within the program offers treatment for obsessive-compulsive disorder, body dysmorphic disorder, hoarding, hair pulling and skin picking, and tic disorders.

**Biofeedback and Health Psychology Center.** This program offers psychological evaluation, intervention, and consultation for the optimum management of an ongoing health related concern as well as for the optimum maintenance of a healthy lifestyle. Biofeedback and other health psychology interventions can be provided to assist individuals with the management of a chronic disease, headaches and other types of chronic pain, healthy eating and exercise, changing health compromising behaviors, coping with aversive medical/dental procedures, and overall health promotion. When indicated and with appropriate release of information, interaction with the clients' significant others and/or other health care providers can be encouraged. This program also offers EEG feedback for ADD and ADHD. Psychoeducational workshops will periodically be made available for clients to increase their skills for stress management, relaxation, mindfulness meditation, and/or assertive communication.

**Child and Adolescent Traumatic Stress Program.** The Child and Adolescent Traumatic Stress Program provides psychological services to pediatric patients and their families. These services are provided when the child or adolescent experiencing acute, chronic, and/or genetic medical disorders is exhibiting a psychological reaction directly related to the medical problem; physical symptoms as a function of behavioral and psychological problems; and psychological problems and physical complaints due to a trauma such as child abuse. Assessment and treatment services are available for depression, anxiety, adjustment disorders, medical noncompliance, elimination disorders, eating disorders, and psychosomatic illness.

**Family Violence Program.** The Family Violence Program provides psychological services to children, adolescents, and adults in: 1) offering assistance in identifying and overcoming effects of abuse, while also helping perpetrators learn nonviolent behaviors, 2) assisting children who have witnessed violence to overcome its effects, and 3) helping adolescents learn anger management skills and promoting nonviolent ways of resolving conflicts. Individual and/or group therapy sessions are offered on a sliding scale fee basis. Treatment techniques such as: assertiveness skills, communication skills, and problem solving skills are emphasized.

**Healthy Lifestyle Guided Self-Change Program.** This program provides services to individuals who have alcohol, cocaine, or marijuana problems that are not severe. Smoking cessation services are also available. Guided Self Change treatment is a motivational intervention involving an assessment, four sessions, and two aftercare contacts, with additional sessions available. This program is based on evidence showing that many persons meeting the above criteria prefer and are able to take responsibility for dealing effectively with their alcohol or drug abuse.

**Intensive Psychodynamic Psychotherapy Center.** This program provides diagnostic and in-depth treatment services to adolescents and adults with moderate to severe characterological disorders who would benefit optimally from more intensive treatment. Treatment emphasizes the use of a variety of techniques including ego-psychology, self-psychology, object relations and others.

**Neuropsychology Assessment Center.** The goals of the Neuropsychology Assessment Center are to diagnose disorders of the central nervous system; to provide consultation on the etiology, rate of progression, and prognosis of known or suspected cerebral pathology; and to offer recommendation or referral for the patient's treatment. Examples of typical referrals include differential diagnosis of organic versus functional psychiatric symptoms; differential diagnosis of dementia versus depression; evaluation to determine cognitive, emotional, or behavioral symptoms subsequent to head injury; diagnosis of learning disability, Attention Deficit Hyperactivity Disorder, or mental retardation; determination of mental competence; diagnosis of Alzheimer's disease, seizure disorders, multiple sclerosis, stroke, and organic mood syndrome; evaluation of headache; determination of appropriate school placement; and identification of malingering or symptom exaggeration.

**Nova Southeastern University Counseling Center for Older Adults (NCCOA).** This program provides psychotherapy to individuals who are 55 and over. Client services include treatment of anxiety, depression, insomnia, psychosexual dysfunction, interpersonal difficulties, substance abuse, or some other form of psychopathology. Treatment consists of individual, group, family, and/or marital therapy.

**Psychological Assessment Center.** The Assessment Center will give practicum students a wide range of experiences with a battery of psychological tests which will include intelligence testing, objective and projective personality testing, achievement testing, and neuropsychological screening. Students will see a wide range of children, adults and gerontological populations as well as a wide range of diagnoses including normals, schizophrenics, depressed, behavioral disturbances, mentally retarded, brain injured, personality disorders, and other disorders commonly seen in outpatient and in-patient psychological settings. Students will test both at the College of Psychology as well as community sites. Students will be trained across a wide variety of testing instruments and in psychological report writing as well as case interviewing and conceptualization techniques. Students will also learn how to consult with other professionals.

**Psychological Services for the Emotionally Distressed.** The Program for the Seriously Emotionally Disturbed offers treatment and assessment for children, adolescents, and adults who have psychotic disorders. These patients have a range of psychotic sequelae such as hallucinations, delusions, isolation, regressive and/or bizarre behavior, poor social and daily living skills, and restricted, inappropriate or labile affect. Psychotic diagnosis may include schizophrenia, schizophreniform disorder, bipolar disorder, affective disorders, etc. Treatment comparison research with these special patients is being conducted.

**School-Related Psychological Assessments and Clinical Interventions.** This program offers comprehensive psychoeducational evaluations for school related academic, developmental, behavioral, and learning problems. These evaluations include: parent and child interviews; behavioral observations; formal test administration; psychoeducational reports; personal feedback to parents; and school consultation as appropriate.

**Trauma Resolution Integration Program.** This specialized clinical research program serves men and women ages 18 and above who: 1) are experiencing adjustment problems resulting from childhood sexual or physical abuse; 2) have posttraumatic stress disorder in response to a single event trauma (e.g., crime, natural disaster, serious injury) in adulthood; or 3) manifest serious dissociative symptoms.

## **PH.D. CURRICULUM AND DEGREE COMPLETION REQUIREMENTS**

The Ph.D. program is a full-time, on campus program typically requiring the successful completion of a minimum of five years of post-baccalaureate study, including four years on campus, and one year on a full-time predoctoral clinical internship. This five year minimum may be lessened under certain circumstances, but in all cases a minimum residency requirement of three years must be met. A student is required to graduate within eight years of the date of first enrollment. (See Time Limits Section)

Students must satisfactorily complete all curriculum requirements:

1. Required curriculum
2. Elective course work and/or concentration
3. Research requirements: Major Paper, Dissertation
4. Clinical practicums
5. Clinical Competency Examination
6. Clinical internship

Each of these components is discussed in the following sections of this handbook.

### **Course Work**

The curriculum of the Ph.D. doctoral program is designed to provide the knowledge and training necessary for the student to develop as a clinical psychologist. The curriculum was developed by the faculty to provide both depth and breadth in psychology to the extent feasible within the time span of a graduate program. The program meets curricular requirements of the American Psychological Association. Graduates from the Ph.D. program have been eligible for licensure in Florida and other states. (The Office of Academic Affairs has a Directory of state boards, from which current requirements and addresses can be obtained.)

Students contemplating licensure in states other than Florida or in any of the Canadian provinces are advised to remain abreast of academic and any other requirements for such licensure. Students should bear in mind that each state or Canadian province establishes its own regulations for licensure, and can change them with little or no notice.

The Ph.D. curricula are developed and monitored on an ongoing basis by College of Psychology faculty to:

- Demonstrate understanding of the breadth of scientific psychology
- Produce clinically relevant scientific research and scholarship
- Demonstrate understanding of the foundations of practice in clinical psychology
- Demonstrate entry-level clinical skills and competencies necessary for effective work in scientist-practitioner professional roles

The College cannot guarantee that the curriculum completed will meet all states' and Canadian provinces' eligibility requirements for licensure at the time of your application, as each state requirements are subject

to change.

The doctoral curriculum allows the student to take elective courses or apply for a concentration to meet individual special interests and enrich the educational experience. Students may choose electives from any of the doctoral offerings of the College of Psychology. Note that in each curriculum a certain number of electives must be taken in the intervention area. Students should note that PSY 2806 (Intermediate Statistics with Lab) is not considered an elective for Ph.D. students.

The Ph.D. curriculum is presented on the next several pages in a model course sequence. While the courses will generally be offered in the sequences shown, exceptions do occur. The student should not regard the sequences as inviolable. To assist the student in completing the program, a selection of required and elective courses is offered during the Summer sessions. Students are free to plan an individualized course sequence that will best meet their educational goals and timetables. In doing so, care should be exercised to ensure that all prerequisites and co-requisites are met, and students should check their course plan with the Office of Academic Affairs. Students are advised to consult with faculty mentors about choice of electives that best meet their career objectives.

The Ph.D. program requires a minimum of 118 credit hours. The required courses are arranged in a model sequence presented on the pages to follow.

### **Concentrations**

Although the College's doctoral programs are committed to the general training of clinical psychologists, we also give students the option of beginning to specialize. Concentrations have been (and may continue to be) developed in recognized areas of psychology. Each concentration accepts a limited number of students at admission or during the first or second year of study and therefore a student is not guaranteed a slot in a particular concentration. Each concentration consists of a set of electives, a practicum in an approved clinical program related to the concentration, and research activities with faculty in the concentration. Below are listed current concentrations with their required courses and concentration faculty.

**Clinical Forensic Psychology:** Recognizing the crucial need for competent clinical psychologists working within the justice system, the Clinical Forensic Psychology (CFP) concentration emphasizes clinical psychological skills applicable in the criminal justice system, which include issues regarding competency and criminal responsibility; psychological damages in civil trials; civil competencies; psychological autopsies and criminal profiling; and child custody and parental fitness. Course work includes: Introduction to Forensic Psychology; Forensic Psychology: Criminal Law; Forensic Psychology Assessment; Psychological Interventions in Forensic Settings; Forensic Psychology: Family Law; and Special Issues in Forensic Psychology: Supervision, Consultation, Ethics, and Controversial Issues.

**Clinical Health Psychology:** Clinical Health Psychology (CHP) specializes in the study, treatment, and professional training in the interaction of physical health with the individual's cognitive, emotional, behavioral, and social functions. Its broad scope encompasses intervention for managing severe illnesses, rehabilitating disability, prevention of chronic disease, and maintenance of good health. Significant contributions have been made in chronic pain management, weight control, cardiovascular rehabilitation, pediatric diseases, and coping with medical procedures. Course work includes: Health Psychology; Clinical Biofeedback; Professional and Ethical Issues in CHP/Medical Rounds; Psychology Interventions with Medical Patients; Anatomy and Physiology; and Chronic Pain/Illness Management.

**Clinical Neuropsychology:** Clinical Neuropsychology (CN) is concerned with the function of the brain and its relationship to all aspects of behavior, as well as the impact of brain dysfunction and injury on individuals' abilities to function. The program not only encompasses the approaches, perspectives, and practice settings of neuropsychology, but also extends to the related disciplines of neuroanatomy, neurophysiology, neuropathology, neurorehabilitation, and child neuropsychological assessment. Course work includes: Clinical Neuropsychology; Clinical Neuroanatomy; Behavioral Neuropathology; Advanced Clinical Neuropsychology; Neuropsychological Case Analysis; and Child and Adolescent

Neuropsychological Assessment. Ph.D. students will complete their Major Papers, and Dissertation with a neuropsychology faculty member.

**Psychodynamic Psychology:** Psychodynamic Psychology (PP) is a discipline of psychology that presents a theory of personality and an explanation of the framework for understanding psychopathology. Psychodynamic theory and technique have demonstrated applicability to conceptualizing and providing treatment for a wide range of interpersonal and intrapsychic difficulties. This program emphasizes contemporary psychoanalytic theories of personality, pathology, and psychotherapy. Course work includes: Psychodynamic Psychotherapy I and II; Narcissistic, Borderline, and Other Character Disorders; Psychodynamic Treatment of Affective Disorders; Psychodynamic Treatment Approach to Family and Group Therapy; and Psychodynamic Psychotherapy in Practice.

**Psychology of Long Term Mental Illness:** The Psychology of Long Term Mental Illness (LTMI), an emerging area of specialization in psychology, studies the treatment and evaluation of severely and persistently mentally ill adults and children and their families. The area focuses on specialized assessment techniques of psychopathology and level of functioning, psychotherapeutic interventions and psychosocial rehabilitation, and psychopharmacology, as well as program development and public policy. Course work includes: Community Psychology with the Seriously Mentally Ill; Treatment of Serious Mental Illness; Consultative Psychopharmacology; and Diagnostic Assessment of Long Term Mental Illness.

### **Tracks**

Students wishing to specialize in a subject area can elect to complete course work in a track. No formal admission requirements are necessary and students complete the courses at their own volition. Students will notify the Director of Academic Affairs of their intention to complete a track.

**Child, Adolescent, and Family Psychology Track:** Child, Adolescent, and Family Psychology (CAFP) address the assessment and treatment of children and adolescents with significant emotional and behavioral problems and troubled families. The area focuses on empirically supported assessment and treatment methods. In addition, the area is concerned with efforts to promote and better understand healthy child and family development as well as the prevention of psychological problems of youth.

**Multicultural/Diversity Track:** This track is designed to provide coursework, research, and practicum experiences to better enable students to work effectively in our demographically changing society.

**Trauma Track:** The object of the Trauma track is to deliver specialized training in trauma as it pertains to the assessment and treatment of individuals. In addition, research into trauma issues is stressed.

**Nova Southeastern University College of Psychology  
Ph.D. Program 2015-2016 Model Curriculum**

<b>First-Year Fall Semester</b>		<b>Prerequisites</b>	<b>Credits</b>	<b>Third-Year Winter Semester</b>		<b>Prerequisites</b>	<b>Credits</b>
1403	Adult Psychopathology		3	3406	Consultation & Supervision		3
1405	Developmental: Child and Adolescent		1.5	3702	Clinical Practicum IV	3701	3
1407	Developmental: Adult & Older Adult		1.5	3704	Supervision IV	3703	1
1409	Professional Issues and Ethics		3	3803	Major Paper		1.5
1501	Assessment: Intelligence Testing with Lab		3	3403	Social Aspects of Behavior		3
1605	Diversity in Assessment & Intervention		3				
<b>First-Year Winter Semester</b>				<b>Third-Year Summer Semester</b>			
1408	Child and Adolescent Psychopathology	1405	3	370A	Summer Practicum II	3702	3
1412	Psychobiology		3	370B	Summer Supervision II	3704	1
1502	Diagnostic Interviewing	1403	3	4499	Advanced Professional Development		1
1610	Adult Intervention I	1403, 1407, 1605	3				
1703	Pre-Practicum		1				
1807	Advanced Statistics		3				
<b>First-Year Summer Semester</b>				<b>Fourth-Year Fall Semester</b>			
1401	History & Systems of Psychology		3	Clinical Competency Exam		All required courses plus 6 credits of intervention electives	
1809	Research Design		3	5850	Dissertation		6
<b>Second-Year Fall Semester</b>				<b>Fourth-Year Winter Semester</b>			
2507	Objective Personality Assessment	1501-2	3	5850	Dissertation		6
2509	Behavioral Assessment		1.5				
2603	Systems/Family Therapy		1.5				
2604	Child and Adolescent Intervention	1408	1.5				
2701	Clinical Practicum I	(All First Year Except 1807, 1809)	3				
2703	Supervision I		1				
2808	Multivariate Statistics I with Lab	1807	3				
<b>Second-Year Winter Semester</b>				<b>Fifth-Year</b>			
1416	Cognitive/Affective Aspects of Behavior		3	5700	Internship	All course work except 5851: Continuing Dissertation	2
2511	Projective Personality Assessment	1501-2, 2507-9	3	(0.5 credit per semester Summer, Fall, Winter, and Summer)			
2606	Case Conceptualization	1610, 2603-4, 2701-3	3				
2702	Clinical Practicum II	2701	3				
2704	Supervision II	2703	1				
2812	Multivariate Statistics II with Lab	2808	3				
<b>Second-Year Summer Semester</b>				* For the 6 credits of electives, students must take intervention electives (46XX). Concentration students may be required to complete additional credits In some instances, elective practica that are predominately intervention oriented may counted as intervention electives			
270A	Summer Practicum I	2702	3				
270B	Summer Supervision I	2704	1				
	*Elective		3				
<b>Third-Year Fall Semester</b>				<b>TOTAL DEGREE CREDITS</b>			
2406	Psychopharmacology	1412	1.5	<b>118</b>

	*Elective		3				

## EN ROUTE MASTER OF SCIENCE IN CLINICAL PSYCHOLOGY

Students enrolled in the Ph.D. program in clinical psychology may earn as an intermediate degree, the Master of Science in clinical psychology. The curriculum for this degree consists of all courses including practicum and supervision in the first two years of the model doctoral curricula (74.5 credit hours for the Ph.D.). Courses transferred into Nova Southeastern University's doctoral programs do not count toward this degree. Any doctoral course with a comparable number of credit hours may be substituted for a transferred course.

Graduates with this degree will not have met the educational requirements for certification or licensure in the state of Florida and should not expect to provide psychological services as an independent practitioner. Rather, this degree should be utilized by the Ph.D. students to demonstrate master's level achievement, or qualify for master's level employment.

Students completing the above requirements may complete a degree application form and pay the required fee to receive the degree; however they may not participate in the graduation ceremony.

## Ph.D. DOCTORAL PROGRAM IN CLINICAL PSYCHOLOGY COURSE DESCRIPTIONS

### General Required Courses

#### **PSY 1401 History & Systems of Psychology (3 credits)**

This course examines the historical progression of ideas central to psychology, the philosophical and empirical roots of those ideas, and their confluence into the predominant systems of the present day. In so doing, it covers the fundamentals of scientific thinking, their bearing on theory development, the relationship between philosophical and empirical thought, and theoretical models of historical and current significance. It also focuses on the dynamic interplay between theoretical constructs and empirically derived knowledge. Particular emphasis is placed on principles used to examine the merits of evidence that supports or disconfirms theory.

#### **PSY 1403 Adult Psychopathology (3 credits)**

This course covers descriptive psychopathology and research on the etiology, epidemiology, dynamics and diversity issues of major adult and aged pathologic syndromes. It provides a thorough introduction to *DSM-IV* as a diagnostic tool.

#### **PSY 1405 Developmental: Child and Adolescent (1.5 credits)**

This course covers issues in human development that are especially relevant to children and adolescents, beginning with the earliest aspects of development during the prenatal period and ending with the final phase of transition from adolescence to adulthood. In this course will be selected that focus on normal and accelerated developmental progress, as well as factors that threaten to impede normal development.

#### **PSY 1407 Developmental: Adult & Older Adult (1.5 credits)**

This course will review developmental theories of aging and personality development in adulthood and later adulthood. Topics will include perceptual, cognitive, personality and social processes of aging.

#### **PSY 1408 Child and Adolescent Psychopathology (3 credits)**

This course will provide a comprehensive examination of specific disorders and problematic psychological states during childhood and adolescence. An emphasis will be placed on the description, theoretical conceptualization, and etiology of disorders. Prerequisite: PSY 1405

#### **PSY 1409 Professional Issues and Ethics (3 credits)**

This course acquaints the student with the extant legal and ethical principles and standards of practice that psychologists have developed for the profession.

#### **PSY 1412 Psychobiology (3 credits)**

This course covers theory, research, and applications for the following topics: structure, function, and disorders of the nervous system; physiological mechanisms and disorders in vegetative and intellectual functions; and psychophysiological methods and technology.

#### **PSY 1416 Cognitive/Affective Aspects of Behavior (3 credits)**

This course examines cognitive and affective processes that affect behavior. Topics include information processing, memory, attachment, unconscious processing, schemata development, bias, self-regulations, and attribution theory. The interface of cognitive and affect will be examined in relation to issues in clinical psychology.

**PSY 2406 Psychopharmacology (1.5 credits)**

This course covers the basic science, theory, research and clinical applications of psychopharmacology. It promotes the understanding of psychobiological processes in medicated patients and emphasizes the special psychotherapeutic requirements that relate to the currently prevalent combined therapeutic approach. The clinical issues are illustrated by case presentations and the review of the relevant literature. Prerequisite: PSY 1412

**PSY 3403 Social Aspects of Behavior (3 credits)**

This course studies the social antecedents of human behavior. The main theories of social psychology are examined in relation to clinical psychology.

**PSY 3406 Consultation and Supervision (3 credits)**

This course is intended to increase a student's awareness and competencies with ethical issues in therapy. In addition, students' consultation and supervision skills are developed.

**PSY 4499 Advanced Professional Development (1 credit)**

To enhance critical thinking, oral and written exposition, and knowledge of career development needed to enter the profession; this course will focus on enhancing internship application effectiveness. Students will be directed in preparing a curriculum vita, conducting self-evaluation of personal and professional roles, developing effective interviewing skills, and synthesizing training, experience, conceptualization models, and philosophy. Students will learn to make application decisions in terms of goodness of fit. Course assignments include the development of written products needed for internship application.

**Assessment Required Courses****PSY 1501 Assessment: Intelligence Testing with Lab (3 credits)**

The administration, interpretation, and communication of results of major intelligence tests is the focus of this course. Emphasis is placed on the many aspects of interpretation and report writing.

**PSY 1502 Diagnostic Interviewing (3 credits)**

This is a basic course on the theoretical and practical aspects of the clinical assessment interview. Emphasis is placed on development of communication skills, rapport building, evaluation strategies, consideration of diagnostic data, cultural and ethnic diversity, the mental status evaluation, and the ability to organize information in written and oral form. Prerequisite: PSY 1403

**PSY 2507 Objective Personality Assessment (3 credits)**

This course examines theoretical, conceptual, and methodological issues in objective personality assessment. An emphasis will be placed upon objective personality tests such as the MMPI-2, MMPI-A, 16 PF, Millon's MCMI, and others. Prerequisite: PSY 1501-2

**PSY 2509 Behavioral Assessment (1.5 credits)**

This course will provide an overview of current strategies and issues in contemporary behavioral assessment. Included will be self-report and monitoring, direct and naturalistic observation of behavior and physiological measurement. Application to a variety of clinical disorders will be addressed and attention directed to collateral factors such as behavioral assets and limitations and environmental supports and restrictions that often have an impact on the client.

**PSY 2511 Projective Personality Assessment (3 credits)**

This course will provide an introduction to the theory, administration, scoring and interpretation of the major projective assessment measures including the Rorschach, TAT, sentence completion, and figure drawings. The specific value of the projective measures and associated research findings will be discussed. The student will also receive an introduction to integrating assessment materials for the purpose of writing psychological test reports. Prerequisite: PSY 1501-2, 2507-9

**Intervention Required Courses****PSY 1605 Diversity in Assessment and Intervention (3 credits)**

This course covers diversity issues and their implications for assessment and intervention. Specifically, it considers the psychological impact of gender, race, ethnicity, culture, religious preference, socioeconomic status, sexual orientation, and able-bodiedness. It includes exploration of common stereotypes and their impact on therapy. This course also includes an examination of innovative assessment methods for clients of diverse backgrounds.

**PSY 1610 Adult Intervention I (3 credits)**

This course covers primary approaches to treating adult clinical problems, with emphasis on treating adult psychological disorders. Interventions with strong empirical and theoretical support are emphasized; relationship factors are also addressed. Development of treatment interventions based on a wide range of conceptual models is highlighted. Prerequisite: 1403, 1407, 1605

**PSY 2603 Systems/Family Therapy (1.5 credits)**

This course will cover systems theory with emphasis on applications to marital and family therapy. General systems theory, and conceptualizations from such schools as the Bowenian, Structural, and Strategic will be considered.

**PSY 2604 Child and Adolescent Intervention (1.5 credits)**

This course covers current intervention strategies for children and adolescents. Application of theory, methods, and current research in this area will be reviewed. Prerequisite: PSY 1408

**PSY 2606 Case Conceptualization (3 credits)**

This course addresses the processes of conceptualizing case material from diverse theoretical models and translating these conceptualizations into effective treatment strategies. Video- and/or audiotaped clinical interviews, and written and/or orally presented case histories are used in class to demonstrate and provide practice in case conceptualization skills. Prerequisite: PSY 1610, 2603-4, 2701-3

**Practicum and Internship Required Courses****PSY 1703 Pre-Practicum I (1 credit)**

This course will expose students to a variety of client populations and will provide some introductory experiences in a therapeutic context. The course is designed to allow students an opportunity to observe clinical psychology in practice prior to their being required to assume an active therapeutic role.

**PSY 2701 Clinical Practicum I (3 credits)**

The student is required to spend a minimum of 10 hours per week for 12 months at a selected agency(s). In this course the student is to acquire competency in the areas of interview and assessment, psychological testing, and psychotherapy. Prerequisite: All first year courses except PSY 1807, 1809

**PSY 2702 Clinical Practicum II (3 credits)**

See description for PSY 2701 Clinical Practicum I. Prerequisite: PSY 2701

**PSY 270A Summer Clinical Practicum (3 credits)**

See description for PSY 2701 Clinical Practicum I. Prerequisite: PSY 2702

**PSY 2703 Supervision I (1 credit)**

The student is required to spend approximately one hour face-to-face with a faculty member in an individual or small group format. The student is expected to present case material and be prepared to discuss cases each week. Tapes of therapy sessions may be required. If supervision is provided in a group format, the time is adjusted to account for the multiple members of the supervision group. For instance, when two students receive 90 minutes of supervision in a group per week, that would constitute the equivalent of 45 minutes of individual supervision per week.

**PSY 2704 Supervision II (1 credit)**

See description for PSY 2703 Supervision I. Prerequisite: PSY 2703

**PSY 270B Summer Clinical Supervision (1 credit)**

See description for PSY 2703 Supervision I. Prerequisite: PSY 2704

**PSY 3701 Clinical Practicum III (3 credits)**

The student is required to spend a minimum of 15 hours per week for 12 months at a selected agency(s). Prerequisite: PSY 2507-9-11, 2603-4-6, 2702-4, 270A-B

**PSY 3702 Clinical Practicum IV (3 credits)**

See description for PSY 3701 Clinical Practicum III. Prerequisite: PSY 3701

**PSY 370A Summer Clinical Practicum (3 credits)**

See description for PSY 3701 Clinical Practicum III. Prerequisite: PSY 3702

**PSY 3703 Supervision III (1 credit)**

See description for PSY 2704 Supervision II.

**PSY 3704 Supervision IV (1 credit)**

See description for PSY 3703 Supervision III. Prerequisite: PSY 3703

**PSY 370B Summer Clinical Supervision (1 credit)**

See description for PSY 3703 Supervision III. Prerequisite: PSY 3704

**PSY 5700 Internship (2 credits)**

The student is required to complete an internship, covering a 50-week period of 2,000 hours. The internship site must be accredited by the American Psychological Association or be a member of the Association of Psychology Internship Colleges. Prerequisite: All course work except PSY 5850

## **Methodology, Research, and Dissertation Required Courses**

### **PSY 1807 Advanced Statistics (3 credits)**

This course will focus on analysis of variance strategies for analyzing data from experimental and quasi-experimental designs. Topics covered include completely randomized designs, randomized block designs, repeated measures designs, hierarchical designs, and analysis of covariance designs. Planned and post-hoc comparisons will be addressed throughout.

### **PSY 1809 Research Design (3 credits)**

The focus of this course is research methodology and scientific thinking. It covers basic experimental designs (between and within groups), single subject experiments, group experimental designs, non-experimental designs (correlational research, case studies, meta-analyses), and program evaluation. Validity issues in research (internal and external) and research ethics are emphasized throughout.

### **PSY 2808 Multivariate Statistics I with Lab (3 credits)**

This course focuses on multivariate statistical analyses through a detailed exploration of bivariate and multivariate regression and correlation. Other multivariate procedures such as canonical correlation will also be introduced. The course includes a computer lab that focuses on the use of statistical package(s) to perform these analyses. Prerequisite: PSY 1807

### **PSY 2812 Multivariate Statistics II with Lab (3 credits)**

This course is a continuation of the content of Multivariate Statistics I and will include such topics as MANOVA and MANCOVA, classification and discrimination, and factor analytic methodology. The course includes a computer lab that focuses on the use of statistical package(s) to perform these analyses. Prerequisite: PSY 2808

### **PSY 3803 Major Paper (3 credits)**

This course requires the student to design and implement an original research project. It requires a prospectus at enrollment and a written final research report of results. In order for a student to be eligible to apply for an internship placement, a signed and dated Research Completion Form with a copy of the Abstract and a complete copy of the Major Paper must be submitted to the Office of Academic Affairs no later than the last day of Summer Session I. Prerequisite: PSY 1807-9, 2808-12

### **PSY 3809 Theories of Measurement (3 credits)**

This course examines the theories, techniques, and statistics of psychological measurement. Topics covered include classical test theory, methods of reliability and validity assessment, test and item analysis, scaling procedures, test construction, item response theory, and generalizability theory. Prerequisite: PSY 2812

### **PSY 5850 Dissertation (12 credits)**

The Dissertation requires the design and implementation of an original significant research project. Upon enrollment, the student will submit a prospectus to the Office of Academic Affairs describing the study. Upon securing a Committee, it must be submitted to the Dean's office for approval. The student must orally defend the proposal and final product. Bound copies of the approved Dissertation must be submitted to the Office of the Dean and the University Library. Registration is minimally for two semesters.

### **PSY 5851 Continuing Dissertation (1 credit)**

Continuation of PSY 5850 Dissertation. (If needed)

## **General Elective Courses**

### **PSY 4401 Clinical Neuropsychology (3 credits)**

The study of the relationship between brain function and behavior. Major topics include: anatomy and physiology of the human brain, behavioral functions associated with the cerebral hemispheres and lobes, neurobehavioral presentations of common neurologic and psychiatric conditions, administration and interpretation of major neuropsychological test batteries, and diagnostic examination for brain dysfunction. Prerequisite: PSY 1412

### **PSY 4405 Clinical Neuroanatomy (3 credits)**

The understanding of the anatomical organization of the human nervous system is an important skill for a student of clinical neuropsychology. In this course the focus will be on those aspects of neuroanatomy that will aid in neuropsychological assessment and research. Topics will include the development, structure, and function of the human nervous system, neuroanatomical correlates of behavior, and the anatomical substrates of neuropathology. Prerequisite: PSY 1412

### **PSY 4406 Behavioral Neuropathology (3 credits)**

This course is designed to provide an introduction to neuropathology. The understanding of the major diseases and disorders of the human nervous system is an important skill for a student of clinical neuropsychology. In this course the focus will be on those aspects of neuropathology that will aid in neuropsychological assessment and research. Topics will include the development of structural and chemical dysfunction of the human nervous system, neuroanatomical correlates of dysfunction, and the anatomical substrates of neuropathology. Prerequisite: PSY 4401

### **PSY 4409 Pediatric Psychology (3 credits)**

The purpose of this course is to provide the student with a comprehensive overview of the field of pediatric psychology. Students will be taught the various roles of a pediatric psychologist functioning within the medical environment and the interface between psychological and medical services and systems. Also, a significant proportion of the course will address the assessment and treatment of children who have psychological and adjustment difficulties due to a chronic, acute, and/or genetic medical diagnosis, and the relevant medical intervention.

### **PSY 4410 Psychology in Fiction (3 credits)**

This course is about psychology, i.e., human experience, as told by fiction writers. By studying selected works, portions of truth about human behavior are sampled. Class discussions focus on this truth. Students are helped to experience vicariously different portions of the human condition, become more empathic with people whose experiences are different from their own, refine skills of observing and influencing behavior, and internalize values significance in our work as therapists.

### **PSY 4414 Behavioral Principles of Learning (3 credits)**

This course provides a comprehensive review of the psychological principles of learning derived from experimental research and validated by applied experimental/empirical studies. General topics include the nature of learning, behavior without learning, learning without words, and learning with words. Specific topics covered include types of behavior, motivational influences on behavior, respondent behavior and conditioning, operant behavior and conditioning, stimulus control, schedule influences on behavior, observational learning, verbal behavior and rule-governed behavior, and behavioral accounts of language and cognition. The course is designed to give students a good grounding for assessment and intervention courses with a behavioral orientation.

**PSY 4418 Forensic Psychology: Criminal Law (3 credits)**

This course will cover topics dealing with the interaction of psychology and criminal law. Topics to be covered include: insanity, competency to stand trial, clinical assessment of dangerousness, delinquency, and the evaluation of malingering.

**PSY 4419 Forensic Psychology: Family Law (3 credits)**

Basic principles in concepts of forensic psychology; the relationship between juvenile and family law and the scientific study of human behavior. Emphasis will also be given to areas of child physical and sexual abuse and domestic violence. There will be a critical review of pertinent literature. Special attention will be on the legal-ethical issues in evaluation, treatment, and research in family and juvenile law.

**PSY 4420 Police Psychology (3 credits)**

Police psychology is an emergent specialty area in professional psychology. The role of a police psychologist is complex. This course is designed to provide didactic training for consultation within law enforcement. Specific topical areas will include: consultant vs. in-house staff, pre-employment assessment, fitness-for-duty evaluation, critical incident stress debriefing, hostage negotiation, and psychological profiling.

**PSY 4424 The Business of Psychology (3 credits)**

This course will introduce students to the business of psychology. Issues related to private practice, employment, program development, and implementation will be presented. Specific topics will include: developing a private practice, surviving in a changing marketplace, establishing fees, coding and reimbursement, negotiating employment contracts, and development and implementation of psychological service units.

**PSY 4432 Concepts and Issues in Substance Abuse (3 credits)**

This course provides a foundation for understanding clinical efforts aimed at the prevention and treatment of substance use problems. It examines major perspectives on the nature and etiology of substance use problems, and how those perspectives translate into social actions and clinical practices. Explanations of substance use and abuse are presented as exemplifying lay and scientific views of abnormal behavior.

**PSY 4433 Advanced Readings in Behavior Analysis (3 credits)**

This course provides an advanced in-depth examination of seminal and contemporary articles in Applied Behavior Analysis and the Experimental Analysis of Behavior. The course is designed to give students a broader understanding of key scientific and conceptual developments in the field. It also provides students with the opportunity to identify, describe, and discuss advanced articles in the field and prepare students to effectively explain behavior analysis to other professionals and consumers.

**PSY 4435 The Teaching of Psychology (1 credit)**

This seminar will focus on the theoretical and practical aspects of teaching undergraduate and graduate psychology. Examination of models of course construction, teaching pedagogy, and assessment of learning will be explored. Students will create an individual philosophy of teaching with a focus on identity development, both as a psychologist and educator. Didactic training will be complemented by experiential opportunities for teaching in a variety of formats.

**PSY 4441 Object Relations Theories (3 credits)**

The primary objectives of this course is to trace back the origin and subsequent development from the work of Freud through the growth of both British and American object relations theorists.

**PSY 4449 Introduction to Forensic Psychology (3 credits)**

This is a survey course designed to provide students with a knowledge of psychology that can be used to provide assistance in the law. It will deal with both practical and research applications in clinical and social-cognitive psychology. Some topics will include admissibility of psychologists in the courts to provide expert witness testimony; assessment of various mental states to meet legal requirements for competency; insanity; abuse syndromes and other psychological harm; ethical guidelines for forensic psychologists; working with police and others in the criminal justice system; and child custody and dependency issues. The legal system will be reviewed, as will the ability to conduct legal research.

**PSY 4450 Forensic Psychology: Special Issues (3 credits)**

This course covers current special issues through the study of various cases in the particular area of psychology and the law. Each year that the course is offered, the topics and cases chosen for study may change depending on what is current in the courts, in psychology, and in the news.

**PSY 4460 Basic Anatomy and Pathophysiology (3 credits)**

This course is designed for students of clinical health psychology to gain a physiologic understanding of disease processes. Cellular physiology, neuro-pathology, immunology, cardiovascular, respiratory, gastrointestinal, musculo-skeletal, and endocrine physiology as well as pertinent disorders in each area will be studied.

**PSY 4481 Community Psychology with the Seriously Mentally Ill (3 credits)**

This course covers a variety of topics relevant to psychologists specializing in long term mental illness. The focus will be on developing skills in areas including qualitative research, supervision, consultation, administration, advocacy and public policy, program development, grant writing and teaching/workshop planning. Guest speakers, field trips and clinical exercises will augment class lectures.

**PSY 4482 Consultative Psychopharmacology (3 credits)**

This course in advanced psychopharmacology emphasizes the selection and coordination of appropriate pharmacological treatments for specific psychological disorders. It focuses on the consultation function of psychologists with non-psychiatric medical personnel.

**PSY 4490 Military Psychology (3 credits)**

This course covers the application of psychology to military environments. It provides an overview of current assessment and treatment models, covering both clinical operational psychology. Topics include fitness for duty evaluations, brief psychotherapy in the U.S. Military, clinical health psychology and behavioral medicine in military healthcare settings, suicide prevention in the military, combat stress, psychological interventions after disaster or trauma, assessment and selection of personnel, future directions in military psychology, and military internship opportunities for graduate students. This course is relevant to those interested in a career in the military or those providing services to veterans, law enforcement, or intelligence personnel in the civilian sector.

**PSY 4491 Consultation and Supervision: Medical Rounds (3 credits)**

This course is designed to introduce students to professional and ethical issues in the field of Clinical Health Psychology. The course includes a field-based experience intended to provide students with an opportunity to participate in interdisciplinary rounds in medical settings. The field-based aspect of the course will require that the students spend approximately 20 hours observing medical rounds. Classroom-based work will focus on practical, professional, and ethical issues specifically related to the practice of health psychology. Relevant issues arising in the field-based experience will also be discussed in class.

**PSY 4501 Advanced Clinical Neuropsychology (3 credits)**

Intensive study of specialized methods of neuropsychological assessment as they apply to the recognition of central nervous system disorders. Examination results are presented and discussed in a case conference format. Topics include: administration and interpretation of the Luria-Nebraska Neuropsychological Battery, selection and interpretation of flexible batteries, functional systems of the brain, and profession issues. Prerequisite: PSY 4401

**PSY 4503 MMPI (3 credits)**

The MMPI, MMPI-2, and MMPI-A are the most widely used clinical instruments, and the most widely used personality test. More than 15,000 research studies have been published using the test, and 1,000 specialized research scales have been developed. The course is intended to help the advanced student become more familiar with clinical interpretation of the MMPIs. We will also examine its various forms and the utility of specialized scales. In addition, we will explore its usefulness in conjunction with other instruments, such as the MCMI.

**PSY 4515 Child and Adolescent Neuropsychological Assessment (3 credits)**

This course is designed to provide an introduction to developmental neuroanatomy, and developmental neuropsychological research and theory in the neuropsychological assessment of children. Cases of acute brain trauma, chronic brain injury, communicative disorders, learning disabilities, brain disease, sensory-motor handicaps, and seizure disorders will be presented to demonstrate the behavioral effects of these conditions.

**PSY 4517 Neuropsychology Case Analysis (3 credits)**

This course will cover the interpretation of batteries of neuropsychological tests that reflect classic conditions such as open and closed-head trauma, stroke, dementia, tumor, anoxia, carbon monoxide poisoning, Parkinson's disease, and other common conditions seen in adult acute hospital settings. The class will involve analysis of cases presented in the literature, as well as cases presented by the students.

**PSY 4520 Child Sexual Abuse Assessment (3 credits)**

The purpose of this course is to provide the student with state-of-the-art knowledge and the tools necessary to properly assess the validity of allegations of CSA, and to assess the psychological impact of CSA on known victims.

**PSY 4525 Assessment of Culturally Diverse Clients (3 credits)**

This course involves a critical review of traditional assessment methods and instruments when used to measure the intelligence and aptitudes of those persons who differ markedly from the social and cultural norms. It will demonstrate the counterproductive pitfalls in the application of such techniques when used to label ethnic minorities and underprivileged clients. Students will learn to use and apply alternative methods. The theoretical and practical innovations of dynamic assessment will be analyzed.

**PSY 4526 Learning Potential Assessment and Instruction (3 credits)**

This course will include specific training in the concepts and application of Feuerstein's methods for assessing potential in culturally different clients and students and in enhancing their learning by means of remedial programs of instrumental enrichment.

**PSY 4550 Analytic Approaches to Assessment (3 credits)**

Frequently used projective tests from the test battery (Rorschach, TAT, SC, Bender, and DAP) will be examined from a psychoanalytic viewpoint. Test protocols will be reviewed and analyzed with similar content from different tests pointed out. How to structure will be accentuated. Report writing

stressing the principal conflict, and showing how conceptualization of a case begins with the patient's initial response and builds from this impression, reinforcing or offering new ideas, will be demonstrated. The work of a number of outstanding authors will be examined from a conflict/defense orientation. Organization, synthesis and integration of material will be highlighted.

**PSY 4560 Forensic Assessment (3 credits)**

This course is designed to teach the basic principles and concepts of forensic psychology as it relates to assessment. Students will be instructed in the basic areas of forensic assessment, including how to approach a forensic assessment case, ethical guidelines associated with forensic assessment, how to prepare a forensic assessment report, and how to testify as an expert witness. The class will focus on a variety of general psychological tests used in forensic assessment, such as the MMPI-2, MCMI-III, Wechsler Scales, and Rorschach. In addition, the use of these tests in particular forensic contexts, such as the MMPI-2 in child custody cases and the Wechsler Scales in criminal competency cases, will be discussed. Finally, specialized tests that can be used in forensic evaluations, such as the Trauma Symptom Inventory (TSI), Parenting Stress Index (PSI), and the Hare Psychopathy Checklist-Revised (PCL-R) will be covered.

**PSY4565 International Psychology (3 credits)**

This course examines a variety of contemporary psychological topics in International psychology. Students evaluate mainstream as well as alternative theoretical, methodological, and applied approaches that are relevant to the study and practice of psychology within a global context. Clinical issues are reviewed with regard to trans nationally conceptions of etiology and treatment of mental health problems.

**PSY 4687 Rehabilitation Psychology (3 credits)**

This course provides an overview of Rehabilitation Psychology as a specialty area within professional psychology that assists people dealing with chronic, traumatic and/or congenital injuries or illnesses to achieve optimal physical, psychological and interpersonal functioning. Students in the course will learn how the field is differentiated from both Neuropsychology and Health psychology. Furthermore, students will be provided with opportunities to understand the role of the Rehabilitation Psychologist in being an effective member of the central interprofessional team. Particular attention will be paid to theory and research pertaining to providing services consistent with the level of impairment, disability and handicap relative to the personal preferences, needs and resources of the individual. Students will be challenged to use their understanding of this theory and research to suggest opportunities for intervention with various populations.

**Intervention Elective Courses**

**PSY 3605 Adult Intervention II (3 credits)**

This course covers primary approaches to treating personality disorders in adults. Problems covered include narcissistic, borderline, antisocial, and dependent personality disorders. Interventions with solid empirical and theoretical support are highlighted.

**PSY 3606 Systems/Family Therapy II (3 credits)**

This course will explore family-of-origin issues and multigenerational processes as well as their influences on couples' relationships. Students will learn to apply family methods to specific problem areas such as divorce, parenting, chronic illness, phobias, suicide, etc.

**PSY 4603 Play Therapy (3 credits)**

The purpose of this course is to delineate the various theoretical and practical approaches to play therapy. Conducted in a seminar fashion, class sessions will involve the discussion and instruction of

theory, methods of intervention, and the special therapy issues. Additionally, an applied clinical approach will also be emphasized via student play therapy case presentations.

**PSY 4604 Advanced Applied Behavior Analysis (3 credits)**

This course provides a comprehensive review of Applied Behavior Analysis at an advanced level. Students will learn the history of behavioral psychology, the experimental analysis of behavior and applied behavior analysis. The basic principles of behavior are reviewed as a foundation for the application in ABA methods. Students will design an intervention program using ABA methods to improve socially meaningful behavior with the approval of the instructor.

**PSY 4607 Group Theory and Processes (3 credits)**

Group process provides an introduction to the theories and research pertaining to small group behavior. Experiencing group dynamics first hand and processing these experiences provide opportunities to become familiar with factors which influence behavior in small groups.

**PSY 4608 Advanced Group Theory and Processes (3 credits)**

This course continues the student's training and experience in group psychotherapy. It is primarily focused on group-leader facilitation, empathy, sensitivity, lessening of prejudicial judgment as it relates to the many hues of human experience and behavior, and anxiety reduction with multiple-client interactions. A paper is required summarizing what was learned about group process and being a group member and leader.

**PSY 4610 Human Sexuality and Sex Therapy (3 credits)**

Addresses topics in the area of human sexuality and sexual functioning from several perspectives, such as historical, biological, psychosocial, behavioral and clinical intervention. Various approaches to conducting sex therapy will be presented as well.

**PSY 4612 Therapy with HIV/AIDS Patients (3 credits)**

The objective of this course is to have students become thoroughly familiar with psychosocial, medical, and legal aspects of HIV, as well as to examine their own feelings as therapists dealing with people infected with HIV.

**PSY 4613 Intervention in Clinical Geropsychology (3 credits)**

This course covers multiple aspects of working with older adults, including psychopathology, clinical assessment approaches, and psychotherapeutic interventions. The focus is on the effects of age upon psychopathology, conceptualization from a biopsychosocial perspective, the use of instruments in the assessment of mood, personality, and cognition, specialized psychotherapeutic approaches, and a description of the settings in which a clinical geropsychologist works. Emphasis is on familiarizing students with evidence-based interventions designed for the unique problems of the older adult.

**PSY 4614 Interventions in Depression (3 credits)**

This course will cover the assessment, diagnosis, and treatment of mood disorders. Available literature on treatment outcome studies will be reviewed. The course will focus on actual treatment applications of depressed patients. Treatment modalities will include cognitive/behavioral therapy, interpersonal psychotherapy, and group approaches. Students must be in practicum and should expect to demonstrate some direct patient experience with the interventions studied.

**PSY 4617 Ericksonian Hypnosis and Therapy (3 credits)**

Basic skills of Ericksonian hypnosis (e.g., indirect methods of induction, utilization techniques) and therapy (e.g., use of metaphors, expectation sets, paradoxical interventions) will be taught through Erickson's writings, lecture and class discussion, in-class demonstrations and exercises, and

videotaped demonstrations.

**PSY 4618 Clinical Applications of Hypnosis (3 credits)**

This course is intended to familiarize students with both research issues and clinical applications of hypnosis. Such topics as the nature of hypnosis; physiological and psychological manifestations of hypnosis; the effects of hypnosis on physical, cognitive, and intellectual performance; applications of hypnosis to psychosomatic disorders; hypnotic amnesia; and applications of hypnosis to a variety of clinical and addictive disorders will be examined. The second phase of the course will provide students with experience in hypnotic inductions and in the use of Hypnotic Susceptibility Scales.

**PSY 4619 Applications of Mindfulness in Psychology (3 credits)**

This course provides an introduction to the traditions, practice and applications of Mindfulness in Psychotherapy. Recent empirical research points to the influence of Mindfulness on both brain development and therapeutic application. This course will examine some of the empirical research and help students participate and lead in some of the practices that make this a very rich and life-enhancing model for both patient and practitioner.

**PSY 4623 Cognitive Behavioral Case Conceptualization**

This course addresses the process of conceptualizing case material from a cognitive behavioral theoretical model and translating these conceptualizations into effective treatment strategies. Video and/or audiotaped clinical interviews and written and/or orally presented case histories are used in class to demonstrate and provide practice in case conceptualization skills.

**PSY 4628 Clinical Biofeedback (3 credits)**

This course provides a review of the areas of clinical application of biofeedback techniques. Emphasis will be placed on integrated biofeedback with general psychotherapeutic processes for children and adults. Diagnostic categories include general anxiety disorders, chronic and acute pain conditions, sexual disorders, and autonomic dysregulation disorders. Biofeedback as a technique for preventive medicine and health will also be discussed. The course includes laboratory experiences.

**PSY 4629 Health Psychology (3 credit)**

This course seeks to define the field of Health Psychology, and provides a conceptual overview of current assessment and treatment models. Emphasis is placed on the interrelationships among affective responses, recurrent behavior patterns, and organ system performance. Intervention strategies directed at lifestyle, as well as specific behavior changes, are highlighted.

**PSY 4630 Existential Therapy (3 credits)**

Contemporary existential issues are explored as they affect both client and therapist in psychotherapy. How existential views complement other theoretical orientations, affect the therapist/client relationship, and lead to implementation of treatment strategies, are of particular interest and focus.

**PSY 4631 Humanistic Therapy (3 credits)**

This course is a practitioner-oriented exploration of theories and practices of humanistic psychotherapy, including Rogers' person-Centered, Bugental's existential-analytic, Mahrer's experiential, and Rollo May's approaches. Theoretical bases for psychotherapy, the therapist as a person, core therapeutic conditions, and the therapy relationship receive major emphasis.

**PSY 4632 Interpersonal/Systems Approaches to Therapy (3 credits)**

An overview of a range of perspectives and treatment approaches (e.g., Sullivanian, family systems, strategic intervention, Ericksonian, Langian) that have in common an emphasis on the role of interpersonal, social, cultural, and political forces in their conceptualization of and response to

psychological problems. Conducted in a seminar format, class meetings will consist of a discussion of concepts, issues, and intervention strategies covered in readings, videotapes, and case presentations.

**PSY 4634 Psychodynamic Psychotherapy in Practice (3 credits)**

The focus of this seminar is the communicative process in psychotherapy. The student will not only attend to the manifest content of the patient's communication, but will also learn to hear and understand the latent (unconscious) message. In order to accomplish this goal each student must develop a working knowledge of Lang's text: *A Primer of Psychotherapy*, or Lang's *Psychotherapy: A basic text*. The first several sessions will be devoted to this task. Students are required to tape some sessions of interesting, difficult, or troublesome cases for classroom presentation. Prerequisite: Students must have cases for discussion.

**PSY 4635 Psychodynamic Therapy I (3 credits)**

The introductory course is designed to familiarize students with the basic concepts, range, scope, and limitations of psychoanalytic psychotherapy as a treatment modality. It is anticipated that by the end of this course, the student will have acquired the basic concepts necessary to have a fuller appreciation of this therapeutic approach.

**PSY 4636 Psychodynamic Therapy II: Classic and Ego (3 credits)**

This course explains in depth the concepts of transference and countertransference, starting with the seminal work of Sigmund Freud in 1912 to the current time.

**PSY 4637 Psychodynamic Treatment Approach to Family and Group (3 credits)**

This course introduces the student to a dynamic approach to family and group psychotherapy. The approaches of the leading family and group therapists will be presented and compared. Students will become familiar with the basic concepts of both family and group therapy, how to conceptualize case material, and the factors that influence family and group dynamics. These will include the therapist-client relationship, major family and group resistances, transference and countertransference. Assessment techniques and intervention strategies with an emphasis on dynamic case analysis will be highlighted.

**PSY 4638 Narcissistic and Borderline Disorders (3 credits)**

The main objective of this course is to explore systematically the clinical pictures, the therapeutic techniques, and the developmental theories of both the borderline and narcissistic personality disorders.

**PSY 4640 Special Problems in Psychotherapy (3 credits)**

This course is open to advanced students who are carrying patients in treatment. Clinical material will be used throughout the course. The following areas will be pursued: setting the stage for psychotherapy; establishing the frame; early trauma; self-disclosure; special events, extra-therapeutic contact; negativity; the revenge motive; handling dreams and fantasy; the metaphor and other poetic dictation; and the erotic transference and countertransference.

**PSY 4642 Self-Psychology (3 credits)**

The purpose of this course is to acquaint students with the theoretical background and practical application of self-psychology. Class will be devoted to discussion of readings and case presentation.

**PSY 4644 Psychoanalytic Concepts (3 credits)**

This course will offer a survey of concepts and theory of psychoanalysis and review their application within the psychoanalytic situation. The first part of each session will be devoted to theory and technique, while the second part of each session will focus on the practical or clinical application of

theory. It is expected that students will participate actively in class discussions, as well as contribute to the clinical section of each session. Each student will be expected to present case material relevant to the subject being discussed. In addition, some written assignments may be given. There will be no examinations in this class.

**PSY 4646 The Use of Dreams in Psychotherapy (3 credits)**

This course will deal with Freud's theory from the *Interpretation of Dreams* brought up to date to accommodate weekly and brief/time-limited psychotherapy. The concept of "dream work", as well as the function, value, and language of the dream will be discussed. Additionally, the significance of the first or initial dream, the interpersonal/communicative function, and intrapsychic aspects of the dream will be explored. The dream in psychopathology, the biology of dreaming, and adaptive aspects of the dream will also be addressed.

**PSY 4647 Psychodynamic Treatment of Affective Disorders (3 credits)**

This course is designed to familiarize students with the genesis, development, and treatment of affective disorders. Topics covered include anxiety reactions, depression and mania, and allied disorders. The mechanisms, dynamics and process of depression, despair, loneliness, self-destructive behavior, boredom, apathy, enthusiasm, and related conditions will be reviewed critically. Throughout, the students will be helped to understand the impact of resistance, transference, and countertransference issues in treating affective disorders will also be discussed.

**PSY 4650 Crisis Intervention (3 credits)**

This course will consist of an overview of crisis intervention, including differing approaches and techniques for this type of work. Specific topics will include working with the suicidal client, coping with grief, divorce, adolescent issues, victimization, aging and illness. Community resources available for crisis intervention and the process of involuntary commitment will also be covered.

**PSY 4651 Seminar in Eclectic Psychotherapy (3 credits)**

Eclecticism refers to the method or practice of choosing what seems best or most likely to have therapeutic benefit for a client/patient from the variety of available systems, methods, and techniques. In order to help develop skills in thinking and application to foster an eclectic orientation, this course will lean heavily on case histories. Students will read, present, and discuss cases from modern therapists and from their own clinical experiences (e.g., practicum). In addition to the wealth of knowledge gleaned from analysis of these cases, students will develop intervention strategies based on recent trends in theory and technique. In addition, current psychotherapy literature and films will be critically examined.

**PSY 4659 Advanced Cross-Cultural Counseling (3 credits)**

This course is designed to explore advanced issues related to the counseling and assessment of culturally diverse clients. Skills will be developed through the use of critical incident analysis and case study conceptualization. Students will be required to construct a case study, read weekly assignments and participate in critical-incident analysis.

**PSY 4662 Post-Traumatic Stress Disorders (3 credits)**

This course surveys the history, research, and treatment approaches of post-traumatic stress disorder in its many manifestations, including post-combat syndromes, natural disaster survivors, occupational critical incidents, and victims of crime, sexual abuse, or accidents.

**PSY 4663 Counseling in Terminal Care (3 credits)**

This course will provide an integrated model for counseling the terminally ill that will include the patient, the family, and social system. It will acquaint students with both a humanistic and a

cognitive-behavioral thanatology. The needs of therapists dealing with the stresses of terminal care will also be addressed.

**PSY 4666 Seminar in Forensic Neuropsychology (3 credits)**

This course will explore the use of neuropsychological testing and theory in forensic settings. The focus will include applications to both criminal cases as well as civil cases. The course will take both a neuropsychological and forensic perspective on the testing procedures and how they relate to legal as well as neuropsychological data. Applications to mitigation in criminal sentencing, competency, ability to stand trial, determination of mental retardation, civil damages, civil liability, and related issues will be discussed along with the appropriate examples from actual cases. Students with practicum or other experience will be encouraged to present cases that illustrate the issues described in the case as well. The course will have a seminar format in which the implications of this information can be thoroughly discussed and debated. Mock testimony will be presented by students to illustrate the practical applications of the course material.

**PSY 4668 Substance Abuse, Health, and Mental Health (3 credits)**

The major goal of this course is for students to learn about substance use and misuse, and related prevention and treatment. In addition, because substance use disorders can significantly affect our health and mental health problems and concerns (e.g., depression, aging, medication use, diabetes, hypertension) this course will address a broad range of issues involved in the assessment and treatment of comorbidity and the relationship of substance use disorders to the management of different health and mental health problems.

**PSY 4669 Clinical Interventions for Anxiety Disorders (3 credits)**

This course will cover the assessment, diagnosis, and treatment of anxiety disorders. Available literature on treatment outcome studies, as well as current literature on the theories of anxiety disorders will be reviewed. The course will focus on actual treatment applications of anxious patients. Treatment modalities will include cognitive/behavioral therapy, mindfulness, and motivational interviewing approaches. Students will practice the interventions studied.

**PSY 4670 Short Term Therapy (3 credits)**

This course will review the history and development of time-limits therapies and survey different approaches, including brief dynamic therapy, cognitive therapies, solution-oriented models and others. New developments in brief treatment will be covered, including managed care models and “HMO therapy.”

**PSY 4671 Psychotherapy with Lesbians and Gay Men (3 credits)**

Lesbians and gay men in psychotherapy present to the clinician issues that are unique to this population. The goal of this course is to make the student aware, sensitive, and knowledgeable of these salient issues in order to work more effectively using gay affirmative psychotherapy technique in treating gay men, lesbians, and their family members. These issues will be viewed through a developmental perspective, i.e., counseling gay adolescents, adults, couples, and the aging. The course design is an interactive approach to using panel presentations, current research, case studies and role playing in a small class atmosphere. Students have the opportunity to volunteer at the Gay and Lesbian Community College using gay affirmative and brief psychotherapy techniques. Group supervision is provided as part of the course.

**PSY 4673 Interpersonal Violence (3 credits)**

The purpose of this seminar is to examine current strategies and issues in clinical research and treatment with disparate forms of interpersonal violence with an emphasis on perpetrators of these acts. Some of these will include: spouse abuse, child maltreatment, incest, (nonfamilial) sexual assault

of children and adults, homicide, and serial rape and murder. Within each area, empirically based approaches to assessment, prevention, and treatment will be discussed. Etiologic and maintaining factors for the various types of violence, and psychosocial profiling procedures with selected subtypes of violent offenders, also will be covered.

**PSY 4677 Feminist Therapy (3 credit)**

Feminist therapy is an intervention technique based on the social psychology theories of the new women's movement. The goal is to help empower women by separating the issues of life that come from living with discrimination and the resulting feelings of oppression from the psychobiological and intrapsychic issues that are brought into the therapy session. Feminist techniques that emphasize analysis of power of dynamics across the lifespan have impacted the various interventions used in treatment towards mental health as well as in its own therapy theory. Feminist therapy theory and the various feminist therapy techniques will be surveyed in this course.

**PSY 4678 Eating Disorders: Theory and Intervention (3 credits)**

This course will review the history of eating disorders and the development of interventions for the treatment of eating disorders, including psychoanalytic, self-psychological, relational, systemic and cognitive-behavioral. Individual, familial, socio-cultural and biological aspects of eating issues and body image difficulties will be addressed as well as relevant research.

**PSY 4679 Abuse, Trauma, and Dissociation (3 credits)**

This course will provide a comprehensive survey of knowledge and skills required to treat adult survivors of childhood abuse. Identification and treatment of complex post-traumatic stress disorder, the spectrum of dissociative disorders, and the pervasive impact on personality functioning of long-standing abuse in childhood will comprise the central focus of the course.

**PSY 4681 Chronic Pain/Illness Management (3 credits)**

This course will cover the conceptual model and the particular psychological assessment and intervention methods that have been found to be effective in work with those experiencing chronic pain and/or illness. Emphasis will be on assisting individuals with chronic pain/illness to minimize the impact it is having on their mood, lifestyle, productivity, recreational activity, family and social relationships. The focus will include managing with such clinical examples of chronic pain/illness conditions as: tension and migraine headaches, back pain, temporomandibular disorder, diabetes, Parkinson's disease, and chronic obstructive pulmonary disease. Consideration will be given to care delivered as part of an interdisciplinary treatment team as well as in psychoeducational group and individual treatment settings. Opportunities will be provided for supervised peer practice with the recommended interventions.

**PSY 4682 Treatment of Serious Mental Illness (3 credits)**

This course will cover the history and current practice of treatment of serious mental illness. Special focus will be placed on the role of psychological interventions in the cure of this population. The increasingly active role of the psychiatric consumer will be highlighted.

**PSY 4683 Interventions with Medical Patients (3 credits)**

This course is designed to familiarize students with clinical interventions, related assessment concerns and research relevant to health problems. Topics that will be covered include relevant assessment issues that need to be considered when evaluating medical patients for psychological intervention and psychological interventions with specific medical populations. Students will learn to design and implement intervention protocols for a number of different physical disorders as well as learn applied techniques, such as various forms of relaxation procedures.

**PSY 4690 Psychological Interventions in Forensic Settings (3 credits)**

This course will cover psychological intervention techniques that are known to have success with juvenile and adult offenders in jail, prison and court-ordered treatment programs to eliminate behavioral problems that are due to mental illness, abuse, and/or substance abuse. Psychological interventions including medication and therapy can assist in the behavioral management of those offenders and hopefully prevent recidivism.

**PSY 4691 Infant and Toddler Mental Health (3 credits)**

This course will cover clinical applications of developmental psychopathology, with an emphasis on infants, toddler and their families. Major theories of development and current research on that systemic etiological pathways of atypical adaptation will be reviewed. Assessment strategies will include observing infants and toddlers at play, clinical interviewing of caregivers, identifying red flags, recognizing 0-3 diagnostic classifications, administered developmental screening tests, and interpreting results. Implications for appropriate theory driven and empirically based treatment will be discussed including play techniques and attachment-theory driven interventions.

**PSY 4692 Parent Focused Interventions (3 credits)**

This course will review current theory and research on parent-focused prevention and intervention efforts intended to benefit children and adolescents. Topics will include the rationale for a behavioral/family systems approach to parent training and its application to contemporary families. Difficulties associated with conducting both research and interventions in family setting will be reviewed with particular attention to problems of measuring and defining “ideal” parenting practices and difficulties in translating program objectives into clinically meaningful outcomes. Parent-focused interventions for both externalizing and internalizing problems will be considered.

**PSY 4693 The Application of Psychology to Organization Settings (3 credits)**

The focus of the course is on the application of the principles of psychology to organizational settings. Students will acquire understanding of interventions at the individual, group and organizational development levels. Further, concepts, skills, and tools that are essential to successful organizational interventions will be demonstrated.

**PSY 4695 School Based Interventions with Ethnically Diverse Families I (3 credits)**

This course, *which includes both academic and clinical components*, is designed to teach students about the family lives and school experiences of low-income, ethnic minority youth, then train and supervise students as they co-lead an intervention targeting children’s academic and mental health outcomes. Coursework is devoted to understanding how families and schools can better support low-income youth, and the intervention is intended to enhance family and school support for local ethnic minority and immigrant communities.

**PSY 4696 School Based Interventions with Ethnically Diverse Families II (3 credits)**

This course is a continuation of School Based Interventions with Ethnically Diverse Families I.

**PSY 4699 Positive Psychology (3 credits)**

The present course will describe how the scope of psychology has recently been broadened beyond exclusive concern with identifying pathology and treating or preventing disorder. This course will provide an overview of the emerging field of ‘Positive Psychology.’ Students will be provided with opportunities to understand theory and research pertaining to the psychology of human strengths, assets, abilities and talents as well as the constructs of optimism, happiness, hope and resiliency. Students will be challenged to use their understanding of this theory and research to suggest opportunities for intervention with various populations.

**PSY 4701 Clinical Practicum V (3 credits)**

The student is required to spend a minimum of 15 hours per week for one semester at a selected agency.

**PSY 4702 Clinical Practicum VI (3 credits)**

See description for PSY 4701 Clinical Practicum V

**PSY 470A Summer Elective Practicum (3 credits)**

See description for PSY 4701 Clinical Practicum V

**PSY 5701 Clinical Practicum VII (3 credits)**

See description for PSY 4701 Clinical Practicum V

**PSY 5702 Clinical Practicum VIII (3 credits)**

See description for PSY 4701 Clinical Practicum V

**PSY 8701 Supplemental Practicum and Supervision (1 credit)**

This course is designed to enhance the knowledge, skills, and profession-relevant attitudes of students preparing for the predoctoral internship.

## CLINICAL TRAINING

### Clinical Practicum

The Clinical Practicum sequence in the doctoral program is intended to provide the student with closely supervised assessment and intervention experiences. Depending on the setting, it can also include training in consultation and liaison. Practicum settings include the NSU Psychology Services Center and a broad array of community treatment settings in Broward, Dade, and Palm Beach counties. The Psychology Services Center consists of both general programs for adult and child/adolescent/family services and 16 faculty specialty clinics. Collectively, these practicum settings give students the opportunity to work with a diverse array of clients and clinical presentations.

Students are required to complete six (4-month) practica, usually during their second and third years of matriculation. Except in unusual circumstances, practicum placements typically span three practica over a 12-month period. Students register for both the clinical practicum and faculty supervision during each of the three semesters of each practicum year. Four weeks during each 12-month placement are allowed for vacation; vacation time is to be negotiated in advance with the program supervisor. Agency placements and faculty supervision assignments are made by the Director of clinical training (DCT), whose office oversees the practicum process. Students should be aware that some practicum sites require evening or weekend as well as daytime hours. Students are also expected to meet all clinical obligations during holidays and academic session breaks, unless they have previously arranged for vacation.

A limited number of practicum placements offer both Summer and Fall starting times. Summer practica generally start on or about May 1 of the practicum year, and Fall practica generally start when the Fall semester begins. Students may request clinical practicum placements that begin in the Summer, but such starting times cannot be guaranteed, as the number of requests may exceed the number of available positions. Students who begin their first practicum year in the Summer may also request to begin their second in the Summer, but students who begin their first practicum year in the Fall may not do so, as this would entail enrolling in two practica simultaneously, which is not permitted. Students are responsible for the cost of their own fingerprinting and background checks for practicum placements that require them.

In the first practicum year, students who begin in the Summer enroll sequentially in PSY 270A and PSY 270B in the Summer, PSY 2701 and PSY 2703 in the Fall, and PSY 2702 and PSY 2704 in the Winter. By contrast, in the first practicum year, students who begin in the Fall enroll sequentially in PSY 2701 and PSY 2703 in the Fall, PSY 2702 and PSY 2704 in the Winter, and PSY 270A and PSY 270B in the Summer. In the second practicum year, students who begin in the Summer enroll sequentially in PSY 370A and PSY 370B in the Summer, PSY 3701 and PSY 3703 in the Fall, and PSY 3702 and PSY 3704 in the Winter. By contrast, in the second practicum year, students who begin in the Fall enroll sequentially in PSY 3701 and PSY 3703 in the Fall, PSY 3702 and PSY 3704 in the Winter, and PSY 370A and PSY 370B in the Summer. Eligibility for practicum is determined by meeting all of the Core Performance Standards for Admissions and Progress (p. XXX). Policies regarding practicum selection and assignment, performance evaluation, problem resolution, and related matters can be found in the *Handbook of Doctoral Practicum Training* at <http://www.psychology.nova.edu>.

## **Prerequisite Courses for Ph.D. Program**

**To enroll in the first semester practicum, the following courses must be successfully completed:**

PSY 1401 History and Systems of Psychology  
PSY 1403 Adult Psychopathology  
PSY 1405 Developmental: Child and Adolescent  
PSY 1407 Developmental: Adult and Older Adult  
PSY 1408 Child and Adolescent Psychopathology  
PSY 1409 Professional Issues and Ethics  
PSY 1503 Assessment of Child and Adolescent Intelligence  
PSY 1505 Assessment of Adult and Older Adult Intelligence  
PSY 1502 Diagnostic Interviewing  
PSY 1603 Systems of Psychotherapy  
PSY 1610 Adult Intervention I  
PSY 1703 Pre-Practicum I

**To enroll in the second semester of the first practicum, the following courses must be successfully completed:**

PSY 270A Summer Practicum (for Summer starts), or PSY 2701 Clinical Practicum I (for Fall starts)  
PSY 270B Summer Supervision (for Summer starts), or PSY 2703 Supervision I (for Fall starts)

**To enroll in the third semester of the first practicum, the following courses must be successfully completed:**

PSY 2701 Clinical Practicum I (for Summer starts), or PSY 2702 Clinical Practicum II (for Fall starts)  
PSY 2703 Supervision I (for Summer starts), or PSY 2704 Supervision II (for Fall starts)

---

**To enroll in the first semester of the second practicum, the following courses must:**

PSY 2507 Objective Personality Assessment  
PSY 2509 Behavioral Assessment  
PSY 2511 Projective Personality Assessment  
PSY 2603 Systems/Family Therapy  
PSY 2604 Child & Adolescent Intervention  
PSY 2606 Case Conceptualization - Co/prerequisite  
PSY 2702 Clinical Practicum II and PSY 270A Summer Practicum  
PSY 2704 Supervision II and PSY 270B Summer Supervision

**To enroll in the second semester of the second practicum, the following courses must be successfully completed:**

PSY 370A Summer Practicum (for Summer starts), or PSY 3701 Clinical Practicum III (for Fall starts)  
PSY 370B Summer Supervision (for Summer starts), or PSY 3703 Supervision III (for Fall starts)

**To enroll in the third semester of the second practicum, the following courses must be successfully completed:**

PSY 3701 Clinical Practicum III (for Summer starts), or PSY 3702 Clinical Practicum IV (for Fall starts)  
PSY 3703 Supervision III (for Summer starts), or PSY 3704 Supervision IV (for Fall starts)

The first year-long practicum, typically taken in the second year of study, requires a minimum of ten (10) hours per week, and the second year-long practicum, typically taken in the third year of study, requires a minimum of fifteen (15) hours per week. The requirements for an elective practicum, typically taken in the fourth year of study by those who choose to take it, are identical to those for the first practicum. Some practicum programs or facilities may require slightly more hours than those specified here. Of the total hours, half are expected to be devoted to clinical contact (assessment, intervention, or consultation). The balance are to be committed to support activities (writing progress notes, reports, and other documentation, consulting with other staff, returning telephone calls, and related functions), receiving supervision, and participating in training activities. Clients in some practicum programs or facilities have higher than average cancellation or no show rates. Students in these practica will have to adjust their caseloads accordingly, and schedule more clients per week to meet the expected number of client contact hours.

As the initial step in the practicum assignment process, students are given an opportunity to review the list of available practicum placements, and to indicate placement preferences each Winter semester. Lists and site descriptions are on the College's Web site. Placement preferences are considered, but cannot be guaranteed. **UNDER NO CIRCUMSTANCES SHOULD STUDENTS SEEK A PLACEMENT ON THEIR OWN, NOR SHOULD THEY ATTEMPT TO CONTACT COMMUNITY SUPERVISORS TO DISCUSS PLACEMENTS WITHOUT THE ADVICE AND CONSENT OF THE DCT.** Only in extraordinary circumstances will students be permitted to accept a practicum in a setting where they are currently or were recently employed. The DCT is responsible for final assignments. Elective practicum placements will be offered on the basis of availability.

Once a student is notified of his/her placement, he/she should contact the specified contact person at the practicum site as quickly as possible. Typically, the site will require an interview to which the student should take an up-to-date curriculum vitae. Some placements require criminal or other background checks, substance abuse screening, and/or health status/immunization confirmation.

As psychologists in training, students must be cognizant that psychological services are provided in an increasingly regulated health care environment. Federal, state, and local regulatory bodies, federal and state statutes, and the practices of such third party payers as insurance companies all impact service delivery. Students in clinical practicum are required to comply with all applicable statutes, guidelines, and rules for such matters as charting, other aspects of clinical documentation, and confidentiality. Accordingly, attendance is mandatory at compliance training sessions that may be provided multiple times during each practicum year for students placed in the NSU Psychology Services Center as well as community placements.

At the end of each semester of clinical practicum, both the site supervisor and faculty supervisor complete a written evaluation of the student's competency attainment on multiple dimensions of clinical, interpersonal, and professional functioning. Supervisors are expected to have the student review, discuss, and sign the evaluation. The supervisor submits a recommended grade to the DCT, who assigns the final grade. The student also submits an evaluation of both the site and his/her faculty supervisor. Grades are not assigned until all evaluation forms have been received. At the conclusion of each practicum year, practicum sites will receive summary comments compiled from all student evaluations, excluding comments specific to the on-site supervisor.

A grade of C or F in practicum is considered unsatisfactory performance. The student will be required to repeat the course (see Remediation Policy in this handbook and in *the Handbook of Doctoral Practicum Training*). Students required to repeat any supervision course will also be required to enroll for additional practica to facilitate supervision.

If a student experiences any difficulty while at the practicum site, he or she should report it immediately to the DCT. Such problems may include inadequate or lack of supervision, inadequate supervision, impaired staff relationships, inappropriate or inadequate assignments, etc. Questions regarding practicum policies and procedures should also be directed to the Office of the DCT.

### **Clinical Competency Examination**

All Ph.D. students are required to sit for and pass the Clinical Competency Examination (CCE) as part of meeting internship eligibility. The examination evaluates the student's knowledge and skills in clinical assessment, diagnostic formulation, case conceptualization, intervention, assessment of intervention efficacy, diversity considerations, and ethical knowledge and understanding. A student following the model curriculum may sit for the CCE as early as the fifth semester of clinical practicum, provided that grades of B or better were obtained in four prior semesters of Clinical Practicum and Supervision. Additional eligibility requirements can be found in the *Clinical Competency Examination Guidelines 2013-2014*. In the event a student fails the examination, it can be retaken up to three times, using a new case each time. A remediation process lasting no less than three months is required after a first failure, and lasting no less than six months after a second or third failure. Failure to pass the examination on the fourth sitting results in automatic dismissal from the Ph.D. program.

The Clinical Competency Examination is designed to assure that students have attained the knowledge and skill competencies needed to complete the predoctoral internship and thereafter enter the profession. The CCE requires the student to prepare written and oral case presentations, and to defend them before a faculty Committee assigned for this purpose. It is the student's responsibility to obtain case materials necessary to sit for the CCE.

To be eligible to sit for the examination after completing either four or five semesters of Clinical Practicum and Intensive Supervision, students must have successfully completed the required assessment and therapy course sequence plus three credits of intervention electives (46XX), and be enrolled in a second intervention (PSY 46XX) course. To be eligible to sit for the examination after completing six semesters of Clinical Practicum and Intensive Supervision, students must have successfully completed the same course sequence plus six credits of intervention electives (46XX). In either instance, students in concentrations should check with the Director of clinical training regarding the number of intervention electives to be completed. The course sequences noted herein are outlined elsewhere in this student handbook. In addition, the student must be in good academic standing (e.g., not on probation, leave of absence, etc.).

The CCE must be completed no later than two weeks before the end of the Fall semester of the academic year preceding the internship year. The final date to sit for the CCE and retain eligibility for an internship beginning the following calendar year will be printed in the Clinical Competency Examination Guidelines for the year in question. CCEs cannot be scheduled during semester breaks. Examinations may be scheduled in the Summer session if the Committee members are available. It is the student's responsibility to be certain that he or she sits for and passes the examination after all prerequisite courses are completed. Any student failing the CCE after submitting one or more internship applications must immediately, by telephone and subsequently by letter, withdraw all pending applications for the following calendar year. Copies of letters of withdrawal from internship applications must also be provided to the Director of clinical training within one week of such CCE failure.

Specific procedures for the CCE are outlined in the Clinical Competency Examination Guidelines

promulgated each year, and are available on the College's web site.

### **Internship**

The final component of the Ph.D. in Clinical Psychology curriculum is the completion of a 1-year, 2000-hour predoctoral internship. Students are required to complete such training at APA-accredited or CPA-accredited internship training programs. Request to apply to unaccredited programs are considered by the DCT on an individual basis. These programs must hold APPIC membership. With the permission of the Director of Clinical Training, a student may take up to two years to complete the internship, which will require a minimum commitment of half time. It is the student's responsibility to investigate and apply for internship opportunities.

To accept an internship placement, a student must be in good academic standing and must have successfully completed the Clinical Competency Examination within the time frame specified. Eligibility for internship application in the Fall requires a student's completion of the Major Paper research project. Such eligibility entails submission to the Academic Affairs Office of a signed and dated Research Completion Form and a completed copy of the Directed Study no later than the last day of Summer Session I.

The Director of Clinical Training will verify the student's eligibility to accept and subsequently begin an internship.

All students will be formally evaluated at least twice in the course of internship. Students are encouraged to contact the Director of Clinical Training to discuss any problems or concerns about meeting internship competencies.

Specific guidelines and procedures for the internship application process are made available annually on the College of Psychology website. Coincidentally with their completion and submission of internship applications, students complete a course entitled Advanced Professional Development (PSY 4499) to facilitate critical thinking and related skills needed for success on internship and in their careers.

### **Research Training**

Research training includes ethical decision making, some of which is covered in this section and some in the section on Protection of Human Subjects in Research.

### **Ph.D. Program**

It is expected that Ph.D. students will be actively involved in research throughout their graduate training. Before applying for an internship, Major Paper must be completed by the last day of Summer Session I (See PSY 3803 Major Paper) and Dissertation proposal must be defended by October 1, the year of internship application.

The research course sequence is structured both as an apprenticeship in the acquisition of research skills and as a structured individual learning experience. In the more advanced phases, students are expected to develop sophistication in conceptualizing and conducting independent research. In the Major Paper, the student, under faculty supervision, must complete a study, which may serve as a literature review or pilot study for the Dissertation.

In the Dissertation, which completes this sequence, the student must demonstrate competency in conducting research in clinical psychology by completing and defending a research study, which is an original contribution to the field and deemed to be of publishable quality. The Dissertation, therefore, represents the culmination of the student's research training and the final predoctoral opportunity to demonstrate acquired research skills.

The following list of learning objectives is a guideline to assist students and research advisors as they plan activities for the research sequence:

1. Given any research article in clinical psychology, the student will be able to critically review and discuss its strengths and weaknesses in the following areas:
  - a. the conceptualization of the research problem
  - b. the formulation of the research questions/hypotheses
  - c. the formulation and execution of the research strategies
  - d. the execution of the analyses
  - e. the interpretation of the data and analyses
2. Given multiple articles in a content area, the student will be able to critically abstract the salient points and present them in a cogent manner.
3. Given the research literature in a specific content area, the student will be able to summarize the conceptual and methodological issues.
4. Given the above summary, the student will be able to state a research problem that is logically derived from that summary.
5. Given a research problem, the student will be able to state one or more research questions/hypotheses that are logically derived from the research problem and that are logically related to the summary of the conceptual and methodological issues.
6. Given one or more research questions/hypotheses, the student will be able to develop multiple methodological strategies to address these questions.
7. Given multiple methodological strategies, the student will be able to critically assess each in terms of its potential for addressing the questions/hypotheses and in terms of its practicality (e.g., feasibility and cost effectiveness); following the assessment, the student will be able to select an optimal methodological strategy.
8. Given a methodological strategy, the student will be able to implement the various components of that strategy, i.e., conduct the research.
9. Given a set of research data, the student will be able to conduct an analysis by employing relevant analysis techniques
10. Given the data and their analyses, the student will be able to interpret them, particularly in relationship to the conceptual framework.
11. Given the above components of the research process, the student will be able to present the study in a format and style appropriate for publication in an APA journal.

These objectives are organized similarly to an outline of a research publication. Although each student should master the component research skills outlined above, it is not necessary to follow each objective in the order presented. The order is a matter of convenience, and research may or may not be conducted in such an order. Each Ph.D. student is required to successfully complete a Dissertation dealing with a practical or theoretical topic relevant to clinical psychology that is supported by three faculty members. Traditionally, the Dissertation represents an independent project that demonstrates the student's ability to survey, integrate, and evaluate literature relevant to the student's project; to develop and conduct a procedure designed to investigate a question, problem, or hypothesis; and to organize, clearly communicate, and defend in both written and oral form, results and implications.

**Before registering for Dissertation, Ph.D. students are expected to be in good academic standing and to have identified a chairperson. A prospectus must be completed and placed on file in the Office of Academic Affairs before registering for Dissertation for the first time. In addition, a Dissertation Committee approval form is required by the Office of the Dean (see Dissertation Guidelines).**

The student is to enroll for six credits in each of two semesters. If Dissertation is not complete, the student must register each Fall and Winter semester for one credit of Continuing Dissertation until complete.

It is in the student's best interest to identify a chairperson and form a Dissertation Committee as early as possible. The proposed Committee and Dissertation topic must be approved by the Dean. This approval must be submitted prior to registration for Dissertation.

Dissertation Guidelines and approval forms are available on the College of Psychology web site and from the Office of the Dean.

Students should become familiar with current guidelines that contain specific and detailed information about eligibility; chairperson selection; Committee formation; Dissertation content, format, and procedure; and IRB guidelines.

**To be eligible for degree conferral, students must submit to Office of the Dean three bound copies of their Dissertation and must upload their Dissertation to Dissertation Abstracts International (UMI) the following guidelines (also available in the Dissertation guidelines) need to be followed:**

It is mandatory that the Dissertation be reviewed for appropriate form by the Office of the Dean prior to submission for binding. The Dean's Office will also provide the name of the binding company approved by the school. It is the responsibility of the student to pay for preparation and binding the Dissertation. The following instructions for the binding process:

1. The Dissertation must be bound in dark blue.
2. The titles and author's name is to be printed on the front of the bound copy.
3. The word "Dissertation" and the author's last name must appear on the spine
4. A gold line should appear at the top and bottom of the spine.
5. Bond paper with a minimum of -25% rag content must be used for the original copy and for photocopies. Strathmore bond (or equivalent) 20lb. paper should be used. This paper quality is necessary for the printing of the Dissertation to be durable.
6. Three bound copies are required to be submitted to the Office of the Dean for distribution to the library and to the Chairperson of the Committee. The third copy is retained by the Office of the Dean of the School of Psychology.

In addition to the three copies submitted to the Office of the Dean, students are required to submit their Dissertation to UMI.

Following review for appropriate format by the Office of the Dean, students are required to submit their Dissertations to UMI (Dissertation Abstracts International).

During the submission process, you will have the option to request that ProQuest/UMI file for copyright on your behalf. If you choose this option, there will be a fee. It is HIGHLY recommended that you choose this option.

All fees are paid by credit card directly to ProQuest/UMI at the time of submission (fees are subject to change).

For information on submitting your Dissertation to UMI visit <http://College of Psychology.nova.edu/online/dissertguide07.pdf>

Upon receipt of the bound copies and confirmation of submission to UMI, degree application will be approved and released.

### **Statement of Authorship of Research Involving Students**

The College of Psychology adheres to the ethical principles of the American Psychological Association and Nova Southeastern University policies on authorship of research involving students, as presented below.

#### 1. Citations

“Psychologists take responsibility and credit, including authorship credit, only for work they have actually performed or to which they have contributed. Principal authorship and other publication credits accurately reflect the relative scientific or professional contributions of the individuals involved, regardless of their relative status. Mere possession of an institutional position, such as department chair, does not justify authorship credit. Minor contributions to the research or to the writing for publications are appropriately acknowledged, such as in footnotes or in an introductory statement. Except under exceptional circumstances, a student is listed as principal author on any multiple-authored article that is substantially based on the student’s doctoral Dissertation. Faculty advisors discuss publication credit with students as early as feasible and throughout the research and publication process as appropriate. (American Psychological Association, 2003, *Ethical Principles of Psychologists*, and *Code of Conduct Principle 8.12*).

#### 2. Guidelines

- a. Only second authorship is acceptable for the directed study supervisor
- b. Second authorship may be considered obligatory if the faculty supervisor designates the primary variables or makes major interpretive contributions or provides the data base.
- c. Second authorship is a courtesy if the supervisor designates the general area of concern or is substantially involved in the development of the design and measurement procedures or substantially contributes to the write-ups of the published report.
- d. Second authorship is not acceptable if the supervisor provides only encouragement, physical facilities, financial support, critiques, or editorial contributions.
- e. In all instances, agreements should be reviewed before the writing for publication is undertaken and at the time of submission. If disagreements arise, they should be resolved by a third party using these guidelines.

(American Psychological Association, February 19, 1983, *Authorship Guidelines for Dissertation Supervision*).

#### 3. Comments

When a faculty member at Nova Southeastern University’s College of Psychology is supervising students who are enrolled in Independent Study, or Directed Study: Research, and their work is an extension of ongoing faculty research, first authorship of any subsequent publications would typically go to the faculty member; secondary authorship would go to students if the above criteria are met. When a student is the principal contributor to a study done under faculty supervision, first authorship

would go to the student. Faculty participation in authorship of publications in these cases would be determined by the above guidelines.

## **ACADEMIC REGULATIONS AND INFORMATION**

### **CALENDAR AND CLASSES**

#### **Academic Year**

The academic calendar is outlined at the beginning of this handbook. The academic year of the Ph.D. program is divided into three semesters. Students are required to register for Fall, Winter, and Summer semesters while fulfilling the 3-year residency requirement. Summer semester offers courses that are semester long or have the same amount of work condensed into the first or second half semester. All courses meet 15 class hours per credit, regardless of scheduling format.

#### **Attendance**

Students are required to attend all scheduled learning activities including classes, lectures, seminars, and exams. Anticipated absences should be cleared in advance with the instructor. Excessive absences may result in a lower grade at the instructor's discretion or may necessitate a withdrawal from the course. Students are required in the first year to attend all program colloquia.

#### **Religious Holidays**

It is the policy of the University to excuse, without penalty, absences due to religious observances and to allow the makeup of work missed. Special required out-of-class activities are ordinarily not scheduled on days of religious observances.

### **STUDENT ENROLLMENT**

#### **Residency and Full-Time Status**

All students must be in full-time residence for the first three academic years to be eligible for the doctoral degree. This requirement is independent of the number of transfer credits the student may receive. In order to maintain student status in the Ph.D. program, students must be registered **continuously** under one of the following categories until all program requirements are met.

1. While fulfilling the three year residence requirement, students are considered to be full time if they complete at least 9 credit hours each of Fall and Winter semesters. Completing less than 9 credit hours in each of Fall and Winter semesters requires special permission from the Director of academic affairs. Students should refer to their appropriate curriculum to determine residence requirements for each Summer semester.
2. Students who have met the three-year residency requirement are considered full time by the College if they are registered for at least 1 credit.

**For certain forms of financial aid, full-time and part-time status may be defined differently. Students applying for financial assistance MUST clarify this with the Office of Student Financial Services and Registration.**

Continuous registration for a minimum of 1 credit in the Fall and Winter semesters must be maintained until the degree is awarded. All students going on internship must register for .5 credit of internship in each of Fall and Winter semesters before leaving the area.

## **Leave of Absence**

A Leave of Absence (LOA) is a University-approved temporary period of time during which the student is not enrolled, but is not considered withdrawn from the University. A student may request a leave when a good cause can be demonstrated. A request for leave due to poor academic performance is not considered good cause.

Students must apply in writing for a leave of absence to the Director of academic affairs (DAA) and Director of Clinical Training (DCT). A one year leave of absence will be granted at a student's request. A second year leave of absence will be granted only for extraordinary circumstances. Additional leaves of absence will be granted only while securing an internship. Time spent on an approved leave of absence is not charged against the eight year time limit. Students on leave of absence are not permitted to participate in any University related activity, including practicum or supervision. Students returning from a leave of absence must meet with the designated Directors to discuss readiness to resume studies and clinical activities. If a health reason (physical or mental) is involved, they must present a letter from the treating professional attesting to their readiness to return. If the designated Directors determine that there is sufficient concern about a student's readiness, the case will be referred to the Professional Standing Committee (PSC). The Committee's deliberations may include an interview of the student. Findings may include a determination that the student is not ready to return and may specify needed remedial actions. Students returning from a leave of absence are governed by the policies and procedures in place on their return. They should contact the Office of Academic Affairs well in advance of their return to register for courses.

## **Time Limits**

To assure that an awarded degree represents up-to-date knowledge and skill competencies needed to enter the profession, students are required to complete their program and be awarded a doctoral degree within eight years from the time of first enrollment.

In the event that a student does not complete all requirements within the eight year time limit (excluding approved leaves of absence), he or she must enroll in and complete 18 credits per year. This must consist of at least 3 credits of course work (including independent study) and, if a Dissertation is incomplete, 3 credits of Dissertation supervision each Fall and Winter semester. The additional 6 credits may be taken during the Summer, either 3 credits of course work and 3 credits of supervision, or 6 credits of course work; alternatively, these 6 credits may be taken as an additional 3 credits of course work during both Fall and Winter semesters.

## **Failure to Register**

Students who fail to register for a required semester or who voluntarily withdraw from the program without a leave of absence are considered to have withdrawn from their program. Such students must make formal application and go through the entire admission process if they wish to reenter the program at a later date.

## **Candidacy**

Students who have been admitted into the Ph.D. program are considered to be matriculated. Students admitted as special students to take particular courses have not matriculated in a program.

## **ADVISING**

### **Orientation**

All new students are required to attend orientation before the start of the Fall semester. At orientation, students are provided with needed information about the College of Psychology and NSU programs,

introduced to faculty members and their programs of research and clinical service.

### **Faculty Advisors**

First year students are assigned a faculty advisor prior to orientation for advisement on academic issues, mentorship, and initial inculcation into the profession of clinical psychology. Students are required to meet with their advisors at least three times during the academic year, and more often as warranted. In addition, the Directors of Academic Affairs and Clinical Training hold multiple meetings of the entire first year class. All students are advised on course selection by the Office of Academic Affairs and on practicum selection and internship applications by the Office of Clinical Training.

### **Mentorship by Faculty**

Faculty advising in the College of Psychology is done in the context of mentoring relationships with appointed faculty advisors in the first year, clinical supervisors based on expressed preferences in the second and third years, with the addition of Directed Study mentors in the third year. Students are also encouraged to seek out faculty members with shared interests for further mentorship.

## **TRANSFERS BETWEEN THE Ph.D. AND Psy.D. PROGRAMS**

It is the policy of the College of Psychology that doctoral students in clinical psychology should select either the Ph.D. or the Psy.D. program before making application for admission. The programs are distinctive in focus, and it is expected that applicants will enroll with the intention of completing the program into which they are accepted. There is no opportunity to transfer from one program to the other.

## **ACADEMIC STANDING**

The academic standing policy for all graduate programs in the College of Psychology requires students to maintain a minimum cumulative grade point average of 3.0. Minimum requirements are stated in the Probation and Dismissal sections below.

### **Probation**

Academic probation will occur automatically when any of the following conditions exist:

1. The cumulative grade point average Falls below 3.0.
2. A grade of F is received.
3. Three concurrent incompletes (I) appear on the transcript.

The student, the DCT, and the Dean of the College will be notified in writing of the student's probationary status by the Director of academic affairs.

If, while enrolled in practicum, a student goes on probation, the Director of Clinical Training will decide whether the student will terminate or continue practicum. The student is allowed one year (two full semesters, excluding Summer sessions and leaves of absence) to remove probationary status. While on probation, students must maintain full-time enrollment.

No student on probation will be permitted to begin a practicum, sit for CCE, apply for internship, or register for Dissertation or Major Paper: Research credit.

Academic probation may affect the student's financial aid status.

### **Dismissal**

Automatic dismissal from a doctoral program in the College of Psychology will occur when any of the following conditions exist:

1. Academic probation extends beyond one year.
2. More than two grades below B are received.
3. Two grades of F are received.
4. The Clinical Competency Examination is failed a fourth time.
5. Received a grade of Fail for internship. Internship cannot be repeated.
6. Being dismissed from or having employment involuntarily ended on internship.

**Students who are academically dismissed will not be considered for re-admission.**

## **REMEDIATION POLICY**

A student receiving a grade of F in any course must repeat and successfully complete the course within one year (two full semesters, excluding Summer sessions and leaves of absence). Both the initial grade and the remediation grade shall remain on the student's record and shall count toward an accumulation of below B grades; however, only the higher of the two grades will be counted toward the student's grade point average.

A grade lower than B in a skills course (assessment or intervention) does not satisfy curriculum requirements, and the course must be repeated. If a grade lower than B is received in an assessment or intervention elective, the student has the option of repeating the course or taking another that will satisfy curriculum requirements. Both grades shall remain on the student's record and shall count toward an accumulation of below B grades. If a course is repeated, only the higher of the two grades will be counted toward the student's grade point average; however, if an alternate elective is taken, both grades will be counted toward the student's grade point average.

**As part of the Remediation Policy of the College, an instructor who gives a grade below B indicates on a written form the reason for the grade and suggestions for remediation. The DAA will review these suggestions and meet with the student's instructor for further remediation planning. Any student receiving a grade below B or placed on academic probation is required to meet with the Director of academic affairs for advisement.**

A grade of C or F in a course prerequisite to a clinical practicum must be repeated (and at least a grade of B obtained) before the practicum can be started. A grade of C in a required skills course (assessment or intervention) or supervision course obtained while enrolled in practicum, independent of probationary status, can be grounds for removal from practicum following review by the Director of Clinical Training.

A grade lower than B in a clinical practicum or supervision course reflects inadequate performance and requires a student to be evaluated by the Director of Clinical Training as to fitness to continue in the clinical practicum sequence. Dismissal from or otherwise being asked to leave a clinical practicum likewise triggers an evaluation of fitness by the Director of Clinical Training. At his/her discretion, the DCT may include other members of the Clinical Training Committee in such determination. If reinstatement in the clinical practicum sequence is judged to be feasible, successful completion of a remediation process may be required prior to such reinstatement. In addition, if a student is to be continued, the practicum must be repeated (although not at the same practicum placement) and a grade of B must be achieved.

A student will not be permitted to register for a sequential course when a grade of I, C, or F has been received in a prerequisite course.

## Remediation Process for Practicum and Supervision

If a student in a first, second, or elective practicum evidences difficulties in competency attainment (i.e., knowledge acquisition or skill development), and/or behavioral difficulties that interfere with his/her development of the performance expected for his/her level of training, three stages of remediation may be employed. Difficulty in competency attainment is defined as being given two or more ratings of “Meets Minimal Expectations” and/or one or more ratings of “Does Not Meet Expectations” in a single semester. First, the on-site supervisor, faculty supervisor, or both will discuss the difficulties with the student, suggest changes (e.g., additional reading) or implement changes (e.g., providing for supervisor review additional audio recordings of practicum performance), and monitor and provide feedback on their impact. Second, if such steps do not lead to the warranted knowledge or skill improvement, the on-site and faculty supervisor will jointly develop a written performance improvement plan, review it with the Director or Associate Director of Clinical Training, and discuss and sign it with the student before implementation. The fully signed performance improvement plan will be provided to the Director of Clinical Training for monitoring and placement into the student’s clinical training file. Third, if the performance improvement plan does not result in the targeted change(s) during the period specified, the matter will be referred to the Director of Clinical Training. In consultation with the Clinical Training Committee, the Director of Clinical Training will meet with the student and his/her supervisors, identify the areas of continuing deficit or surfeit, and determine whether interruption of the clinical practicum sequence is warranted to facilitate more intensive remediation steps. Such steps can include, but are not limited to, retaking a specified skills course, shadowing more advanced practicum students, specified reading, and a recommendation for personal therapy. A minimum time period for the remediation process may be specified. Behavioral indicators for successful completion of the remediation process will be identified and included in a written remediation plan. At the scheduled conclusion of the remediation period, the student, the Director of Clinical Training, and the practicum supervisor(s) will meet again to review the student's performance on the behavioral indicators, and determine whether the student (1) can return to clinical practicum training, (2) needs to extend the remediation plan with or without modification(s), or (3) warrants referral to the Professional Standing Committee for a determination of his/her fitness to continue doctoral training.

## Tuition and Fees

Doctoral tuition for 2015-2016 will be charged at the rate of \$990 per credit hour. **Students should anticipate an annual review of tuition and fees by the University and possible increases.** Students are expected to pay tuition in full at the time of registration. Students receiving financial aid must familiarize themselves with the requirements of that office with regard to payments and may defer payment only if they have been officially notified of an award. Based on an academic year of two semesters, tuition and fees are as follows:

Tuition	\$ 990 per credit hour
Application Fee	\$ 50 (nonrefundable)
Seat Deposit	\$1,000 (nonrefundable, payable after acceptance and credited toward first semester’s tuition)
Registration Fee	\$ 25 per semester
Late Registration Penalty	\$ 50 per semester
Late Payment Penalty	\$ 100 per semester
Textbooks and Supplies	\$1,100 (approximate cost per semester)
Professional Liability Insurance	\$ 10 per semester
Student Services Fee	\$ 300 per semester/\$150 per semester for 3 credits or less

Application for Degree Fee	\$ 100
Transcript Fee	\$ 10 per transcript
Fingerprinting/Background Check	\$ determined by agency

The expenses outlined above are to be considered as very general estimates and may vary considerably, depending on individual circumstances. Some courses may require additional fees for laboratory and/or equipment (e.g., calculator, testing materials) and supplemental course materials. Students are provided NSU Unix computer accounts at no charge. Students will need to make arrangements for Internet access and pay the corresponding fee. **Please note that all above fees are subject to change without notice.**

### **Professional Liability Insurance**

All doctoral students are required to carry professional liability insurance through the University. Students are required to enroll in the plan at the time of each registration.

The College/student professional liability insurance policy provides coverage while the student is attending Nova Southeastern University and while he or she is functioning in approved College activities. This policy does not provide coverage for non-approved or non-College related activities.

### **Refund Policy**

The period in which a student is able to obtain a 100% refund may occur *prior* to the first class meeting. Please note that withdrawal dates are also *prior* to the end of the term (ex. Fall term withdrawal date is November 22, 2015 and the end of the term is December 13, 2015).

Fees other than tuition are not refundable. Students who would like a tuition refund must notify the Office of Academic Affairs in writing of their request and their reason for withdrawal. Unless written notification is on file, students are assumed to be active participants and are responsible for tuition payments.

### **Class Cancellation Policy**

The University reserves the right to cancel any class. If a class is cancelled and a replacement is not offered, then students will receive a full refund of tuition paid for the cancelled class. If the student registered for only one class, then the registration fee would be refunded as well.

### **Drop/Add**

The academic calendar outlines the dates and refund schedule for courses dropped or added. A course must be added before the end of the first week of the semester.

A course that is dropped within the time frame indicated on the academic calendar will not appear on the student's official transcript. (Before the residency requirement is satisfied, dropping a course that would bring a student's course load below the minimum semester requirements (9 credits) requires approval by the Director of academic affairs.)

The following schedule applies to refunds for each main campus semester class:

### **Withdrawal from a Course**

When the student withdraws from a course prior to the first class, the course is deleted from the student's record. A "W" grade is assigned when a student withdraws from a course after the last date indicated on the academic calendar to drop courses with a refund and prior to last published date to withdraw for the term. If the student fails to withdraw by the final published date to withdraw for the term, the student will

be assigned a grade of “F.” Withdrawal from a course may affect the student’s financial aid status.

A withdrawal on the official transcript will be included in attempted credit hours. A withdrawal from a course may affect student’s financial aid status.

Students withdrawing from their program will not be considered for readmission.

### **Transfer of Credit**

All transfer credit must be awarded during the student’s **first academic year** in the doctoral program. Consideration will be given only to doctoral level courses taken before matriculation in the doctoral program. Request for transfer credit for **FIRST SEMESTER COURSES** must be made during the Summer, **before July 19**. Request for transfer credit for **ALL OTHER COURSES** must be made during the Fall, **before October 1**.

Transfer credits will be awarded when the course being evaluated meets all of the following criteria:

1. It is a doctoral level course taken at an institution accredited as degree granting by a recognized regional accrediting body for higher education at the time the course was completed or an APA accredited professional school. A doctoral level course is defined as one that would be credited toward a doctoral degree in psychology at the institution where the course was taken. At minimum, this must be verified in the school’s catalog or in a letter from the chair of the department and an official transcript.
2. It is equivalent in content to a course in the program’s required curriculum. Credits will not be awarded for electives.
3. It was completed no longer than five years before the student’s first enrollment in the program.
4. A grade of B or higher was received. A grade of P (pass) or CR (credit) or other such grades cannot be accepted as equivalent unless it can be officially verified as such.
5. The student must successfully demonstrate competence to the evaluating faculty member for assessment courses.

The student must provide the Office of Academic Affairs with the syllabus and catalog description of courses for which transfer is sought. Faculty members evaluating transfer courses may require the student to provide further documentation and supporting material such as class notes and to meet with them.

The resulting evaluations are reviewed by the Director of Academic Affairs who makes the final determination.

The maximum number of credits transferred that will be credited toward graduation is 15. Although credits awarded beyond this number may be used to excuse a student from a particular course, an equivalent number of elective credits must be taken in order to fulfill the degree requirements. Federal regulations require that veteran students **MUST** report all prior credit and training, and that the school **MUST** evaluate such and grant credit as appropriate, with training time and tuition reduced proportionately and with the VA and student so notified. No transfer credits may be applied to pre-practicum, practicum, internship, research, thesis, or electives.

### **PROVISIONAL ADMISSIONS**

Students may be provisionally admitted to a degree-seeking program based on a review of unofficial transcripts or other specific program admission requirements. However, this admission includes a

condition that final and official documents and requirements must be received within 90 calendar days from the start of the term. If these final and official documents and/or requirements are not received by that time, the student will not be allowed to continue class attendance. Financial aid will not be disbursed to a provisional/conditional student until he or she has been fully admitted as a regular student (all admission requirements have been approved by the college/program admissions office).

## GRADING POLICY

The following policies apply to all academic programs in the College of Psychology. All degree programs in the College of Psychology assign grades to course work according to the following system:

### Grade.....Achievement Rating Quality Points

A	Excellent	4
B	Satisfactory	3
C	Marginal Pass (Requires Remediation)	2
F	Failure	0
P	Pass	-
I	Incomplete	-
PR	In Progress	-
PG	In Progress	-
W	Withdraw	-

In all courses, a grade of A, B, C, or F will be assigned based on the individual instructor's assessment and evaluation of the student's work. Some courses, for example, Dissertation, and internship are graded in terms of pass (P) or fail (F).

**Before the first class session, dropped courses will be deleted from the student's record.** A grade of W is assigned when a student withdraws from a course after the "last day to drop courses," indicated in the section on withdrawal from classes and before the 11th scheduled class. A grade of W will appear on the student's official transcript. Students failing to officially withdraw before the 11th scheduled class will be subject to grading as described in the course syllabus.

A PR (in progress) grade indicates that clinical or research activities are ongoing. It is used for clinical practicum and supervision. A PG (in progress) is given for Directed Study, Major Paper, Dissertation, and Continuing Dissertation.

An "I" (incomplete) indicates that the student has not completed some of the course requirements during the scheduled time and the instructor has given additional time to do so. An I grade is not routinely assigned in courses. An I grade is not assigned by faculty members when students fail to complete the majority of course requirements. Students cannot be assigned an "I" to finish extra credit work.

A student must request an incomplete from the instructor. If the instructor approves an incomplete, a contract form is signed by the instructor and student and submitted to the Office of Academic Affairs. The contract must specify the following:

1. The requirements to be completed by the student to remove the incomplete.
2. The time period within which the student must satisfy the incomplete. The time limit is to be specified by the instructor, but must not exceed 10 weeks from the end of the semester.
3. The grade that the student will receive if the incomplete is not satisfied by the conclusion of the specified time period.

Should the instructor choose not to assign an incomplete, the grade assigned will then be based on the

instructor's assessment of the quality and quantity of work completed.

A student will not be permitted to register for a sequential course when a grade of I, C, or F has been received in a prerequisite course.

### **The College of Psychology E-Mail Account**

NSU requires that all students maintain one official University-assigned computer account that is used to access major computing resources, including electronic mail. **All official electronic mail communications directed to College of Psychology students will be sent exclusively to NSU-assigned computer accounts to ensure timely and accurate delivery of information.** Students may forward their NSU generated electronic mail to external locations, **but do so at their own risk.**

Should you elect to forward your NSU email account to an external location, please keep in mind that NSU and the College's administration use electronic mail on a regular basis as a means of keeping students informed.

## **VETERANS ADMINISTRATION REQUIREMENTS**

### **Standards of Progress**

A student receiving veterans' benefits must maintain satisfactory progress. Students will be considered to be making satisfactory progress as long as they meet the academic standards set by their school for retention in their degree programs.

A student who, at the end of any evaluation period, has not attained and maintained satisfactory progress will be certified, in a probationary status, for only one additional evaluation period. Should this student not attain and maintain satisfactory progress by the end of the probationary period (one evaluation period), the student's VA educational benefits will be terminated for unsatisfactory progress.

A student whose VA educational benefits have been terminated for unsatisfactory progress may petition the school to be re-certified after one evaluation period has elapsed. The school may re-certify the student for VA educational benefits only if there is a reasonable likelihood that the student will be able to attain and maintain satisfactory progress for the remainder of the program.

For VA payment of benefits purposes, an "I" (Incomplete) designation for a course must be converted to a credit grade counting toward graduation, or a failing grade, by the end of one calendar year unless permission for a delay is granted by the Academic Dean for that program. An "NG" (no grade) designation for a course must be converted to a credit grade counting toward graduation, or a failing grade, by the end of one regular semester unless permission for a delay is granted by the Academic Dean for that program.

### **Grade/Progress Reports**

Each VA student will be provided a grade/progress report at the end of every evaluation period (e.g. term, semester). A copy of each report will be placed in the student's permanent file maintained by the school. The University periodically furnishes each student with a working transcript that shows current status of grades and earned semester hours for all courses completed and/or attempted, plus grades for courses in which the student is currently enrolled.

### **Credit for Prior Training (CPT)**

Nova Southeastern University complies with federal regulations for veterans' training that it is mandatory for all veterans benefit recipients to report either prior education and/or training. A student receiving veterans' benefits that has previous post-secondary educational training/experience must request official transcript(s) be sent to the school. If the transcript has not been received prior to the end of the student's

second term here at Nova Southeastern University, the student cannot be certified for veterans' benefits for the upcoming term. The student can be certified for veterans' benefits after the transcript has been received.

The school will evaluate the student's previous training and/or experience and grant credit as appropriate. Should credit(s) be accepted and/or granted, the student's tuition and training time will be reduced proportionately, with the veteran and VA so notified

## **DEGREE CONFERRAL**

Students who have completed all requirements for the doctoral degree must submit an online application for degree. **Forms are available via the Office of the University Registrar's website: <http://www.nova.edu/cwis/registrar/instructions.html>.** A fee is required upon submission of the degree application form. Degrees are conferred at the following times only:

End of Fall Semester  
End of Winter  
End of Summer Session I  
End of Summer Session II

Applications require approval by the Office of the Dean, University comptroller, registrar, and librarian. These offices verify that requirements are met and that the student's accounts, records, etc., are in good standing. The date supplied by the Office of the Dean for completion of academic requirements is the date that demarcates pre- from postdoctoral training and supervision. The date is included on the transcript, and the Office of the Dean will verify it to licensing boards. Upon approval, the application is presented to the NSU Board of Trustees for conferral. Following the official conferral of the degree, which is noted on the transcript, a diploma is mailed to the student. Students are encouraged to submit their degree applications at least one month prior to the completion of their internship.

## **GRADUATION**

Graduation exercises for Nova Southeastern University take place each Summer. Eligibility to graduate is determined by having completed all requirements before the graduation date or expecting to complete internship by the end of the Summer. Ph.D. students are eligible to participate at graduation if their Dissertation chair expects them to finish their Dissertation by August 31<sup>st</sup> of that year.

Students eligible to participate in graduation may contact the Office of the University Registrar for information about graduation ceremonies.

Students must indicate whether they are receiving the Psy.D. or Ph.D. degree, since the hood color differs: gold or blue, respectively.

## **EVALUATION OF DOCTORAL STUDENTS**

### **Core Standards for Admission and Progress**

The standards required for admission and evaluation of progress keep in mind the safety and well-being of clients and others whom students and graduates of the program will serve. Students will be evaluated on an ongoing basis, including in courses, practicum, field experiences, internship, capstone experiences, etc. Candidates for the degree must possess with or without reasonable accommodation, multiple abilities and skills. In addition to academic abilities and skills, students must possess intrapersonal, communication, behavioral, and personal attributes that are considered integral and necessary parts of professional functioning.

Students and trainees should know—prior to program entry, and at the outset of training—that faculty, training staff, supervisors, and administrators have a professional and ethical obligation to: (a) establish criteria and methods through which aspects of competence other than, and in addition to, a student-trainee's knowledge or skills may be assessed (including, but not limited to, emotional stability and well-being, interpersonal skills, professional development, capacity for self-care, and personal fitness for practice); and, (b) ensure—insofar as possible—that the student-trainees who complete our programs are competent to manage future relationships (e.g., client, collegial, professional, public, scholarly, supervisory, teaching) in an effective and appropriate manner.

Because of this commitment, and within the parameters of their authority, faculty, training staff, supervisors, and administrators will strive not to advance or recommend graduate students or trainees with demonstrable problems (e.g., cognitive, emotional, psychological, interpersonal, technical, and ethical) that may interfere with professional competence to other programs, the profession, employers, or the public at large.

While difficult to operationally define all characteristics associated with quality professionalism, students and faculty members have targeted observable categories that are considered integral to professional functioning including responsible behavior, ethical behavior, and effective intrapersonal and interpersonal functioning.

### **Responsible Behavior**

- Responds constructively to feedback from supervisors or program faculty.
- Demonstrates dependability in commitment (punctuality in attending classes, submits work and meets with clients on time. Accepts responsibility for own work).
- Successfully completes remediation plan and activities.
- Resolves issues or problems that interfere with the capacity to acquire knowledge, skills, and attitudes necessary to enter the profession, professional development, or other functioning in a satisfactory manner. Seeks appropriate guidance.
- Demonstrates professional comportment.
- Abides by the Nova Southeastern University Student Code of Conduct, all College of Psychology Policies and Procedures, policies and procedures of practicum, internship, or field experience agencies, or schools, and state or federal law.

- Reports immediately any change in status, including arrests, convictions, or incidents in school or field experiences when enrolled as a student.

### **Ethical Behavior**

- Abides by the ethical standards of the profession (e.g. American Psychological Association).
- Complies with University and program requirements, including academic integrity.

### **Intrapersonal Behavior**

- Displays usual and customary judgment, flexibility, discretion, self-awareness, self-reflection, and self-evaluation.
- Demonstrates the ability to function independently.
- Understands the content and potential impact of one's own beliefs and values on clients, peers, faculty, allied professionals, the public, and individuals from diverse backgrounds or histories).
- Participates in activities pursuant to professional development.

### **Interpersonal Behavior**

- Demonstrates mature behavior.
- Presents a generally respectful, non-hostile, and cooperative attitude.
- Demonstrates social skills that facilitates interaction and communication with others; listens well, demonstrates empathy.
- Relates well to clients, peers, faculty, allied professionals, the public, and individuals from diverse backgrounds or histories.
- Is open to the processes of supervision, including the provision of feedback on personal or interpersonal functioning.
- Is able to explore issues that may interfere with the appropriate provision of care or impede professional development or functioning.

To identify and remediate early in the training sequence student behavioral, professional, personal, and/or interpersonal problems that may impede attainment of the competencies required to complete the program and enter the profession, the faculty will meet twice annually to identify any students with such problems and develop remediation plans for them. Such meetings will take place at the end of the first and second semesters of the first year. On these two occasions, faculty members who have taught, supervised and/or mentored first year students will convene a meeting chaired by the Director of Academic Affairs. A list of first year students will be read and faculty will discuss any concerns that have arisen in their interactions with any one of these students. The faculty member or members who express concerns about a particular student will discuss and agree on the necessity, appropriateness and content of a remediation

plan that will be presented to and discussed with that student by the Director of Academic Affairs, the Director of Clinical Training, and one of the faculty members who raised the concern(s) in a separate meeting. A written plan that includes remediation steps, how and when their efficacy will be assessed, and the consequences of not meeting one or more of these steps will be developed, discussed with and signed by the student, and placed in his/her training file.

At the second student review meeting of the academic year (and prior to the start of the first practicum placements), **all** faculty who taught, supervised, or mentored 1<sup>st</sup> year students during the year to that point will convene to review student progress and to evaluate each student's readiness for practicum. The Director of Academic Affairs and Director of Clinical Training will co-chair the meeting. Students for whom remediation plans was implemented following the first review meeting will have their progress in meeting the terms of the remediation plan evaluated. For students who met the terms of their remediation plans, no further action(s) will be taken, and they will be so notified in writing. For those who did not satisfy all remediation terms, or who developed additional problems, will again be referred to a remediation committee. Students evidencing problems for the first time will be referred to a remediation committee in a manner identical to that for students evidencing problems at the end of the first semester. Students identified as not being ready to start practicum training will be so notified in writing, and if their problems are judged to be remediable, they will be referred to a remediation committee for the development of a written remediation plan.

At the beginning of the fall semester, the Director of Academic Affairs and the Director of Clinical Training will follow-up on the remediation plans of any 1<sup>st</sup> year students identified in the prior year. This will allow determination of whether sufficient progress has been made by the student in meeting the terms of his/her remediation plan. Additionally, the faculty will reach a consensus regarding each student's readiness for practicum and will make a recommendation to the Director of Clinical Training with regard to initiation of practicum placement.

Also during this second meeting, the Director of Academic Affairs will be responsible for presenting any student referrals that had been made during the year via the Professional Behavior Checklist to supplement other performance data presented by faculty members in the meetings.

If the Director of Academic Affairs, the Director of Clinical Training, and the majority of core faculty members attending such meeting judge the student's progress in meeting the terms of his/her remediation or any amended remediation plan to be unsatisfactory, a process that could lead to dismissal from the program will be initiated. The student will be so notified in writing. The Director of Academic Affairs, the Director of Clinical Training, a faculty representative of the student's choosing, and the student will then participate in a due process hearing. Possible outcomes of such a due process hearing are limited to additional remediation steps to be pursued during a leave of absence, or dismissal.

This procedure is designed to identify and remediate any student difficulties before they result in serious ethical, interpersonal, behavioral or academic consequences. However, the faculty may agree that a student's behavior problems are more serious than the more informal remediation process described above can address, and may decide that a referral to the Professional Standings Committee should be made. Additionally, a Professional Standings referral can be made at any time an individual faculty member feels that it is appropriate.

Students with performance difficulties that do not show improvement despite remediation or other efforts will be reviewed for readiness to begin or continue practicum training. If warranted, faculty will make a recommendation to the Director of Clinical Training with regard to placement. In addition, students with continuing problems may be referred to the Professional Standing Committee for evaluation, feedback, and recommendations that could include further remediation or actions up to and including suspension, or

termination from the program. When a student-trainee's conduct clearly and demonstrably (a) impacts their performance, development, or functioning, (b) raises questions of an ethical nature, (c) represents a risk to public safety, or (d) damages the representation of the University, program, or the field of psychology to the profession or public, representatives of the program will review such conduct.

If any actions or behaviors are deemed to be severe in nature, it may result in an immediate referral to the NSU Behavioral Concerns Committee or the Nova Southeastern Office of Student Affairs.

## **ANNUAL REVIEWS**

Evaluation of student progress in achieving competencies in the areas of academic, research, clinical, and core standards for performance, including interpersonal, intrapersonal, responsible behavior, and ethical conduct, is conducted annually. These evaluations complement ongoing feedback provided during the year, and can include recognition of accomplishments in a range of professional domains. The evaluation may also include important issues related to professional development and progress that warrant attention. **To ensure the completeness and timeliness of these evaluations, students are required to provide an updated vita and complete surveys of activities by the requested deadline on an annual basis.**

These annual evaluations are designed to provide students with a progress report, to promote self-evaluation, and to foster the development and achievement of future goals in professional development. With faculty mentorship, students are expected to assume primary responsibility for their professional development.

Students are expected to monitor their progress in coursework, related professional activities, and published core standards for admission and progress. Core performance standards are outlined in the preceding section and should be reviewed carefully. Students must actively participate in understanding, analyzing, and developing strategies when they experience academic, research, clinical, or professional functioning difficulties.

Advisement and assistance are available on an ongoing basis, and may be requested at any time through the office of the Director of Academic Affairs or Director of Clinical Training.

## **Nova Southeastern University Statement of Student Rights and Responsibilities**

This code seeks to promote high standards of behavior and academic integrity by setting forth the responsibilities of students as members of the University community. Abiding by the code ensures a climate wherein all members of the University community can exercise their rights of membership.

### **Code of Student Conduct Statement**

The University is a community of scholars in which the ideals of freedom of inquiry, freedom of thought, freedom of expression, and freedom of the individual are sustained. However, the exercise and preservation of these freedoms and rights require a respect for the rights of all in the community to enjoy them to the same extent. It is clear that in a community of learning, willful disruption of the educational process, destruction of property, and interference with the orderly process of the University as defined by the University administration or with the rights of other members of the University cannot be tolerated. Students enrolling in the University assume an obligation to conduct themselves in a manner compatible with the University's function as an educational institution. To fulfill its functions of imparting and gaining knowledge, the University retains the power to maintain order within the University and to exclude those who are disruptive to the educational process.

**In support of the Code of Student Conduct, any violations of the Code of Student Conduct and Academic Responsibility and/or University policies and procedures may result in disciplinary action and/or criminal prosecution. Violations of academic and/or supplementary standards will be handled through the student's academic college, College, or school. Violations of conduct standards, supplementary standards, University policies, and/or procedures will be handled by the Office of the Vice President of Student Affairs or by the individual academic college, College, or school as deemed appropriate.**

Changes to the Code of Student Conduct and Academic Responsibility will be posted on the Student Affairs Web site. Students are required to be familiar with the rules, policies, and Code of Student Conduct and Academic Responsibility.

[http://www.nova.edu/studentaffairs/forms/studenthandbook\\_2014-15.pdf](http://www.nova.edu/studentaffairs/forms/studenthandbook_2014-15.pdf)

Nova Southeastern University, as a community of women and men, is committed to furthering scholarship, academic pursuits, and service to our society. As an institution, our purpose is to ensure all students an equal opportunity to fulfill their intellectual potential through pursuit of the highest standards of academic excellence.

Certain rights and obligations flow from membership in any academic community committed to such goals:

- the rights of personal and intellectual freedom, which are fundamental to the idea of a University
- scrupulous respect for the equal rights and dignity of others
- dedication to the scholarly and educational purposes of the University and participation in promoting and ensuring the academic quality and credibility of the institution

Students are responsible for obtaining, learning, and observing the established University and academic College policies as listed in all official publications. In addition, students must comply with the legal and ethical standards of the institution, as well as those of Broward County, the state of Florida, as well as any other laws, rules, and/or regulations of other jurisdictions. All members of the community should inform the appropriate official of any violation of conduct regulations.

## **A. Academic Standards**

The University is an academic community and expects its students to manifest a commitment to academic integrity through rigid observance of standards for academic honesty. The University can function properly only when its members adhere to clearly established goals and values. Accordingly, the academic standards are designed to ensure that the principles of academic honesty are upheld. The following acts violate the academic honesty standards:

- 1. Cheating**—intentionally using or attempting to use unauthorized materials, information, or study aids in any academic exercise
- 2. Fabrication**—intentional and unauthorized falsification or invention of any information or citation in an academic exercise
- 3. Facilitating Academic Dishonesty**—intentionally or knowingly helping or attempting to help another to violate any provision of this code
- 4. Plagiarism**—the adoption or reproduction of ideas, words, or statements of another person as one's own without proper acknowledgment

Students are expected to submit tests and assignments that they have completed without aid or assistance

from other sources. Using sources to provide information without giving credit to the original source is dishonest. Students should avoid any impropriety or the appearance thereof in taking examinations or completing work in pursuance of their educational goals.

Students are expected to comply with the following academic standards:

### **1. Original Work**

Assignments such as course preparations, exams, texts, projects, term papers, practicum, or any other work submitted for academic credit must be the original work of the student. Original work may include the thoughts and words of another author. Entire thoughts or words of another author should be identified using quotation marks. At all times, students are expected to comply with the University and/or program College's recognized form and style manual and accepted citation practice and policy. Work is not original when it has been submitted previously by the author or by anyone else for academic credit. Work is not original when it has been copied or partially copied from any other source, including another student, unless such copying is acknowledged by the person submitting the work for the credit at the time the work is being submitted, or unless copying, sharing, or joint authorship is an express part of the assignment. Exams and tests are original work when no unauthorized aid is given, received, or used before or during the course of the examination, re-examination, and/or remediation.

### **2. Referencing the Works of Another Author**

All academic work submitted for credit or as partial fulfillment of course requirements must adhere to each program College's specific accepted reference manuals and rules of documentation. Standards of scholarship require that the writer give proper acknowledgment when the thoughts and words of another author are used. Students must acquire a style manual approved by their College and become familiar with accepted scholarly and editorial practice in their program. Students' work must comport with the adopted citation manual for their particular College.

At Nova Southeastern University, it is plagiarism to represent another person's work, words, or ideas as one's own without use of a College-recognized method of citation. Deviating from College standards (see above) are considered plagiarism at Nova Southeastern University.

### **3. Tendering of Information**

All academic work must be the original work of the student. Knowingly giving or allowing one's work to be copied, giving out exam questions or answers, or releasing or selling term papers is prohibited

### **4. Acts Prohibited**

Students should avoid any impropriety or the appearance thereof, in taking examinations or completing work in pursuance of their educational goals. Violations of academic responsibility include, but are not limited to the following:

- plagiarism
- any form of cheating
- conspiracy to commit academic dishonesty
- misrepresentation
- bribery in an attempt to gain an academic advantage
- forging or altering documents or credentials
- knowingly furnishing false information to the institution

Students in violation will be subjected to disciplinary action.

### **5. Additional Matters of Ethical Concern**

Where circumstances are such as to place students in positions of power over University personnel,

inside or outside the institution, students should avoid any reasonable suspicion that they have used that power for personal benefit or in a capricious or arbitrary manner.

## **B. Conduct Standards**

Students should not interfere with the rights, safety, or health of members of the University community nor interfere with other students' right to learn. Students are expected to abide by all University, College, and program rules and regulations and all local, state, and federal laws. Students are responsible for adherence to the University code of conduct and all University policies and procedures while attending or participating in University-sponsored programs, activities, and/or events off the main campus or at any NSU sites.

Any violation(s) of any of the academic standards, conduct standards, or supplemental standards may result in a complaint being filed against a student to enforce the Code of Student Conduct and Academic Responsibility. Deans, associate Deans, or Directors may, in their discretion, immediately suspend students pending a hearing on charges of academic, conduct, or supplemental standards violations. Violations of academic, conduct, or supplemental standards are subject to disciplinary action, up to and including, expulsion from the University. Violations of academic standards will be handled through the student's academic college, school, or College. Violations of conduct or supplementary standards will be handled by the Office of the Vice President of Student Affairs or by the individual academic college, school, or College as deemed appropriate.

## **C. Supplementary Standards**

Students are expected to comply with the legal and ethical standards of this institution and those of their chosen field of study, including the Code of Ethics for Computer Usage. The University and each College or program may prescribe additional standards for student conduct. Reasonable notice may be provided when additions or changes are made to the standards for student conduct. Students should refer to their College and/or Student Affairs Web site for policy updates or changes.

Any violation(s) of any of the academic standards, conduct standards, or supplemental standards may result in a complaint being filed against a student to enforce the Code of Student Conduct and Academic Responsibility. Deans, associate Deans, or Directors may, in their discretion, immediately suspend students pending a hearing on charges of academic, conduct, or supplemental standards violations. Violations of academic, conduct, or supplemental standards are subject to disciplinary action, up to and including, expulsion from the University. Violations of academic standards will be handled through the student's academic college, school, or College. Violations of conduct or supplementary standards will be handled by the Office of the Vice President of Student Affairs or by the individual academic college, school, or College as deemed appropriate.

If the student is found in violation of the Code of Student Conduct and Academic Responsibility and/or University or College policies and procedures, sanctions may be imposed. The University reserves the right to take additional disciplinary action as it deems appropriate. Sanctions are delineated in the NSU Student Handbook.

## **PROFESSIONAL STANDING COMMITTEE**

The Professional Standing Committee of the College of Psychology is appointed by the Dean of the College and serves in a variety of capacities related to the review of student professional standing matters. The Committee consists of faculty, a student representative and other members as appointed by the Dean.

The Committee may be asked to review alleged violations of the University Student Code of Conduct, including academic standards and ethical standards of the field. In addition, the Committee may conduct reviews concerning emotional, behavioral problems serious enough to suggest interference with professional functioning, academic performance, or performance in a clinical practicum or internship setting.

The purpose of the Committee's review and recommendations are not limited to disciplinary actions; but may encompass efforts to remediate a deficiency or problems so that the student can continue their education and function competently as a professional. Committee activities are designed to insure a process by which all relevant facts can be determined, including providing the student with full opportunity to present important information. Actions the Committee may recommend to the Dean could include, but are not limited to, remediation, referral, warning or sanctions up to suspension or termination. In instances of complaints regarding violations of Student Conduct and Academic Responsibility, the Dean may charge the Committee with conducting a formal investigation into the facts pertaining to allegations of misconduct. In such cases the Committee will adhere to professional standing Committee guidelines that insure a timely and complete review of the facts. The process will insure that the student and involved parties have the opportunity to present relevant information.

## **STUDENT GRIEVANCES AND APPEALS**

The College of Psychology faculty and staff value professionalism, honesty, and ethical conduct in the handling of student concerns. At all times, matters are handled in the spirit of education and development. The purpose of the student grievance and appeals process is to allow for the orderly resolution of student grievances concerning a policy, procedure, or administrative action. At all times, the respect and protection of students is of utmost concern.

Evaluation of course work and competency examinations reside within the expertise of faculty who are uniquely qualified by their training experience. Such evaluations and grades are not subject to formal appeal under this section unless there is an allegation of federally/state protected discrimination, but rather are subject only to appeal under the policy on grade disputes.

### **Informal Procedure**

Before initiating a formal appeal, the student must first meet with the party against whom the complaint is being made and present supporting information in an attempt to resolve the matter informally. If this does not result in an acceptable resolution, the student shall bring all academic matters to the attention of the Director of academic affairs and all clinical practica, clinical supervision, Clinical Competency Examination, or internship matters to the attention of the Director of clinical training. This appeal should be presented to the appropriate Director within 30 working days of its occurrence, where informal resolution will continue. Should the Director find insufficient evidence or if this step fails to bring about an acceptable resolution, the student must next request intervention through the Dean of the College of Psychology within another 30 days.

### **Formal Procedure**

1. A student wishing to proceed with the grievance must file a written appeal with the Dean. This document should contain a concise statement of the particular manner of harm, along with all relevant facts and compelling supporting evidence.
2. Upon receipt of a written appeal, the Dean shall review the document to determine if the complaint warrants further review.
  - a. If the Dean decides that no further action should be taken, the appeal will be terminated and a

brief written explanation will be submitted to the student.

- b. If the Dean decides that a further review should occur, the appeal shall be referred to the College's standing Appeals Committee.

The Committee will conduct a substantive review of all facts it deems pertinent to the appeal. The Committee, at its discretion, may interview the student or any other pertinent person that it judges has information relevant to the review. No persons may have legal counsel accompany them or appear in their behalf.

3. The Appeals Committee will file a written recommendation, with justification, to the dean, including whether sufficient evidence exists to uphold or overturn the action being grieved. The dean will notify the student of a determination in writing within a reasonable period following the filing of the appeal. The program will make all reasonable efforts to expedite reviews and conclude the Formal Appeal procedure within 60 days from the date the formal written appeal is submitted to the Dean. However, based upon the individual circumstances and nature of the appeal, the Dean has the discretion to extend the period of time in which to complete the appeal and will inform the student of such in writing.
4. If the student has evidence that there have been any procedural irregularities within the appeals process, such irregularities must be presented in writing to the Dean within five days of the notification of determination. The Dean will review the document and notify the student of a decision. Should any irregularities have occurred, the Dean will return the appeal to the Appeals Committee for consideration consistent with the process described in this student policies & procedures handbook.
5. Following a review of the Committee's report, the Dean's decision shall be final. Students acknowledge upon their acceptance into this program that the above procedure provides for adequate review of University action by any other outside parties or jurisdictions. Further, the jurisdiction for all grievance issues related to policies, procedures, and/or administrative action shall be Broward County, Florida.

### **Policy on Grade Disputes**

Grade disputes shall be limited to concerns about the method(s) (i.e. error in calculation of grades) by which grades are determined. A student seeking to dispute a decision regarding a course grade and/or other evaluation should seek solutions through the following administrative channels by entering at the appropriate level and proceeding in the order stated:

- a. Course Instructor/Supervisor
- b. Director of Clinical Training (practicum, internship, supervision, CCE only) or  
Director of Academic Affairs
- c. Dean (final level of appeal)

A student seeking to resolve a grade problem or dispute through the administrative channels cited above must initiate such action in writing within five business days (excluding official school holidays and weekends) from the date that the grade was recorded in WEBSTAR. The grade appeal should include a concise statement of the basis of the appeal and shall not exceed one (1) page. The student will then have five days from the time of notification of the decision at each level in order to proceed to the next level in the administrative channels cited above (i.e., if the student receives notification of an unfavorable decision by the course instructor/supervisor, the student must proceed with his/her appeal to the program administrator within five days of said notification). Where a student fails to either initiate this process or

proceed through this process within the specified time frame, the student will be deemed to have waived his/her right to dispute the grade in question. In the case of a grade dispute or other appeals relating directly to a student's academic performance, an administrator may not substitute his/her judgment for the performance appraisal of the faculty member rendering the grade or assessing the students' work.

## **STUDENT RIGHTS AND RESPONSIBILITIES**

### **Family Educational Rights and Privacy Act (FERPA)**

The Family Educational Rights and Privacy Act of 1974 (FERPA), also known as the Buckley Amendment, afford students certain rights with respect to their education records. These rights include:

- The right to inspect and review the student's education records within 45 days of the day the University receives a request for access. Students should submit to the Registrar's Office written requests that identify the record(s) they wish to inspect. The Registrar's Office will arrange for access and notify the student of the time and place where the records may be inspected.
- The right to request the amendment of the student's education records that the student believes is inaccurate or misleading. Students who believe that their education records contain information that is inaccurate or misleading, or is otherwise in violation of their privacy or other rights, may discuss their problems informally with the University Registrar. If the decision is in agreement with the students' requests, the appropriate records will be amended. If not, the student will be notified within a reasonable period of time that the records will not be amended, and will be informed by the Office of the University Registrar of their right to a formal hearing.
- The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. One exception that permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the University in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the University has contracted (such as an attorney, auditor, collection agent, loan servicing agent, or the National Student Clearinghouse); a person serving on the Board of Trustees; or a student serving on an official Committee, such as a disciplinary or grievance Committee, or assisting another school official in performing his or her tasks.
- The right to file a complaint with the Family Policy Compliance Office, US Department of Education, 400 Maryland Avenue, SW, Washington, D.C. 20202-4605 concerning alleged failures by Nova Southeastern University to comply with the requirements of FERPA.

Nova Southeastern University hereby designates the following student information as public or "Directory Information." Such information may be disclosed by the institution for any purpose, at its discretion.

Student name	Dates of attendance
Local and home address	Degrees, Honors and awards received
Telephone numbers	Enrollment Status
Major field of study	Year in School
Participation in Sports	Anticipated Graduation Date
Place of birth	E-mail address

### **Release of Student Information**

Students can give consent to permit Nova Southeastern University to discuss and/or release personal identifiable information to a third party such as a spouse, a parent, a guardian, etc. This consent must be

provided in writing with the student's signature. To provide a written consent, complete the Authorization for Release of Information form.

Students may also withhold Directory information (as defined above) by completing the Request to Prevent Disclosure of Directory Information form. Students are warned; however, prior to making a decision to withhold personally-identifiable data, that undesirable consequences frequently occur, such as, names of students on the Dean's List are not published, names are not listed in commencement bulletins, and requests from prospective employers are denied. After completing the form, submit it to the University Registrar's Office, 3301 College Avenue, Fort Lauderdale, FL 33314.

### **Deceased Student Records**

Records of deceased students will be made available to the parent(s), spouse, or executor/executrix of the deceased student and other authorized parties upon written request. The request must include the need for the records; must identify the requestor's relationship to the deceased student; and must be accompanied with an official record certifying authorization to receive the student records, i.e., assignment as executor/executrix. An official copy of the death certificate must accompany the request, if the University does not have prior notice of the student's death. The University reserves the right to deny the request. For further assistance on this matter, students should contact the University Registrar's Office.

\*Acrobat Reader is needed to view any form that is designated with PDF.

### **Ethical Issues in the College of Psychology**

All students and graduates are expected to be knowledgeable about and conform to both the letter and spirit of the *Ethical Principles of Psychologists* as approved and adopted by the Committee on Scientific and Professional Ethics and conduct (adopted American Psychological Association, June, 2003); Florida Licensing Law; and to the provisions of the American Psychological Association's *General Guidelines for Providers* (1987). A copy of the full text of materials to which students and graduates are expected to conform is available in the Office of the Dean. From time to time, these materials are amended. Students and graduates are expected to review these materials periodically to ensure that they have an understanding of current guidelines.

In particular, attention is drawn to the following points, which are illustrative rather than exhaustive or comprehensive:

1. Students have an obligation to disclose if they have been convicted of a criminal offense, been found not guilty, or entered a plea of guilty or nolo contendere (no contest), regardless of adjudication. The disclosure obligation is a continuing one. All students must report to the College of Psychology any such arrest or conviction after the after filing their application or during the time that the student is enrolled at the college. The College of Psychology will consider new information submitted and, in appropriate circumstances, may change the status of an applicant or student. Students at application give permission to make any necessary inquires and voluntarily and knowingly authorize any former school, government agency, employer, person, firm, corporation, its officers, employees and agents, or any other person or entity making a written or oral request for such information.
2. No student should represent him/herself as being in possession of the doctoral degree, either orally or in writing, directly or by implication, until all formal requirements for the degree have been satisfactorily completed, and the NSU Board of Trustees has met and conferred the degree.
3. It is misleading and inappropriate to append "Ph.D. student," or "Psy.D. student," or some similar designation, after your name.
4. A student should guard against being in a position of having final **responsibility** for clinical work. This is most important both ethically and legally.
5. In Florida, new graduates are legally ineligible to represent themselves as "psychologists" or

“psychotherapists” or to offer or advertise independent psychological services until the Florida license is awarded.

6. In Florida, recent graduates may apply for a provisional license. “A provisional licensee must work under the supervision of a licensed psychologist until the provisional licensee is in receipt of a license or a letter from the department stating that he or she is licensed as a psychologist.” A provisional licensee must “submit a letter signed by a licensed psychologist who is in good standing and not under disciplinary investigation, who agrees to supervise the provisional licensee according to law.”
7. Students should familiarize themselves with the state of Florida law for psychologists (*Florida Statutes*, Chapter 490). [www.apa.org/ethics/code2002.pdf](http://www.apa.org/ethics/code2002.pdf)

### **Dual Relationships Between Faculty Members and Students**

While in principle the APA policy of discouraging dual relationships is endorsed, recognition is given to the fact that, given the complexity and diversity of our functions, certain dual relationships between faculty members and students are bound to arise. Faculty members and students are therefore urged to be sensitive to and aware of the existence of dual relationships and to enter into these with full awareness of their implications.

Sexual relationships between a University faculty member or administrator and a student who are not married to each other or who do not have a preexisting analogous relationship are inappropriate whenever the University faculty member or administrator has a professional responsibility for the student in such matters as teaching a course or otherwise evaluating, supervising, or advising a student as part of a school program. Even when a University faculty member or administrator has no professional responsibility for a student, the University faculty member or administrator should be sensitive to the perceptions of other students that a student who has a sexual relationship with a professor may receive preferential treatment. A University faculty member or administrator who is closely related to a student by blood or marriage or who has a preexisting analogous relationship with a student should eschew roles involving a professional responsibility for the student whenever possible. Romantic or sexual relationships between a faculty member and a student then enrolled in the faculty member’s class (including supervised student activities for which academic credit is given) may be or appear to be coercive and are discouraged. Even when no coercion is present, such relationships create an appearance of impropriety and favoritism, which can impair the academic experience of all students in that class. It is, therefore, improper conduct for a faculty member to engage in a romantic or sexual relationship with a student then enrolled in the faculty member’s class.

At Nova Southeastern University, romantic and sexual relationships between a faculty member and a student are subject to the prohibition against sexual harassment.

It is specifically required that when either a faculty member or any agency, corporation, or program under the auspices of a faculty member employs a student, or whenever a student or any agency, corporation, or program under the auspices of a student employs a faculty member, both parties shall document the existence of this dual relationship in a letter to the Dean of the College of Psychology. This documentation shall be retained in both the student’s and the faculty member’s permanent files. As necessary, an ad hoc Committee shall be appointed to review any complaints that might arise as the result of dual employment relationships.

Further, no services provided by a faculty member or any agency, corporation, or program under the auspices of a faculty member shall result in academic credit being granted to a student unless the services are officially rendered as part of the recognized curriculum (e.g., practicum work, supervised University research, internship, or course work). Approval of such rendering of service must be in writing and approved by the Dean.

**The provision of psychological services by faculty members to students is discouraged.**

Extenuating circumstances may exist, such as when some unusual expertise is possessed by a faculty member or when a student was in treatment with a faculty member before becoming a student. In such cases, the provision of psychological services to a student must be approved by the Dean. Adjunct faculty members who expect no further instructional or supervisory relationship with a student may provide services without this reporting requirement.

**STUDENTS WITH DISABILITIES**

Nova Southeastern University complies with Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990. No qualified individual with a disability shall be excluded from participation in or be denied the benefits of the services, programs, or activities of the University, or be subjected to discrimination by reasons of his or her disability.

If an applicant self discloses his or her disability to the University, the University will ensure that the applicant is advised of the procedures to seek accommodation. The procedure the student applicant is to follow is the same as that for those existing students who request an accommodation. As such, the procedures set forth herein would apply to a student applicant. In the event it is determined that a student is qualified to apply following the consideration of an accommodation request, that student will then be placed into the applicant pool and treated as any other applicant.

For additional information on the University ADA policy and obtaining reasonable accommodations, please contact Office of Student Disability Services at (954) 262-7185. Refer to *NSU Student Handbook* <http://www.nova.edu/studentaffairs/forms/studenthandbook 2014-15> (p. 43) for complete policy. Student’s requests for accommodation will be considered on an individual basis in accordance with the College’s procedures.

**OTHER POLICIES AND INFORMATION**

**Cellular Phone Policy**

The University recognizes the growing trend regarding student possession of cellular phones and electronic devices with video, camera, or voice recording capabilities. In support of each individual’s reasonable expectation of privacy, the copyright and intellectual property laws, the use of these cellular phone features by NSU students must be in conjunction with express consent. Students are expressly forbidden to video, use camera or voice recordings without the express consent of the subject(s) being photographed or recorded. You may not place any pictures or videos of people on a Web page without the expressed permission of the people in the pictures or videos. Any student whose use of their cellular phone violates another’s reasonable expectation of privacy or produces any media as a result of the cellular phone capabilities without express consent may be found in violation of this policy. Violations of this policy may lead to disciplinary action that may result in confiscation of the cellular phone and referral to Student Affairs as a violation of the NSU Code of Student Conduct.

**Computer Policy**

The use of a personal computer during classes is at the discretion of the individual instructor.

The computing resources of Nova Southeastern University are intended to be used for its programs of instruction and research and to conduct the legitimate business of the University. All uses must have proper authorization for the use of the University’s computing resources. Users are responsible for seeing

that these computing resources are used in effective, ethical, and legal manner. Users must apply standards of normal academic and professional ethics and considerate conduct to their use of the University's computing resources. Users must be aware of the legal and moral responsibility for ethical conduct in the use of computing resources. Users have a responsibility not to abuse the network and resources, and to respect the privacy, copyrights, and intellectual property rights of others. For a complete description of Nova Southeastern University's computer policy refer to the NSU Student Handbook (pgs. 36-37).

### **Health Insurance Portability and Accountability Act (HIPAA)**

The American Health Insurance Portability and Accountability Act of 1996 (available at <http://www.hhs.gov/ocr/privacy/>) is a set of rules to be followed by doctors, hospitals and other health care providers. HIPAA took effect on April 14, 2006. HIPAA helps ensure that all medical records, medical billing, and patient accounts meet certain consistent standards with regard to documentation, handling and privacy.

College of Psychology doctoral students are required to complete HIPAA training modules in the course: PSY 1409 Professional Issues and Ethics

### **No Direct Payment to Faculty Members**

Direct student payment to faculty members for educational or professional services is not permissible. That is, no student is to make private arrangements to reimburse any faculty member for psychotherapy, tutoring, supervision, or other educational assistance. Students are encouraged to seek whatever educational help they need from faculty members and to seek professional services (such as psychotherapy) outside of the program.

## **PROTECTION OF HUMAN SUBJECTS IN RESEARCH/ PROCEDURES FOR BOTH FUNDED AND UNFUNDED RESEARCH**

The College adheres to published professional and governmental guidelines and regulations for protecting human subjects in research. **Any research that involves human subjects conducted by NSU faculty members, staff members, or students, whether funded or unfunded, must be submitted to the COLLEGE OF PSYCHOLOGY representative for decision about possible Institutional Review Board (IRB) review. All faculty members, staff members and students involved in research studies must complete an on-line course with regard to the protection of human subjects (CITI course).** To obtain more information visit the NSU IRB website at [www.nova.edu/irb/training.html](http://www.nova.edu/irb/training.html). All IRB policies and procedures can be accessed at the IRB website: [www.nova.edu/cwis/ogc/irb.html](http://www.nova.edu/cwis/ogc/irb.html).

All research studies involving human subjects are reviewed in one of three ways, College Level Review (previously labeled Exempt Research), Expedited Review, and Full Review. Every research protocol begins with a complete submission to the principal investigator's respective College representative. The College representative, **not the principal investigator**, is charged with reviewing the submission to determine the appropriate level of review for the study as well as assuring that all necessary documents are included. Examples of studies falling into the different types of reviews may be found on the web site here: [www.nova.edu/irb/review.html](http://www.nova.edu/irb/review.html).

The College representative works with the principal investigator to prepare the required IRB documents in accordance with NSU policies/procedures. Contact the Program Office for further information regarding the College of Psychology College representative.

The principal investigator will be responsible for completing the IRB Submission Form and Protocol for all unfunded research involving human subjects to the IRB member or alternate in the College of

Psychology. The designated College of Psychology IRB member is responsible for reviewing this documentation for completeness and determining if the research warrants review by the IRB. Research that is regarded as not having potential risk to subjects will be exempted from review by the IRB following review by the College of Psychology IRB member/alternate.

If the IRB member/alternate determines that the proposed research poses potential risk to subjects, the principal investigator will be directed to submit one copy of the submission form and 22 copies of the protocol, including all consent forms and research instruments to be used in the study, to the Office of Grants and Contracts. The College of Psychology IRB representative informs the Office of Grants and Contracts that an applicant is sending a protocol. Upon receipt of all required paperwork, the Office of Grants and Contracts will assign a protocol number and forward all copies to the IRB members. The IRB chair or the chair's designees, in consultation with the Office of Grants and Contracts, will determine if the research can be reviewed through expedited review. After IRB review the Office of Grants and Contracts will notify the principal investigator of any changes that must be made and about decisions of approval or disapproval.

Remember that all research including that done with clinic clients, students, or volunteers must be submitted to the College of Psychology IRB representative. Policies and procedures can be accessed at the IRB Web site at [www.nova.edu/cwis/ogc/irb](http://www.nova.edu/cwis/ogc/irb).

## **INTERNATIONAL STUDENTS**

Nova Southeastern University is authorized by the Student and Exchange Visitor Program (SEVP) to accept international students at its Main Campus in Davie, Florida, and at its regional campuses in Florida and Puerto Rico.

Prior to seeking admission to one of NSU's regional campuses, the student must check with the academic program office to ascertain that a full course of study is available at that campus for the full duration of their degree program. All international students are responsible for maintaining legal status as an F-1 student in the United States.

Once an international student has been admitted to an NSU academic program, the Office of International Students and Scholars (OISS) will assist him/her in obtaining a form called the I-20. This is the form the student will have to show at the American Embassy or Consulate in their country to obtain a student visa. To obtain information on the documentation needed to obtain an I-20, please visit <http://www.nova.edu/internationalstudents/prospective/i20.html>

## **COLLEGE OF PSYCHOLOGY STUDENT AID PROGRAMS**

College Scholarships: The College of Psychology maintains a limited amount of scholarship funds. Information on various scholarships, including COLLEGE OF PSYCHOLOGY, is available at: <http://www.nova.edu/cwis/finaid/scholarships/index.html>

## **COLLEGE OF PSYCHOLOGY STUDENT EMPLOYMENT**

Student employment opportunities are available within the College of Psychology or its affiliates. These positions are generally awarded on a competitive basis and usually require a 10- to 20-hour time commitment per week.

**Assistantships:** Assistantships are available for COLLEGE OF PSYCHOLOGY students through the College. Included are clinical positions within the various clinics, graduate assistantships, research assistantships, and teaching assistantships. Contact the Director of employee services for information regarding the availability of assistantships.

## **STUDENT FACILITIES**

### **College of Psychology Testing Library**

The College maintains its own library of testing instruments and kits for use by current clinical and school psychology students, College of Psychology, Psychology Services Center and Consortium interns and College of Psychology faculty. Loan arrangements may vary according to the course and equipment involved. Conditions will be explained by the course instructor. It is the responsibility of the student to check the test kits and materials to verify they are complete and undamaged at checkout. **The student is held responsible for replacement of lost or damaged tests, materials, and/or equipment checked out from the Testing Library. Renewed tests are due one week from renewal date, unless otherwise specified. Overdue tests will be assessed a fee of \$3.00 per day per test, excluding weekends and holidays.**

### **Main Campus Mailboxes**

All main campus students are assigned personal mailboxes. These mailboxes provide for communication between the College and students. Therefore, it is imperative that students check their mailboxes routinely. Students should have regular mail sent to their home addresses.

### **Notice (Bulletin) Boards**

Notice boards are located in various locations in the Maltz Psychology Building. These boards are a valuable source of information regarding class schedules, typing services, student meetings, Dissertation proposal and final research defense meetings, CCEs, continuing education seminars, apartments for rent, etc.

After approval from the Office of the Dean, students may post notices on the bulletin boards located in the first floor lounge, the student carrel area, and designated bulletin boards on the second floor. Other boards are for department or University use only. Students are prohibited from posting, altering, or removing notices or messages from these boards. No announcements or notices may be posted anywhere, on doors, walls, or in the elevator.

## **HURRICANE INFORMATION**

In the event of a pending hurricane, the President of the University will determine whether the University will close. Information on the closing of the University will be available from the 24 hour "Hurricane Hotline" at 1.800.256.5065. Off-campus students should contact the program office or where applicable the off-campus student education College for updated information.

# COLLEGE OF PSYCHOLOGY ORGANIZATION

## College of Psychology Organization

Karen S. Grosby, Ed.D., Dean  
Thomas Fagan, Ph.D., Associate Dean  
John E. Lewis, Ph.D., Chair, Department of Clinical & School Psychology  
Carolyn Berger, Ph.D., Chair, Department of Counseling Psychology  
Glenn Scheyd, Ph.D., Chair, Department of Psychology and Neuroscience

## **FACULTY PROFESSIONAL INTERESTS**

### **Full-Time Faculty Department of Clinical & School Psychology 2015-2016**

**Amarilis Acevedo, Ph.D., ABPP**, University of California, associate professor. Geriatric psychology; neuropsychological assessment.

**Ryan Black, Ph.D.**, Nova Southeastern University, assistant professor. Psychometrics, including Classical Test Theory and Modern Test Theories (e.g., Item Response Theory); linear and nonlinear mixed effects regression models; research design and methodology; assessment and treatment of serious and persistent mental illness; post-marketing surveillance of prescription opioid abuse.

**Paula Brochu, Ph.D.**, University of Western Ontario, Canada, assistant professor. Prejudice, stereotyping, discrimination, and stigma from the perspectives of both the perceiver and the target, including the processes underlying the expression of prejudice, as well as the consequences of stigma on human functioning.

**Stephen N. Campbell, Ph.D.**, Howard University, associate professor. General clinical/community psychology of social change; dual diagnosed; program design and consultation; conduct disorder.

**Peter Caproni, Ph.D.**, Adelphi University, assistant professor. Therapeutic/collaborative assessment; school-based consultation; psychological services within schools; emotional/behavioral issues with children and adolescents.

**Ralph E. (Gene) Cash, Ph.D., ABPP, NCSP**, New York University, professor. School psychology; psychoeducational assessment, diagnosis, and treatment; depression; anxiety disorders; suicide prevention; forensics, including child custody, wrongful death effects, and disabilities; stress management; and psychology and public policy.

**Alexandru F. Cuc, Ph.D.**, New School University, associate professor. Cognitive psychology; conversational remembering; group dynamics; collective amnesia of traumatic events; autobiographical memories.

**Jennifer Davidtz, Ph.D.**, University of Massachusetts Amherst, assistant professor. Community mental health; the treatment of long-term mental illness, borderline personality disorder, and complex trauma; countertransference and other intersubjective psychotherapy process phenomena; psychotherapy integration.

**Christian DeLucia, Ph.D.**, Arizona State University, associate professor. Emergence of problem behaviors during adolescence, with a particular emphasis on adolescent substance use and abuse; statistical methods for the analysis of longitudinal data; and methodological issues relevant for the design and analysis of psychosocial interventions.

**Frank A. De Piano, Ph.D.**, University of South Carolina, professor. Professional interests include hypnosis (past president of Division 30, Psychological Hypnosis), community psychology, health and medicine, and the development of models for professional training of psychologists.

**William Dorfman, Ph.D., ABPP**, Ohio State University, professor. Community mental health; short-term approaches to psychotherapy; eclectic approaches to individual and marital psychotherapy; psycho-diagnosis; objective personality measurement with the MMPI-2 and MMPI-A; role of families and primary caretakers in the treatment and rehabilitation of the chronically and severely mentally ill.

**Jan Faust, Ph.D., ABPP**, University of Georgia, professor. Child-clinical and pediatric psychology: child abuse (sexual and physical) and neglect; child treatment outcome research; PTSD in children and adolescents; child adjustment to acute and chronic medical conditions; lifespan psychosis.

**Ana Imia Fins, Ph.D.**, University of Miami, associate professor. Health psychology, sleep medicine; insomnia; chronic fatigue syndrome; posttraumatic stress disorder; periodic limb movement disorder.

**Diana Formoso, Ph.D.**, Arizona State University, assistant professor. Risk and protective factors that shape youth development within low-income, ethnic minority families; family conflict, parenting, and child outcome and how they are impacted by families' ecological and cultural context (e.g., economic hardship, neighborhood risk, immigration and acculturation); intervention development for ethnic minority children and families experiencing adversity; the family lives and school experiences of immigrant youth.

**Barbara Garcia-Lavin, Ph.D.**, Nova Southeastern University, assistant professor. Director of Internship Training. Psychological assessment, training/supervision, autism and developmental disabilities, youth aggression and conduct problems, health psychology, and school psychology.

**Steven N. Gold, Ph.D.**, Michigan State University, professor. Adult survivors of childhood sexual abuse; dissociative disorders; psychological trauma and post-traumatic stress disorder; sexual addiction; doctoral level clinical training; hypnotherapy; interpersonal, family, and systems theory and intervention; psychotherapy case conceptualization and treatment planning.

**Charles Golden, Ph.D.**, ABPP/ABCN, University of Hawaii, professor. Neuropsychology of head injury, stroke, and multiple sclerosis; neuropsychological and personality assessment; rehabilitation and community reintegration following brain injury; neuropsychology in childhood and in school settings; learning disabilities; hyperactivity; general assessment.

**Alan D. Katell, Ph.D.**, West Virginia University, professor. Assessment and treatment of eating disorders; psychological factors in cardiac rehabilitation; exercise promotion and maintenance; health psychology; coping with chronic illnesses and other physical challenges.

**Jeffrey L. Kibler, Ph.D.**, University of Miami, professor. Cognitive-behavioral regulation of emotion/mood disorders. Behavioral medicine: biobehavioral aspects of posttraumatic stress, psychosocial stress, and pain; psychosocial risks for illness (e.g., heart disease); health risk reduction; psychophysiology; minority health: predictors of biobehavioral research participation for individuals of racial minority.

**John E. Lewis, Ph.D.**, Syracuse University, professor. Intercultural psychotherapy and assessment; counseling and psychotherapy with prison populations; educational and vocational assessment and counseling; school psychology; international perspectives.

**Stephen C. Messer, Ph.D.**, University of Mississippi, Oxford, associate professor. Research methods; multivariable statistics, latent variable models, longitudinal design and analysis; diagnostic validity and measurement; developmental epidemiology and psychopathology; military psychology and combat-related PTSD.

**Wiley Mittenberg, Ph.D., ABPP-CN**, Chicago Medical School, professor. Neuropsychology of head injury in adults and children, the neuropsychology of age related dementias, neuropsychological and psychological test construction, interpretation, and validation, and professional issues in clinical neuropsychology.

**Timothy R. Moragne, Psy.D.**, Wright State University, professor. Minority issues; health psychology; community psychology; human sexuality; psychological aspects of AIDS; AIDS and minorities.

**Barry Nierenberg, Ph.D., ABPP**, University of Tennessee, associate professor. Rehabilitation and Health Psychology: psychological factors in chronic illness, biopsychosocial aspects of wellness and disease, healthcare disparities, pediatric psychology, child and family adaptations to acute and chronic medical conditions. The business of psychology and professional credentialing.

**Scott Poland, Ed.D.**, Ball State University, professor. Professional experience has included leading national crisis teams and primary interests are suicide intervention, crisis intervention, youth violence, self-injury, school safety and delivery of psychological and counseling services in schools.

**Bady Quintar, Ph.D., ABPP**, University of Kentucky, professor. Projective techniques; psychoanalytic psychotherapy; ego psychology; postdoctoral training.

**David Reitman, Ph.D.**, University of Mississippi, professor. Cross-setting (home and school) problems involving children and adolescents. Emphasis on disruptive behavior (i.e., attention deficit/hyperactivity disorder, oppositional defiant disorder, conduct disorder). Interventions are behaviorally-based, empirical, and focus on parent disciplinary practices, problem-solving, and skills building.

**Stephen A. Russo, Ph.D.**, Nova Southeastern University, associate professor. Sport psychology; sports medicine, physical rehabilitation, and recovery from injury;

performance enhancement and coaching consultation; anxiety, anger, and emotional regulation; counseling college student-athletes, performance artists, and athletes of all ability levels.

**Barry A. Schneider, Ph.D.**, Columbia University, professor. Psychodiagnosis and personality evaluation; integrated psychotherapy; medical psychotherapy; rare neurological disorders.

**David Shapiro, Ph.D., ABPP**, University of Michigan, professor. Forensic psychology; mental health law; forensic and clinical assessment; expert witness testimony; malingering; legal and ethical issues.

**Jedidiah Siev, Ph.D.**, University of Pennsylvania, assistant professor. OCD and related disorders; scrupulosity; judgment and decision making, cognitions, and information processing in OCS and related disorders; anxiety disorders; psychotherapy outcome research; empirically-supported research.

**Edward R. Simco, Ph.D.**, Nova University, professor. Applied and computational statistics; research design and evaluation; cluster analysis; psychometrics.

**Linda C. Sobell, Ph.D., ABPP**, University of California, Irvine, professor. Alcohol, tobacco, and other drug use disorders; cognitive-behavior therapy; research dissemination; assessment and treatment evaluation; natural recovery; motivational interventions; professional issues.

**Mark B. Sobell, Ph.D., ABPP**, University of California at Riverside, professor. Substance use disorders, especially alcohol use disorders; behavior therapy; motivational interventions; treatment outcome evaluation; public health approach; processes of persuasion and behavior change; philosophy of science.

**Ashley Stripling, Ph.D.**, University of Florida, Gainesville, assistant professor. Geropsychology, clinical training, research and advocacy, promotion of successful, healthy aging through advocacy and clinical interventions; understanding ageism, subjective aging, and the intersection of aging language and perceptions; combating ageist stereotypes.

**Lourdes Suarez-Morales, Ph.D.**, University of Missouri-Columbia, assistant professor. Cultural factors in clinical research. Cognitive, environment, and cultural factors and their relationship to anxiety in youth.

**Jessica Valenzuela, Ph.D.**, University of Miami, assistant professor. Pediatric psychology; Disparities in child health outcomes and health care quality; chronic illness prevention and disease management; Psychologists in medical settings; Community-based participatory research approaches and academic-community partnerships for health.

**Sarah Valley-Gray, Psy.D., ABPP**, Nova University, professor. Neuropsychological, psychological, and psychoeducational assessment; pediatric neuropsychological disorders; psychological services within the schools; infancy and child development (interaction with

caregiver); issues of professional development including training and supervision.

**Vincent B. Van Hasselt, Ph.D.**, University of Pittsburgh, professor. Family and interpersonal violence; police psychology; criminal investigative analysis (psychological profiling) and apprehension; interviewing and interrogation techniques; cognitive behavioral interventions with juvenile offenders; behavioral criminology.

**Angela Waguespack, Ph.D.**, Louisiana State University, associate professor. Psychological, psychoeducational and functional behavior assessment; school-based consultation; psychological services within schools; behavioral interventions with children and adolescents.

**Lenore Walker, Ed.D., ABPP**, Rutgers, State University of New Jersey, professor. Forensic psychology; expert witness testimony; battered women syndrome; violence against women; family and interpersonal violence; sexual harassment; impact of trauma; post-traumatic stress disorder; feminist theory.

### **Professors Emeriti**

**W. Joseph Burns, Ph.D., ABPP**, University of North Dakota. Lifespan developmental neuropsychology; developmental neuropsychology; neuropsychological effects of toxins, infections, and head injury in children; neuropsychiatric disorders in the elderly; pediatric neurorehabilitation.

**Bernard Eingold, Ph.D.**, University of Florida. Individual psychotherapy; marital and couple therapy; psychodiagnosis.

**A. Eugene Shapiro, Ph.D., ABPP**, New York University. Psychodynamic psychotherapy; health services delivery systems; third-party reimbursement for mental health services; communicative processes in psychotherapy; professional issues.

### **Full-Time Faculty from Other NSU Colleges**

**Michelle Gagnon Blodgett, Psy.D.**, Nova Southeastern University. Geropsychology, interdisciplinary healthcare teamwork, mental capacity, elder abuse, well-being in later-life.

**Tom Kennedy, Ph.D.**, University of Miami. Neuropsychological assessments, behavioral medicine interventions, psychotherapy, group therapy, family therapy

**Jose A. Rey, Pharm.D., BCPP**, University of Florida. Psychopharmacology, pharmacoeconomics, pain management.

## Part-Time Core Faculty

**Lori Eickleberry, Ph.D.**, Nova Southeastern University. Behavioral medicine (addictions, eating disorders) and dual diagnosis; motivational interviewing; psychological assessment, case conceptualization and intervention strategies with complex cases; development of an work within a private practice setting; psychotherapy with GLBTQ.

**Scott Simon Fehr, Psy.D.**, Nova University. Group and individual psychotherapy; marriage counseling, corporate consultation and expert witness testimony.

**Mitchell Gordon, Ph.D., ABPP**, University of Mississippi. Family marital therapy; group psychotherapy; child and adolescent therapy, dually diagnosed (emotionally disturbed/mentally handicapped); relaxation training; assertiveness training; treatment program design and implementation; staff development; psychological assessment.

**James J. Kaikobad, Psy.D.**, Nova University. Individual, group and family therapy; neuropsychology; rehabilitation psychology; behavioral medicine; biofeedback; forensic neuropsychology.

**Traci Schatzburg, Ed.D., NCSP**, University of Sarasota. School psychology. Response to Intervention/Multi-Tiered System of Supports; intervention strategies; bullying prevention; behavior analysis

**Adam Schulman, Ph.D.**, Nova Southeastern University. Individual and group therapy with adults; marital and family therapy; parenting issues.

**Alicia Scott, Ph.D.**, University of Florida. School psychology; cognitive and psychoeducational assessment; private practice; intervention strategies; reading; early childhood and lifespan development; professional development.

**Jean Thaw, Ph.D.**, Louisiana State University. Eating and weight disorders; weight loss and weight gain prevention in children and adults; physical activity and health promotion; cognitive behavioral therapy; anxiety disorders

**Victor O. Wallen, Ph.D.**, Florida International University. Social welfare; cross-cultural understanding; substance abuse; individual and group therapy; family and marital therapy.

## Clinical Faculty

**Kristen Jones, Psy.D.**, Nova Southeastern University, assistant clinical professor; assistant Director, School Psychology Assessment and Consultation College. School psychology; psychoeducational assessment and intervention planning, implementation, and monitoring; preschool and school mental health; assessment of autism spectrum disorders; parent-mediated interventions; and developmental-behavioral pediatrics.

**Lisa Lashley, Psy.D.**, Nova Southeastern University, assistant clinical professor, Assistant Director of the Neuropsychological Assessment College.

**Ana Martinez, Psy.D.**, Nova Southeastern University, associate clinical professor; Director of Clinical Services. Cognitive-behavioral therapy; child, adolescent, adult, and family therapy; specialty anxiety disorders, cross-cultural issues.

**Leonard Schnur, Psy.D., ABPP**, Nova Southeastern University, associate clinical professor. Clinical supervision and training; interests include treatment of mood disorders for adult and adolescent populations, time-limited dynamic psychotherapy, and psychotherapy integration approaches for treatment of personality disorders.

**Yukari Tomozawa, Psy.D.**, Nova Southeastern University, assistant clinical Professor. Provides treatment for children, adolescents, and families as well as psychological testing. Interests include ADHD, Bipolar disorder, anxiety disorders and other chronic mental illnesses.

**Adjunct Faculty  
2015 – 2016**

Beatriz Amador, Psy.D.  
Carlos Albizu University

Rhett Brandt, Ph.D.  
University of Alabama

Revised 9/01/15

Appendix I

## **DISSERTATION GUIDELINES**

**College of Psychology  
Nova Southeastern University**

**May 2011**

## I. INITIATING THE DISSERTATION PROCESS

The Dissertation is the culmination of the Ph.D. student's research training and the student's entry into a research or academic career. It is done under the supervision of faculty, but it is to be substantially the student's independent, original work, properly citing ideas or quotes from other sources. It is to be a study of publishable quality. Like all published studies, it can answer only certain questions, but can demonstrate the student's scholarship, research acumen, and writing ability, all of which are predictive of subsequent research competence.

### Registration for Dissertation

**In order to register for Dissertation, the student must complete a Prospectus signed by a Chairperson. In addition, the Dissertation Committee Approval form must be submitted prior to registration.** This form may be obtained from and, when completed returned to, the Academic Affairs Office for review. The student is to enroll for six credits in each of two semesters. If Dissertation is not complete, the student must register each Fall and Winter semester for one credit of Continuing Dissertation until completion.

### Dissertation Committee

Doctoral Program Dissertation Committees require approval by the Director of Academic Affairs (DAA) and the Dean in accordance with the College of Psychology's policy. For this to occur, the DAA will forward the completed Dissertation Committee form to the Dean for approval.

A Dissertation Committee will consist of three members, two of whom must be full-time faculty of the College. Each Committee member must be approved on the basis of eligibility and expertise in the topic area. Doctoral Dissertation Committees must be chaired by an eligible full-time College of Psychology faculty member. Each member is reviewed by the Director of Academic Affairs, based on information provided in updated faculty curriculum vitae and periodic surveys conducted on faculty research activities. Eligible faculty members are those who possess expertise in Dissertation area of study, have served previously on a Dissertation Committee, and have a record of scholarly research. The third member may be full-time or approved part-time faculty from the College or an approved full-time faculty from another University College or regionally accredited University. Members must possess an earned doctorate from a regionally accredited institution, and be an active scholar with demonstrated capabilities for research/scholarship and for directing independent research.

A member from outside the full-time faculty may be added with the *Committee chair's endorsement* and the DAA's approval. When a student requests a Committee member who is not a full-time faculty member at the College of Psychology, they must submit the proposed member's curriculum vitae outlining qualifications and recent publications and/or research pertinent to the proposed study. The DAA reviews these credentials for approval to serve as a member of the Dissertation Committee. Eligibility for participation on student Dissertation Committees includes:

Research congruent with the proposed project  
Publication within the five years  
Previous experience directing research activities  
Previous experience serving on Dissertation Committees\*  
\*Applies to eligibility to chair Dissertation Committee

Any changes to the Committee membership while the Dissertation is in progress must be approved by the DAA and the Dean. **There are no exceptions to these policies.**

The student should discuss first with the chair and then with Committee members procedures to be followed. Early discussions and drafts may involve only the chair or some or all Committee members. The student should ascertain expected turn-around times (which may vary with time of year) for each Committee member to return drafts.

## **II. DEVELOPING AND WRITING THE DISSERTATION PROPOSAL**

After the formation of the Dissertation Committee, the student must develop a formal Dissertation proposal. While different Committees may function in slightly different ways, the student should first discuss the research problem for the Dissertation with the Committee chairperson and the Committee members. The student should confer with the Committee as to how to proceed with the proposal.

Dissertation proposals should contain at least three major sections. These are:

- I. Statement of the Problem
- II. Review of the Literature
- III. Method

With the Committee's approval, these may be written as the *first three chapters* of the Dissertation. Alternatively, they may be written as a proposal rather than in chapter form. Students should discuss with their Committee which approach to use. Proposals must be written in APA style in accordance with the current *Publication Manual of the American Psychological Association* (i.e. double-spaced draft format except for references).

### **Statement of the Problem**

The first section of the proposal should provide the introduction to the problem to be addressed by the Dissertation research. The problem statement should cite relevant literature as necessary to support the existence of the problem plus pertinent background information. At the conclusion of the problem statement, the reader should have a clear understanding of the problem to be addressed by the Dissertation.

### **Review of the Literature**

This section should *critically review* the literature relevant to the Dissertation problem. The extent of the review is in part determined by the Committee, but all relevant research directly bearing on the Dissertation problem should be included. Every effort should be made to include

the most recent relevant literature. Historic literature should be included to the extent that it is directly relevant.

At the conclusion of the literature review, there should be a statement to the effect: “The problem addressed by the proposed research is...” This statement should be followed by either the specific research hypotheses *or* by the research questions. Hypotheses in null form are not appropriate.

## **Method**

While all aspects of the proposal are important, the method section is critical since it presents the details of the research process. While the exact content of this section will vary as a function of the nature of the particular research, generally the method section should include the following topics:

1. Subjects or participants (numbers, characteristics, population sample, selection criteria, etc.)
2. Measures (detailed descriptions; if tests are to be employed, include indices of reliability and validity).
3. Treatments (if independent variable(s) is/are manipulated)
4. Procedures (give sufficient detail for an independent researcher to replicate the study).
5. Analyses (describe the proposed analytic process whether graphical, statistical, or other).

In general, the student should assume that the readers of the proposal are knowledgeable psychologists, but ones who may not be experts in the particular area addressed by the proposal.

It is desirable for the student to have run pilot studies as part of the proposal. The purpose of the pilot work should be to familiarize the student with the subject characteristics and the methods and to demonstrate the feasibility of the procedures. It is not uncommon for proposals to be modified after running pilot studies.

### **III. DEFENDING THE DISSERTATION PROPOSAL**

The Dissertation proposal must be defended successfully no later than **October 1 of the year preceding the start of your internship**. Students who entered the program in 2007 or prior to 2007 are exempt from this requirement. The following guidelines are to be observed in the defense process both for the proposal and the final Dissertation:

1. The student must secure the approval of all Committee members to schedule a defense and identify a time agreeable to all of them.

2. The final version of the proposal must be distributed to the Committee at least two weeks prior to the defense.
3. An official notice of the defense must be posted two weeks prior to the defense. The student should provide the information to Word Processing, which will secure a room, do the posting, and distribute an abstract to the faculty.
4. A formal defense must involve a public in-person presentation open to all faculty and students of the School of Psychology. Others may attend at the discretion of the Dissertation chair. The study is described in detail, and then the Committee addresses questions to the student. At the chair's discretion, others in attendance may be recognized to ask questions.
5. After the presentation, the psychology faculty present and the Committee will remain in the room for discussion. All others, including the Dissertation student, will be excused. Faculty will be polled for comments. Any decision about modifications remains with the Committee members.
6. It is the responsibility of the Committee chair to see that any modifications agreed upon by the Committee are accurately recorded.
7. If the defense is successful, a memo from the chair must be written to the Dean of the School of Psychology stating that the proposal has been accepted, with copies to the Director of Academic Affairs and the student.
8. A file copy of the proposal with any modification should be maintained by the Dissertation Chair.
9. If the written document and/or the defense are not acceptable to the Committee, the student must make all requested revisions in the proposal and schedule a new defense repeating the above steps.

#### **IV. CONDUCTING THE DISSERTATION RESEARCH**

Following a successful proposal defense, and prior to submitting the proposal study to the Institutional Research Board for approval, the student must complete CITI training. (See IRB guidelines and forms on the College of Psychology homepage sites of interest.) If the IRB requires any changes, the student must present these to the Committee for its approval. The student should allow sufficient time for IRB approval before beginning the research.

Following a successful proposal defense and IRB approval, the student may begin the research, incorporating any modifications resulting from the defense. It is important that the student follows proposed procedures to the extent possible. In the event that procedures must be modified, such changes should be cleared with the student's Committee in order to avoid problems with the final defense.

The student's Dissertation Chair is responsible for monitoring the use of research data to protect the originality of the Dissertation. The Dissertation Chair is also responsible to approve or disapprove requests by others in or out of the school to use the student's data prior to publication of the Dissertation by the University; that is, when bound Dissertation is submitted to the library and made available to the public (see student Handbook for full policy).

## V. WRITING THE DISSERTATION

The student must adhere to the following guidelines in preparing the completed Dissertation. It must be written in the style specified by the American Psychological Association and this document. For the most part, the guidelines in this document have been adapted from the current edition of the *Publication Manual of the American Psychological Association*. It is the student's responsibility to see that the Dissertation is in the proper format. Looking at previous Dissertations usually will be helpful, but the final authority will be the most current edition of the *Publication Manual of the American Psychological Association*.

The student should read the section in the *Publication Manual* on Dissertations. Note that most of the *Publication Manual* guidelines are for submitting a manuscript to an editor, whereas the Dissertation is a final publication, like a book. Drafts to the chair and the Committee should be double-spaced and need not follow all of the guidelines below; however, the final copy distributed to the Committee and the approved version to be bound must adhere to all of these guidelines. The guidelines in this document supersede those of the *Publication Manual* on a number of points, consistent with the Dissertation's being a final publication.

The Dissertation should consist of the sections shown in Table 1. Variations from the above five chapters are permissible but should be cleared in advance with the student's Committee.

**Table I**  
**Sections of the Dissertation**

Title Page  
Approval Page  
Acknowledgments  
Table of Contents

List of figures  
Abstract  
Chapter I: Statement of the Problem  
Chapter II: Review of the Literature  
Chapter III: Method  
Chapter IV: Results  
Chapter V: Discussion  
References  
Appendices

**Acknowledgments**

This section should note anyone who has contributed to the formulation and conduct of the Dissertation, including faculty members and other students. It also should acknowledge any permission granted to quote from published works or to use unpublished measures or protocols. Note that the College of Psychology follows the APA guideline of requiring permission to quote 500 words or more (Cumulative words if more than one quote from a single source). In such cases, the student must secure and show to the Dissertation chair letters of permission received from the copyright holder (publisher or author).

**Title and Abstract**

The title of the Dissertation should describe the Study and contain the appropriate key words. The number of words in the title should not exceed 15. The maximum length for a Dissertation abstract is 350 words in keeping with the guideline of *Dissertation Abstracts International*. Abstracts should adequately summarize the problem, method, results, and the conclusions.

## **Figures, Table, and Footnotes**

These are to be placed at the appropriate point in the text within the body of the Dissertation (not at the end). Short tables may appear on a page with some text. Each long table and each figure are to be placed on a separate page immediately following the first reference to them. Large tables should be typed on larger paper and reduced to the proper size by photocopying. Figure captions are typed below the figure, or in some cases, on the preceding or facing page (it is preferable to have captions on the same page). Footnotes to the text are typed at the bottom of the page on which they are referenced; footnotes should be used sparingly, if at all (See *Publication Manual*).

## **Appendices**

Although space usually limits the use of appendices in journal articles, the need for complete documentation often dictates their inclusion in a Dissertation. The following materials are appropriate for appendices: verbatim instructions to subjects, consent forms, and instruments scales or questionnaires developed for the study (not previously published ones). Other materials may be included as necessary, to explain the study and to permit independent replications. If possible, merge word-processed files for these documents into the Dissertation; if original materials are used, page numbers must be typed onto them.

# **VI. TYPING THE DISSERTATION**

## **Margins**

The left-hand margin must be one and one-half inches; the top, side, and bottom margins must be a minimum of one inch. The top margin on the first page of a new chapter may be larger than other margins. It is essential that the margin requirements be carefully observed because some of each margin is trimmed in the binding process.

## **Fonts**

Do not use script or other unusual font types; these do not reproduce properly. Use Times New Roman 12-point font. Use italics instead of underlining for book titles, etc. Use bold for all headings. No corrections are permitted on the printed pages: any pages requiring corrections must be retyped and reprinted. The final appearance must be clean and professional.

## **Spacing and Justification**

As per the APA Publication Manual guidelines, double-spacing is required throughout the final version of the Dissertation. Long quotations should be indented five spaces. Full justification should be used to provide a professional-looking document. Single-spacing can be used for table titles and headings, figure captions, references (double-spacing is required between references), footnotes, and long quotations.

## Pagination

Two sets of page numbers are to be used in the Dissertation. The preliminary pages (from the title page up to the body of the study) should be numbered with lower case Roman numerals (as is common in books). The second set of numbers begins with the first page of Chapter I and continues throughout the study, references, and appendices. These numbers are Arabic.

Every page of the study must be assigned a number even though that number may be suppressed on some pages. In the set of Roman numerals, the title page is given a number but does not appear. Thereafter each preliminary page must show Roman numerals Collegeed at the bottom of the page. In the set of Arabic numerals, no number appears on the Abstract but is printed on all subsequent pages in the upper right corner.

## Headings

There are five levels of headings. **All headings should be bolded. (See sample p.16):**

Upper-case: centered

Upper and lower-case: centered

Upper and lower-case: italic, centered

Upper and lower-case: italic, left-justified

Upper and lower-case, indented paragraph heading followed by period: italic

## Printing

Laser-jet quality printing is required.

## VII. DEFENDING THE FINAL DISSERTATION

It is advisable that the student maintain frequent contact with the Committee chairperson and with the Committee members throughout the Dissertation process in order to obtain ongoing feedback regarding the research. With the consent of the chairperson, the final defense may be scheduled. All defenses must proceed according to the same guidelines as listed for the proposal defense with the following substitutions:

1. If the Committee accepts both the Dissertation and the student's defense of it, each member will sign the Dissertation approval sheet. The sheet should be dated the day of the defense. The approval sheet should be held by the chairperson of the Dissertation Committee until all revisions, if any, are completed. At that time, the chair should date and sign the final approval section of the approval sheet. This will constitute the official date of completion of the Dissertation.
2. When the Chairperson of the Dissertation Committee is satisfied that all revisions (if any) have been made and that the Dissertation is ready for binding, he/she will submit a research completion form with an attached abstract to the Academic Affairs office.

## VIII. BINDING AND SUBMITTING THE DISSERTATION

It is mandatory that the Dissertation be reviewed for appropriate form by the Office of the Dean prior to submission for binding. The Dean's Office will also provide the name of the binding company approved by the school. **It is the responsibility of the student to pay for preparation and binding the Dissertation.** The following are instructions for the binding process:

1. The Dissertation must be bound in dark blue.
2. The title and author's name is to be printed on the front of the bound copy.
3. The word "Dissertation" and the author's last name must appear on the spine.
4. A gold line should appear at the top and bottom of the spine.
5. Bond paper, with minimum of-25% rag content, must be used for the original copy and for photocopies. Strathmore bond (or equivalent) 20 lb. paper should be used. This paper quality is necessary for the printing in the Dissertation to be durable.
6. Three bound copies are required. The original is submitted by office of the Dean to the library and one copy each is distributed to the Chairperson of the Committee and the Chair of the Clinical and School Psychology.

## IX. UPLOADING YOUR DISSERTATION TO UMI

In addition to the three copies submitted to the office of the Dean, students are required to submit their Dissertation to UMI (Dissertation Abstracts International). A standard fee for the copywriting of the Dissertation is applied to all submissions.

Students are required to submit their Dissertations to UMI (Dissertation Abstracts International). See their website for information: <http://www.etsadmin.com/cgi-bin/home>.

Upon receipt of the bound copies and proof of submission to UMI, degree application will be approved and released.

## X. DEGREE APPLICATION

1. The Online Application for Degree/Diploma must be completed:  
<https://www.nova.edu/sbin/dapp/degreeapp.pl>
2. Before submitting you degree application, you need to make a payment. For more information about the standard payment, go to:  
<http://www.nova.edu/cwis/registrar/instructions.html>

3. All financial obligations to the University must be paid before the degree is conferred.
4. Remember, the receipt of the bound copies and the submission of your Dissertation to UMI must be confirmed before applying for your degree.

**IX. SAMPLE FORMS AND PAGES**

**PROSPECTUS FOR DISSERTATION**

Student must present this completed form when FIRST registering for Dissertation. All subsequent registrations will Fall under this Prospectus. This does not replace the “DISSERTATION COMMITTEE APPROVAL FORM” required by the Dean's Office. (See Dissertation Guidelines)

DESCRIPTION:

---

---

---

Supervisor (Please Print)	Signature	Date
---------------------------	-----------	------

**DISSERTATION COMMITTEE**

**APPROVAL FORM**

(Sample)

Date\_\_\_\_\_

I \_\_\_\_\_ have successfully completed (Name of Student) all the necessary requirements in order to formulate my Dissertation Committee. The Dissertation title is:

My proposed Dissertation Committee is as follows:

\_\_\_\_\_ Chairperson  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

Each of the above faculty members has agreed to serve on my Dissertation Committee.

\_\_\_\_\_  
Student's Signature

Approved:

\_\_\_\_\_  
Karen Grosby  
Dean

cc: Student  
Dissertation Committee Members  
Director of Academic Affairs

## RESEARCH COMPLETION FORM

The supervising faculty member must properly date and return this form with the grade for a final research course (directed study/Dissertation). If it is the last requirement, date of final approval becomes the date for the student's completing the program. This is an important date; for students who have completed all their requirements this date marks the transition to postdoctoral experience.

### PSY.D. DIRECTED STUDY

STUDENT NAME: \_\_\_\_\_  
(Please print)

DATE OF FINAL APPROVAL Abstract must be attached, which will be forwarded to the Dean's office. It must include the title and student name.

### PH.D. DISSERTATION

STUDENT NAME: \_\_\_\_\_  
(Please print)

DATE OF FINAL APPROVAL: \_\_\_\_\_  
(This must be the same as the final approval date on the Dissertation signature page.) (Student is still responsible for submitting bound copies.)

**Jane Psychologist**

Nova Southeastern University

**ABSTRACT**  
(Maximum 350 words)

**SAMPLE OF THE FORMAT**

(Note 5 levels of headings)

**CHAPTER I (Level 5)**

**Statement of the Problem (Level 1)**

Research in social psychology has validated the efficacy methods of changing cognitions and attitudes and provided support for theoretical models of the process. Clinicians have always promoted cognitive and attitudinal changes during psychotherapy and developed various techniques to do so. What is now needed is clinical research to validate the efficacy of well-specified interventions to change cognitions and attitudes.

***Attitude Change (Level 2)***

Research on attitude change has been accumulating for 50 years. The relevance of persuasion and attitude change to psychotherapy has been asserted and clinically relevant research conducted for 30 years.

***Theory and Laboratory Research (Level 3)***

***Early work. (Level 4)*** The first systematic program of research on attitude change was based on learning theory, while more recent work is based on cognitive theory.

Appendix II

**Ph.D. Goals & Competencies**

<b>Goal 1: Demonstrate understanding of the breadth of scientific psychology</b>		
<b>Competency</b>	<b>Measure</b>	<b>Minimum Levels of Achievement</b>
<b>Objective 1.1: Understand biological aspects of behavior</b>		
C1. Understand physiological mechanisms and disorders in vegetative and intellectual functioning, structure and function of the nervous system, and applicable psychophysiological methods	Objective final exam in PSY 1412	B- or higher
<b>Objective 1.2: Understand and apply key principles of cognitive/affective aspects of behavior</b>		
C2. Understand the principal factors influencing human information processing	Midterm and final exams with essay questions in PSY 1416	B- or higher (on average of exams)
C3. Design an empirical study examining the impact of key principles of cognitive/affective variables	Presentation on proposed research study in PSY 1416	B- or higher
<b>Objective 1.3: Understand and apply key principles of social aspects of behavior</b>		
C4. Understand theories of social functioning and their contribution to the advancement of psychological science	Objective final exam in PSY 3403	B- or higher
C5. Evaluate historical theories of social functioning in light of current research	Concept paper or research proposal in PSY 3403	B- or higher
<b>Objective 1.4: Understand history and systems of psychology</b>		
C6. Understand principal formulations of human functioning and their contribution to the advancement of psychological science	Midterm and final exams with essay questions in PSY 1401	B- or higher (on average of exams)
C7. Evaluate historical formulations of human functioning in light of current research	Class presentation on historical formulation of human functioning in PSY 1401	B- or higher
<b>Objective 1.5: Demonstrate understanding of essential measurement theories, psychometric concepts, and empirical bases for assessment*</b>		
C8. Demonstrate understanding of psychometric concepts and methods	Midterm and final exams with essay questions in PSY 3807	B- or higher (on average of exams)
C9. Critique the psychometric basis of published research in clinical psychology	Two article critiques in PSY 3807	B- or higher on average of critiques

<b>Objective 1.5 (con.): Demonstrate understanding of essential measurement theories, psychometric concepts, and empirical bases for assessment*</b>		
<b>Competency</b>	<b>Measure</b>	<b>Minimum Levels of</b>

		<b>Achievement</b>
C10. Develop a proposal for a measure of personal interest using principles of modern test theory	(1) Two problem sets in PSY 3807  (2) test construction project in PSY 3807	(1) B- or higher (on average of problem sets) (2) B- or higher on test construction project
<b>Objective 1.6: Demonstrate understanding of research methodology core concepts</b>		
C11. Understand foundation concepts of research methodology	Final exam with essay questions in PSY 1809	B- or higher
<b>Objective 1.7: Demonstrate understanding of data analysis techniques</b>		
C12. Understand foundation concepts of data analysis	(1) Midterm and final exams in PSY 1807 (2) Midterm and final exams in PSY 2808 (3) Midterm and final exams in PSY 2812	(1) B- or higher (on average of exams) (2) B- or higher (on average of exams) (3) B- or higher (on average of exams)

<b>Goal 2: Produce clinically relevant scientific research and scholarship</b>		
<b>Competency</b>	<b>Measure</b>	<b>Minimum Levels of Achievement</b>
<b>Objective 2.1: Demonstrate proficiency in research design and analysis</b>		
C13. Identify potential confounds and other methodological flaws in manuscripts	Three written critiques of instructor-assigned articles in PSY 1809	B- or higher (on average of critiques)
C14. Write an integrated literature synthesis	(1) Literature synthesis from Major Paper (2) Literature synthesis from Dissertation (Literature review and empirical study rubrics are in Appendix II.)	(1) B- or higher on 4-dimension literature review rubric (2) B- or higher on first three dimensions of empirical study rubric
C15: Conduct a study to provide an optimal test of primary research questions	Dissertation (or other publishable product)	B- or higher on 8-dimension empirical study rubric
<b>Objective 2.2: Demonstrate proficiency in methods of data analysis</b>		
C16: Conduct and interpret commonly used ANOVA models	Four problem sets from PSY 1807	B- or higher (on average of problem sets)
C17: Conduct and interpret commonly used linear and categorical regression models	Four problem sets from PSY 2808	B- or higher (on average of problem sets)
C18: Conduct and interpret commonly used multivariate models	Four problem sets from PSY 2812	B- or higher (on average of problem sets)
<b>Objective 2.3: Disseminate research findings</b>		
C19: Present research findings at meetings of professional societies	Poster/paper submitted for presentation at a regional, national, or international meeting of a professional society	At least one new poster submission by end of years two through four (three submissions in all)
C20: Submit research findings to peer-reviewed journals	Paper submitted for publication in a peer-reviewed	At least one paper submitted for publication by completion

	journal	of fourth year
<b>Objective 2.4: Understand the necessary role of ethical principles and professional standards in the conduct of research</b>		
C21: Apply ethical principles and standards in research	Successful completion of CITI training during PSY 1409	Obtaining CITI certification
C22: Develop sensitivity to potential impacts of individual and cultural diversity on the conduct and reporting of research	Diversity: Research proposal in PSY 1605	B- or higher

<b>Goal 3: Demonstrate understanding of the foundations of practice in clinical psychology</b>		
<b>Competency</b>	<b>Measure</b>	<b>Minimum Levels of Achievement</b>
<b>Objective 3.1: Understand the impact of individual differences on the provision of psychological services</b>		
C23: Understand individual differences and their bearing on diversity, intellectual functioning, and psychopathology	(1) Diversity: Objective midterm and final exams in PSY 1605 (2) Intellectual functioning: Objective final exam in PSY 1501 (3) Midterm and final with essay questions in PSY 1408 (4) Objective midterm and final in PSY 1403	(1) B- or higher (on average of exams) (2) B- or higher (on average of exams) (3) B- or higher (on average of exams) (4) B- or higher (on average of exams)
<b>Objective 3.2: Understand and apply key principles of lifespan development</b>		
C24: Utilize relevant theories and recent literature in developing case formulations involving child and adolescent development	A written developmental case formulation focusing on risk and protective factors in PSY 1405	B- or higher
C25: Utilize relevant theories and recent literature in developing case formulations involving adult development and aging	Biopsychosocial report with key findings supported by conceptual formulations and recent literature in PSY 1407	B- or higher
<b>Objective 3.3: Understand and apply key concepts from theories and recent literature pertaining to psychopathology and dysfunctional behavior</b>		
C26: Demonstrate knowledge of DSM disorders of childhood and adolescence in determining data based diagnoses and rule outs	Class presentations summarizing empirical studies, literature reviews, meta-analyses in PSY 1408	B- or higher
C27: Demonstrate knowledge of current DSM Axis I and Axis II psychopathologies in adulthood including epidemiology, etiology, risk factors, and major theoretical models in determining data based diagnoses and rule outs	Objective midterm and final in PSY 1403	B- or higher
<b>Objective 3.4: Understand the content and necessity of ethical principles and professional standards in clinical practice</b>		

C28: Understand and apply ethical principles and professional standards in clinical practice	Debate grades in PSY 1409	B- or higher (on average of exams)
<b>Goal 4: Demonstrate entry-level clinical skills and competencies necessary for effective work in scientist-practitioner professional roles</b>		
<b>Competency</b>	<b>Measure</b>	<b>Minimum Levels of Achievement</b>
<b>Objective 4.1: Employ evidence based assessment methods</b>		
C29: Understand and use psychological measures appropriate to the specified task	(1) Practicum and supervision ratings re: psychological testing (2) CCE ratings re: pretreatment assessment	(1) Average of 3 or higher on a 5-point subscale (2) Minimum of 80% of the 14 items endorsed
C30: Integrate assessment data to make accurate diagnoses and analyses	CCE ratings re: assessment integration and diagnosis	Average of 2 or higher on a 3-point scale
C31: Use diagnostic and contextual data to inform case conceptualizations	(1) Practicum and supervision ratings re: conceptualization (2) CCE ratings re: conceptualization	(1) Average of 3 or higher on 5-point subscale (2) Average of 3 or higher on 6-point subscale
<b>Objective 4.2: Understand conceptual and empirical bases for psychological interventions</b>		
C32: Demonstrate knowledge of essential theoretical and empirical bases for child and adolescent interventions	Midterm and final exams with essay questions in PSY 2604	B- or higher (on average of exams)
C33: Demonstrate knowledge of essential theoretical and empirical bases for adult interventions	Midterm and final exams with essay questions in PSY 1610	B- or higher (on average of exams)
C34: Demonstrate knowledge of essential theoretical and empirical bases for systems and family interventions	Final essay exam in PSY 2603	B- or higher
<b>Objective 4.3: Employ effective intervention strategies and assess outcomes</b>		
C35: Deliver evidence-based and empirically supported treatments to individuals, couples, and families whenever available	(1) Practicum and supervision ratings re: intervention (2) Practicum and supervision ratings re: rapport (3) CCE ratings re: intervention (4) CCE ratings re: rapport	(1) Average of 3 or higher on 5-point subscale (2) Average of 3 or higher on 5-point subscale (3) Average of 3 or higher on 6-point subscale

		(4) Average of 5 or higher on 9-point subscale
--	--	--

<b>Objective 4.3 (con.): Employ effective intervention strategies and assess outcomes</b>		
<b>Competency</b>	<b>Measure</b>	<b>Minimum Levels of Achievement</b>
C36: Communicate assessment and intervention findings and outcomes effectively	(1) Practicum and supervision ratings re: language skills (2) CCE ratings re: communication	(1) Average of 3 or above on 5-point subscale (2) Exceeding minimum level on 2 of 3 subscales
<b>Objective 4.4: Integrate other aspects of effective clinical functioning</b>		
C37: Incorporate diversity issues whenever possible into the formulation and delivery of all psychological services	(1) Practicum and supervision ratings re: diversity application (2) CCE ratings re: diversity	(1) Average of 3 or above on 5-point subscale (2) Average of 3 or above on 6-point subscale
C38: Apply ethical principles and professional standards in the formulation and delivery of all psychological services	(1) Practicum and supervision ratings re: ethical application (2) CCE ratings re: ethics	(1) Average of 3 or above on 5-point subscale (2) Average of 3 or above on 6-point subscale
C39: Integrate aspects of clinical functioning commensurate with level of training	(1) CCE ratings re: overall pass rate (2) Internship rating	(1) 95% or above (2) 3 or above on 5-point item
