N. UNIVERSITY RESEARCH MENTORING EXPERIENCE

Before joining the UCLA/Duke University National Center for Child Traumatic Stress as a Program Director in 2006, I served as a research mentor/chair on one master's thesis and three doctoral dissertations. I either furnished the data for these studies from my Bosnian data sets or created the opportunity for data collection using my Bosnian professional network:

Erskine, D. (2004). *Factor and Discriminant Validity of the Hightower Adolescent Rating Scale* (unpublished Master's Thesis). Brigham Young University.

And three doctoral dissertations:

Mortensen, J. (2005): *Associations between Cognitive Functioning and Posttraumatic Stress Reactions in War-Exposed Bosnian and Slovenian School Teachers* (unpublished doctoral dissertation). Brigham Young University.

Houston, R. (2006). *Associations among post-war adversities, parent well-being, parent-adolescent relationships, and adolescent outcomes in Bosnian youth and their caregivers* (unpublished doctoral dissertation). Brigham Young University.

Al-Sabah, R. (2006). *Long-term academic and psychosocial adjustment of Bosnian youth and their caregivers: A mixed-method study* (unpublished doctoral dissertation). Brigham Young University.

I also ran three research labs (Traumatic Stress Research Lab, Grief Research Lab, Developmental Psychopathology Research Lab) and one teaching lab (Psychological Assessment and Testing Teaching Lab) while at BYU. I have published with undergraduate and graduate students out of each of the research labs in the form of peer-reviewed posters, symposia, articles, and invited book chapters. I have also mentored approximately 100 undergraduate students over my career and was instrumental in helping over 40 undergraduates enter competitive post-graduate training programs, including Duke Law School, University of Minnesota, University of Kansas, University of Florida, Penn State University, University of Maryland College Park, and Georgia State University. I also created a detailed self-help guide to help undergraduates prepare themselves to become competitive applicants for graduate school in psychology. This guide is a popular download on my academic websites.

Layne, C. M., (2013). *Nineteen Ways to Prepare (Early!) for Graduate School in Psychology*. Unpublished manuscript, University of California, Los Angeles (25 pp.)

Between 2016-2019, I mentored a post-doctoral fellow in instructional design (Hannah Grossman, Ph.D.) whose first two years' salary I supported out of my New York Life Foundation GIFT (Grief Informed Foundations of Treatment) grant. I am collaborating with Hannah and one of her UC Santa Barbara mentors, instructional design expert Dr. Richard Mayer, to develop a curriculum that supports learning of many trauma- and bereavement-focused competencies (such as those issued by the American Psychological Association Division 56, Trauma Psychology). One study from this ongoing effort is currently in preparation (Layne, Mayer, et al., 2019); others have been presented at scientific conferences (Grossman & Layne, 2017, 2018a, 2018b). I was also invited to participate as a mentor in the ISTSS Student Luncheon in 2015 and 2016.

T. CITIZENSHIP

Community and Humanitarian Service

Support to Humanitarian Organizations

1. I served as Field Director (1997-2001) for the UNICEF School-Based Psychosocial Program for War-Exposed Adolescents, a program co-sponsored by UNICEF Bosnia & Herzegovina, local Bosnian Pedagogic Institutes, and the UCLA Trauma Psychiatry Service. The program was implemented in over 30 secondary schools throughout Bosnia between 1997-2001. I have made 18 trips to Bosnia where, in collaboration with Drs. William Saltzman, Robert Pynoos, and Jenifer Maze (UCLA Trauma Psychiatry Service) and Gary Burlingame (BYU Dept. of Psychology), I carried out the following activities:
 - (a) Conducted or co-conducted 21 (three-day), 5 (two-day), and 2 (one-day) UNICEF-sponsored training seminars throughout Bosnia. In these seminars my colleagues and I trained nine local Bosnian mental health professionals and approximately 50 secondary school counselors and their government mental health administrators. Trainings included clinical case studies, clinical demonstrations, role play with feedback, group discussions, and question-and-answer sessions.
 - (b) Consulted with administrators within UNICEF, GTZ (a German humanitarian organization), the Republika Srpska Pedagogical Institute, and the Federation Pedagogical Institute. This involved making policy recommendations regarding the needs of war-exposed youth and the aims, strategies, and programs that government and humanitarian agencies should support.
 - (c) Traveled extensively throughout Bosnia to provide ongoing training and on-site consultation to approximately 20 secondary schools to support program implementation.
 - (d) Wrote project proposals, technical reports, and handled day-to-day administrative, budget-related, and personnel responsibilities.
 - (e) Collaborated with local mental health professionals and UNICEF project officers in program planning, monitoring, and evaluation activities. Evaluation activities included administering questionnaires to Bosnian secondary school students, their parents, and their teachers; and conducting post-group focus groups with students and school counselors.
2. **Layne, C. M.** (June and July, 1999). Consultation to the Center for Crisis Psychology (Bergin, Norway) pertaining to the design of an assessment battery for child and adolescent Kosovar refugees during the crisis in Kosovo.

Consultations to Schools, Community Mental Health Clinics, and Professional Organizations

1. Consulted with Walt Disney Animation Studios director Don Hall and his team regarding a screenplay under development, with a focus on adolescent development and bereavement (April, 2018).
2. As part of the Expert Training and Dissemination Corps of the National Center for Child Traumatic Stress (2002-2005), co-led training workshops and consultation calls with Dr. William Saltzman in implementing Trauma and Grief Component Therapy for Adolescents with New York City mental health providers who were working with traumatized and bereaved survivors of the September 11, 2001 terrorist attacks.
